

Citywide Collection System Pipe Bursting Indefinite Delivery / Indefinite Quantity Part C

Council Presentation
September 12, 2017

Project Location

Project Scope

This project is part of the City's ongoing Program to re-capitalize the aging sanitary sewer collection system and to eliminate overflows and infiltration.

Major activities include:

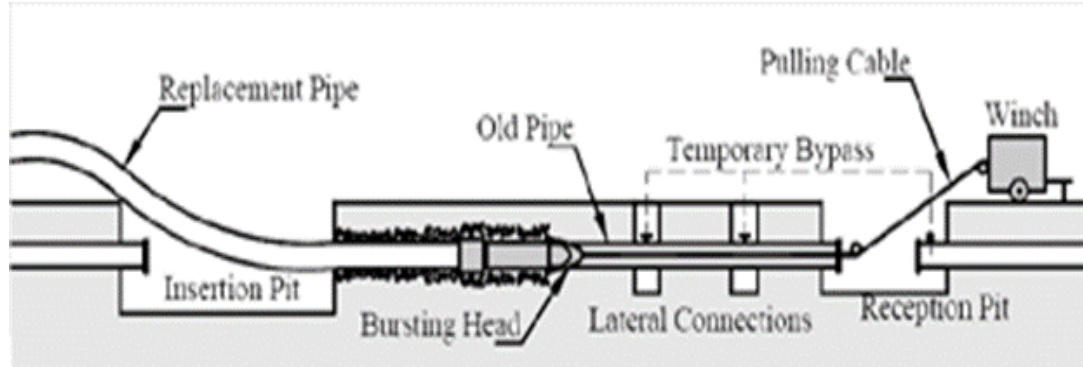

- Multi-Year IDIQ with base year (\$2M) plus 4 optional years
- Rehabilitation / replacement of existing gravity collection lines
- Rehab or replace manholes
- Surface restoration for drill pits and manholes
- Cleaning and televised inspection pipelines
- Temporary traffic control measures

Project Scope

Pipe Bursting Example

Pipe bursting is a trenchless technology used to replace deteriorated pipes with a new pipe of same or larger diameter. Pipe bursting is typically cost-effective for deep pipes and reduces disturbance to streets, business and residents verses open cut technique.
