

CORPUS CHRISTI AQUIFER STORAGE AND RECOVERY CONSERVATION DISTRICT

Three (3) vacancies with terms ending 12-31-2029. Per Resolution 033786, approved 10-21-2025, City Council will appoint two non-city staff member to the board of directors of the Corpus Christi Aquifer Storage and Recovery Conservation District upon expiration of the terms of the next two directors.

Duties

The Corpus Christi Aquifer Storage and Recovery Conservation District develops and protects municipal aquifer storage areas created by the City of Corpus Christi. The district may implement and develop aquifer storage and recovery projects.

Composition

Five (5) directors appointed by the City Council to serve four-year staggered terms. If a vacancy occurs on the board, the board may appoint a director to serve the remainder of the term. The board shall annually elect officers and officers must be confirmed by the City Council. The initial directors shall draw lots to determine which three (3) directors shall serve four-year terms that expire at the end of the calendar year four years after the effective date of the Act, and which two directors shall serve two-year terms that expire at the end of the calendar year two years after the effective date of the Act.

Creation/Authority

H.B. 3513 effective 6/18/05. Chapter 8811, Texas Special District Local Law Code.

I'm a partial owner of AG|CM Inc. and I know we have contracts with the City, but I'm retired and do participate in day-to-day operations.

Board-specific questions (if applicable)

Verification

City Code Requirement - Residency

As a board, commission, or committee member, you will be asked to adhere to City Code of Ordinances, Section 2-65, which states that all members of City boards and commissions, including ad hoc committees, appointed by the City, must be residents of the city. A move outside the city limits of the city by any member shall constitute automatic resignation from the particular board or commission on which such member served.

I Agree

City Code Requirement - Attendance

As a board, commission, or committee member, you will be asked to adhere to City Code of Ordinances, Section 2-61, which provides that absences from more than 25% of regularly scheduled meetings during a term year on the part of any board, commission, or committee member shall result in an automatic termination. An absence shall be deemed unexcused unless excused by the board, commission or committee for good cause no later than its next meeting after the absence.

I Agree

Consent for Release of Information

I understand that if any member of the public makes a request for information included in this application or in any attachment (e.g. resume or supporting documentation) for appointment it is subject to and must be disclosed under the Texas Public Information Act. I understand that under the Texas Public Information Act, my home address and home telephone number is subject to public disclosure unless I am elected or appointed to the position which I seek. I hereby consent to the release of my home address and home telephone number should it be requested under the Texas Public Information Act prior to my possible appointment or election. I hereby release the City of Corpus Christi, and its agents, employees and officers, from any and all liability whatsoever if the information must be released pursuant to the Texas Public Information Act.

PROFESSIONAL EXPERIENCE

AG|CM, Inc.

(2006 to 2016) Chief Executive Officer of AG|CM, Inc. employing professional engineering knowledge and expertise plus visionary planning and resource management skills to advance the Company's growth in the future. Specifically her unique perspective and problem solving skills will facilitate AG|CM in penetrating and establishing itself in new markets throughout Texas and the southwestern states. Ms. Anderson has been an active member of the AG|CM Board since the firm was established in 1999 and is familiar with all aspects of its operations. She will oversee and promote the firms daily operations and long term goals.

El Paso Exploration & Production Company, (formerly Coastal O&G) Corpus Christi, TX

(1996 to 2006) Senior Engineer/Consultant for Jeffress and Monte Christo field areas with 400 wells producing 250 MMCFD and 3500 BOPD having a daily production value of \$1.5 million. Responsible for and supervised completion of all new drill wells, workovers and management of all associated resources. The discovery of new sand under her direction led to offset acreage acquisitions for future production. Ms. Anderson also directed the implementation of innovative completion improvements for casing design, coil tubing heads, perforating and fracture stimulation.

Acock Engineering & Associates, Inc. Corpus Christi, TX

(1992 to 1996) Professional Engineering Consultant for independent oil and gas companies, financial institutions, accounting and law firms. Perform highly successful in-house engineering and on-site work-over supervision thus establishing her reputation for technical and managerial excellence.

Exxon Company, U.S.A.

(1978-1992) Ms. Anderson was one of the early recruits for Exxon's "best and brightest" program when the Company began to actively recruit young women. The program provided training and exposure in all aspects of oil/gas including Civil Engineering, Drilling, Subsurface, Reservoir and Production Engineering. She mastered all the technical and managerial aspects of drilling oil/gas wells, re-completions/stimulations and reservoir management. Positions of responsible charge include Head of the Regional Quality Control Task Force and Manager of fifty four (54) annual contracts.

Ms. Anderson later managed three separate fields culminating with the assignment to the regions largest field having a daily production of 31 million CFD and 300 BOPD. Her innovative well plugging procedures resulted in a savings of \$1.6 billion for 300 wells. Her achievements resulted in the additional assignment as Wellbore Risk Management Supervisor

In 1992, Ms. Anderson became an independent oil and gas consultant when Exxon closed their regional offices in Corpus Christi.

PERSONAL PROFILE

Business Leader. Entrepreneurial business leader (large corporate to startup venture) with university experience. Demonstrated success building and expanding businesses spanning the biotech, supercomputing, semiconductor, energy, communications, and defense contracting sectors. Mentored and advanced in leadership roles in large corporations, proven leadership and team skills in volatile startup challenges. “Hired Gun” to bring technology out of the lab, into the market.

EXPERTISE

- Leadership: Strategic to Tactical: Business & Marketing plans, Implementation, Corporate Finance, Partnerships, Investments
- Product and Project Management (w/finance responsibility)
- Securing Investment: Business Plans, Pitches, Mastery of Investor Relations
- University: Joint Development Agreements/Research Projects, Teaching
- Entrepreneurship: Lecturer/Coaching/Business Incubator: founding & leading, Community Involvement

PROFESSIONAL EXPERIENCE

Unmanned Research Laboratories, LLC 2020-Present
President and CEO of startup venture developing UUV (Unmanned Underwater Vehicle) technologies (attachment, mapping, machine learning, artificial intelligence, fiber and free-space optics, jet ablation) addressing commercial vessel hull cleaning and inspection, and defense opportunities arising from the capabilities presented with the new technology set. Core technology demonstrated. Engaged with 3 universities on collaborative research (grant) programs, and presented to private investors and defense leaders. Patent applied for. Teamed with Southwest Sciences on Navy SBIR. Secured team.

University of Maryland 2018-2020

TechPort Business Incubator

DIRECTOR

Stood-up a unique UAS (Unmanned Aviation Systems)-focused business incubator. Developed and instituted foundational procedures (requirements for entry/preliminary business plan evaluation/on-boarding), marketing and business plans, hired staff. Constructed a novel sustainable business plan for the incubator, leveraging both public, university and personal investor network options. Led entrepreneur educational lectures and events, including a first 3D Printing Fair. Initiated **InventorFabric**_{sm} and **InventorMuscle**_{sm}, **SharkEvaluation**_{sm} teams and mechanisms involving the local high schools and the larger community to inspire invention and entrepreneurship. Results: expanding client base received national attention.

Brad W. Bartilson

PHOTON8, INC., EFFICIENT SYSTEMS, LLC 2006-Present
Leader of 2 ventures in biotech, renewable energy and energy storage. Photon8: As CEO, grew 18 person venture in algae products on the basis of market analysis and techno-economic modeling. Created technology solutions, built team, boards and partnerships with major nutraceutical and oil corporations (Shell Oil), universities (Texas A&M, LSU, Rutgers and the University of Texas), and the Brownsville community. Secured \$2M in funding, first revenue. Assisted universities with in-class speeches on entrepreneurship and business. Efficient Systems: Developed high efficiency energy storage (4 patents) and vehicle technologies, engaged university (University of Missouri), industry and the Detroit enterprise zone resources in bringing a new car company to Detroit. Secured GM's Design Director as partner. Led Sr. Design Project class.

BREWER SCIENCE, INC. ROLLA, MO 2004 - 2006

Semiconductor process & equipment (photolithography)

BUSINESS UNIT MANAGER

Business leader with P & L responsibility. Mandate to build and spin-off a new semiconductor process/equipment business. Identified technical impediments, redirected strategy. Redirected **market** focus of technology product having no sales in 4 years. Wrote and implemented the business plan. Secured first product order in 4 months. Product placed on ITRS (semiconductor industry) roadmap for 45nm. Developed **strategic partnerships** with highly-regarded design-and-manufacturing firms, strengthening the marketability of this revolutionary product.

Established accounts with the leading semiconductor device fabrication companies in the US, Europe and Asia. Nurtured supplier-partner relationship (\$9B conglomerate), captured spin-out investment offer.

SEAKR ENGINEERING, CENTENNIAL, CO 2003-2004

Defense Contractor-Memory Systems

PROGRAM MANAGER: SPACE-BASED RADAR

Led the successful capture of Phase II Space-based Radar program with Lockheed-Martin.

Defined the design and specifications for the memory and I/O system. Led the team and business interface with the partner and the defense customer.

ZOLO TECHNOLOGIES, INC. BOULDER, CO 2001 – 2003

Optical networking system manufacturer (C-Round Startup)

DIRECTOR OF PRODUCT MANAGEMENT, MARKETING & SALES

Recruited to lead **product management and marketing**, stepped-forward to lead the reorganization, sales and marketing areas. Refocused, streamlined the product lineup. Engaged tier-1 telecom equipment manufacturer.

Brad W. Bartilson

LIGHTCHIP, INC., SALEM, NH

2000 – 2001

Optical networking system manufacturer (B-Round Startup)

MARKET DEVELOPMENT MANAGER/SR. PRODUCT MANAGER

Recruited to lead product management for this startup with DWDM and wavelength monitoring products, later asked to lead business development as well. Developed and wrote the commercialization plan. Re-aligned the strategy onto cable network 200GHz channel layout. Cultivated a strong relationship with Antec/Arris, AT&T (cable-MSO equipment provider). Secured and negotiated the companies first contract for \$25M. **Hailed as “company hero”** by capturing lost sales accounts on the west coast.

RAYTHEON, ANDOVER, MA

1998 - 2000

Microwave communications

PROGRAM MANAGER

Initially recruited as Section Manager of Advanced Electronic Packaging for the Teledesic Program, later pitched for and received leadership for new business unit. Identifying a strong opportunity for the group’s technology in a new sector, developed and presented the case to the senior team. Received the promotion and charge to build and lead the new business unit (P & L responsibility), with responsibility for engineering, manufacturing (offshore), marketing, sales, and finance. Worked the first contract (\$6M) into a volume purchase order, funding R & D through payment on alpha and beta units.

CRAY RESEARCH, INC. CHIPPEWA FALLS, WI

Supercomputer manufacturer

EMBEDDED SUPERCOMPUTER PROJECT MANAGER

Early career responsibility for direction of “special” government systems, later leading a team in advancements in electronics packaging for high performance computing. Years of innovation and funded technology development culminated our unit’s “mobile supercomputing” offering in the space, defense, oil, and mining industries, \$100M first year. In the funding void created during an extended acquisition and reorganization, secured longstanding, independent R&D support for the 20-person, \$2M/year budget group from NSA, DARPA, BMDO, and NASA. Assembled a world-class research team, cultivated a highly invigorating environment resulting in advances in signal modeling and propagation, heat transfer, and new interconnect structures.

Brad W. Bartilson

EDUCATION & ADDITIONAL QUALIFICATIONS

Master of Science, ME, University of Minnesota: Coursework major supporting advancement in computer technology: Engineering Management, Computer Architecture, Solid State Physics, Switch-mode Power Supplies, and Heat Transfer. Degree via online UNITE program.

Bachelor of Science, ME, University of Wisconsin – Madison

Business and Marketing: Developed and executed successful marketing and business plans for corporations and startups, (\$37M total funding, international basis).

Technical Expertise: Exceptional thermal/structure/fluids FEA modeling expertise, demonstrated in electronic, display, wireless, and photonic structures and products

Intellectual Property: Inventor, Author, IP strategist: 11 patents in advanced electronics, 4-energy storage/conversion & advanced vehicle technologies, 6- biofuels production, 1-target shooting, 1-underwater vehicle

Professional Certifications: Licensed Professional Engineer - Wisconsin & Minnesota

Societies Participation: MBIA, OSA, SPIE, ASME, ISHM, (Mensa qualified)

Office Systems: Responsible for ERP, MRP, PDM component integrations at 2 startups

Jeff Edmonds, P.E. Bio and Résumé

Jeff Edmonds, P.E., has managed the city's Department of Engineering Services since 2015. This is the department charged with implementation of the city's capital improvement plan. Since 2015, Edmonds has managed the construction of nearly \$2B worth of city infrastructure. About half of that value was for water and wastewater construction.

Edmonds has nearly 35 years of work experience as a registered professional engineer. He holds a BS in Civil Engineering from North Carolina State University and an MBA from University of North Carolina at Charlotte. He also has a Master of Engineering degree with a Water Resources concentration from NCSU. As a registered professional engineer, Mr. Edmonds is obligated to protect the health, safety, property, and welfare of the public in the practice of his profession.

Mr. Edmonds spent the decade of the 90's as a municipal engineer with two different cities in NC. For 8 years he was a Public Works Director where his responsibilities included managing the operation of the water and wastewater utility. The utility operated two reservoirs, two water treatment plants, a wastewater treatment plant as well as 300 miles of distribution and collection systems.

During 2000 and 2001, Mr. Edmonds worked in South America with a Spanish-owned private utility operator. This included work throughout the Caribbean region involving infrastructure construction, operations, maintenance and commercial management of water utilities.

From 2001-2015, Mr. Edmonds was with URS Corporation, then the largest AE firm in the country. With URS, Mr. Edmonds managed and supported water and wastewater projects for several Texas clients including the City of Corpus Christi. In one assignment for the Brownsville Public Utility Board, Edmonds was the project manager Seawater Desalination Feasibility Study. He also provided water and wastewater engineering services for military clients in Texas, Oklahoma, Louisiana, Arkansas, New Mexico and Utah.

Mr. Edmonds served on the city's Water Resource Advisory Committee as the residential representative from 2008-2015 and chaired that committee for six years.

In 2019, Edmonds was first appointed to the board of the Corpus Christi Aquifer Storage and Recovery Conservation District. During his tenure, he has not had any unexcused absences from board meetings.

Jeffrey H. Edmonds, P.E.

Professional History

Director of Engineering Services, City of Corpus Christi, 2015-Present

Senior Project Manager, URS Corporation/AECOM, Austin & Corpus Christi, Texas, 2001- 2015

Project Director, Sociedad de Acueducto, Alcantarillado y Aseo, S.A., Barranquilla, Colombia, 2000-2001

Public Works Director, City of Lexington, NC, 1992-2000

Experience

Mr. Edmonds is currently the Director of Engineering Services at the City of Corpus Christi. He has spent most of his career helping public entities bring their infrastructure plans into reality. His 30-plus years of work experience includes 18 years in local government at three different cities, as a City Engineer and Public Works Director. The other half of Mr. Edmonds' experience includes 13 years with an ENR Top 5 engineering firm. Mr. Edmonds has also worked with an international contract utility operator and an ENR Top 10 general construction contractor. Experience working as an owner, consulting engineer and general contractor provides Mr. Edmonds a unique perspective and understanding of capital project delivery.

Selected Experience and Projects

- **City of Corpus Christi, Director of Engineering Services, Corpus Christi, TX.** Director responsible for managing the design and construction of the city's Capital Improvements Program for over a decade. Managed the delivery of over \$2B worth of construction. The city's CIP portfolio included water, wastewater, drainage, public facilities, and transportation infrastructure projects. The CIP execution required managing over 60 simultaneous construction projects with average contract value of nearly \$10M and ranging to over \$100M.
- **Lower Rio Grande Valley Disaster Recovery Housing Program, Weslaco, TX.** Program Manager for a \$100M CDBG disaster recovery housing program. URS was the prime contractor under the grant administration contract. Mr. Edmonds served as URS' Program Manager for an end-to-end service offering extending from eligibility determinations through construction oversight to project closeout. The program replaced or repaired nearly 800 housing units in Cameron, Hidalgo and Willacy Counties using CDBG-DR funding.
- **Water CIP Program Management, Corpus Christi, TX.** Program Manager for a portfolio of water treatment plant capital improvements projects at the O.N. Stevens WTP. The projects included in the water program included a new high service pumping station, a new raw water pumping station and a new solids management and disposal facility. URS functioned as an extension of the City of Corpus Christi staff to enhance alignment and control of water projects.
- **Cayo del Oso Water Line, Corpus Christi, TX.** Project Manager for the design of a 16" water line serving the Texas A&M Corpus Christi campus. The new line was installed

Professional History cont.

Project Engineer, Town of Cary, NC, 1989-1992
Associate Engineer, Ragsdale Consultants, Smithfield, NC, 1988-1989
Project Engineer, Metric Constructors, Atlanta, GA, 1987-1988
Engineering Intern, NC Dept. of Transportation, 1986

TXDOT Precertifications

3.1.1, 4.1.1, 7.1.1, 8.1.1

Awards

TSPE Nueces Chapter – 2017
Engineer of the Year
ACEC Environmental Project

Pumping Station Design by Robert L Sanks, PhD.
Industrial Pump System Efficiency - DOE Pumping Systems Analysis Tool
FEMA Community Rating System

through environmentally sensitive wetlands by horizontal directional drilling. The project included USACE 404 permitting and preparation of a TXGLO Miscellaneous Easement to cross state submerged lands.

- **Boat Ramp Replacement & Site Development, Corpus Christi, TX.** Project Manager for the design of two new public boat ramps at the JFK Causeway. The project included civil engineering design, permitting, procurement support and construction phase services. The project required three nationwide and one individual USACE 404 permits. The project also included close coordination with TXGLO as the primary stakeholder for the improvements. The project was funded through federal boating access grants, in kind services, and private contributions.
- **Sanitary Sewer I&I Elimination Study, Project Manager, Laughlin Air Force Base, TX.** The project consisted of a sanitary sewer condition assessment covering the entire base in an effort to eliminate inflow, infiltration and cross connections. Inspections were completed using smoke testing, dye testing, flow monitoring and CCTV inspection. URS provided georeferenced CCTV logs and inspection reports that were incorporated into the LAFB geodatabase. The project outlined a program of capital improvements to address condition deficiencies that were identified using the CCTV technology.
- **Mabel Davis Park Remediation, City of Austin, TX. Design Task Leader.** The 50-acre park is a former landfill site that was operated during the 1940's and 50's. Remedial activities as part of the Texas Voluntary Cleanup Program addressed pesticide and lead contamination as well as streambank restoration, erosion/ sediment controls, a pond outlet structure, hike & bike trails, utility relocations, stormwater management plans, and landscaping improvements.
- **Roadway and Access Improvements, Randolph Air Force Base, TX and Vance Air Force Base, OK.** Civil Design Lead for Anti-terrorism and Force Protection Improvements at two air force bases. The designs included new roadways, road widening, additional turn lanes, traffic control, truck holding areas, deployable denial barriers, overwatch positions, traffic queuing improvements, new gatehouses, a new visitor center and site utilities. The Vance AFB improvements included the design of a 3,000 LF of roadway on new alignment. The Randolph AFB project included improvements at all three main gates including significant roadway realignment at the main West Gate intersection with FM 78.

"TOCDF Hydrolysate Disposal Alternatives Analysis" (EG&G Defense Materials, 2005)

- **Elementis Industrial WWTP, Corpus Christi, TX. O&M Task Leader.** Mr. Edmonds managed a staff of three technicians dedicated to the operation and maintenance of groundwater extraction and treatment systems at the site of a significant benzene and hexavalent chromium release. Groundwater extraction and treatment systems were required to operate around the clock to prevent the contamination plume from impacting surface water. A system of wells recovered groundwater and phase-separated hydrocarbon. The on-site treatment system separated LNAPL, treated impacted groundwater and destroyed vapor phase emissions. Project tasking included development of the site SPCC Plan, development of new recovery wells, pipeline construction, hazardous waste management, design and construction of a new WWTP, design and construction of a soil vapor extraction and recovery system.
- **Laughlin AFB Flooding Abatement Program, Del Rio, TX. Program Manager.** Mr. Edmonds managed the design of two projects intended to correct legacy flooding problems in the LAFB flightline, aircraft parking apron and airfield. The project had a total estimated construction value of \$15M. The project involved replacing culverts under several key roadway connectors and coordinating construction to have minimum impact to base operations. The project also involved constructing a major storm sewer between the parking apron and the flightline requiring significant phasing and utility coordination. Another notable aspect of the project was the design of a 600' tunnel under a new maintenance apron and taxiway.
- **Laughlin Air Force Base Water Distribution System Hydraulic Study, Del Rio, TX.** Project Manager for a condition assessment, hydraulic model and capital improvements plan for the water distribution system at Laughlin Air Force Base. A hydraulic model was developed using InfoWater software and conceptual designs and cost estimates were produced for the necessary improvements required to ensure adequate fire protection.
- **Hurricane Katrina Recovery, New Orleans, LA, FEMA Project Officer.** URS staff managed a task force supporting the Sewerage and Water Board of New Orleans as part of the Hurricane Katrina recovery efforts. Mr. Edmonds was one of the Project Officers charged with inspecting and preparing disaster relief claims for approximately 80 wastewater and 30 drainage pumping stations that suffered damage ranging from moderate to catastrophic. The wastewater pumping stations were of various designs ranging in capacity from 1 to 250 MGD.

- **Laughlin AFB IDIQ A/E Services, Del Rio, TX, Program Manager.** Since 2002, URS has provided a wide range of A/E support to Laughlin AFB through two 5-year indefinite quantity contracts. Mr. Edmonds managed both of those IDIQ contracts as well as about a third of the delivery orders. The Scopes of Work that URS has executed at Laughlin AFB have included civil engineering, electrical engineering, mechanical engineering, architectural services, planning, and construction oversight. Task orders have required studies, investigations, preparation of technical statements of work for design-build proposals, 100% designs and Title II construction oversight services. The total professional fees for 37 delivery orders under this program is \$4.6M.
- **Interim Corrective Measures Workplan, Little Rock Air Force Base, AR.** Project Manager for development of an interim corrective measures workplan that included evaluation, removal and replacement of wastewater pretreatment units and the remediation of any encountered contamination releases from 25 oil/water separators. The project also included conducting a loading study to determine the fate of heavy metals released during aircraft washing operations in order to ensure continued compliance with wastewater discharge limitations.
- **El Paso Water Utilities NE Master Plan, El Paso, TX, Lead Engineer.** EPWU required planning assistance for the implementation of 15,000-acre master plan on utility-owned property. URS provided recommendations for a phased development that would reflect market demands and capture rates. Mr. Edmonds assisted planning, scheduling and budgeting for required improvements to roadways, drainage, water and wastewater systems. The roadway planning included the development of typical cross sections for new roadways and widening for existing roadways. The project required the planning and programming for approximately \$15M of roadway improvements.
- **Fuel Spill Protection Measures, Holloman Air Force Base, NM, Project Manager.** The project consisted of designing of fuel spill protection measures for four sites at Holloman Air Force Base in Alamogordo, NM. The systems consisted of reinforced concrete containment structures with drains to allow for the manual discharge of stormwater. The structures were designed to accommodate the loads and movements of refueling tankers.

- **Cary Parkway Lane Additions, Cary, NC. Lead Designer.** Mr. Edmonds was the lead designer for a project to widen 2.5 miles of 2-lane roadway into a 4-lane median divided arterial. Scope items included roadway design, traffic signal upgrades, drainage design, erosion control, pavement design, utility relocations and traffic control. The project was completed on schedule and within the engineer's construction budget.
- **City of Laredo Integrated Water and Wastewater Master Plan, Project Principal.** Provided technical oversight, client communication and work planning support for the development of a 50-year, comprehensive water and wastewater capital improvements plan. As one of the fastest growing communities in the nation, Laredo experiences tremendous demands on their infrastructure due to growth pressure. The Master Plan provides a 50-year investment program that identifies the required improvements to ensure that the systems can meet citizen expectations and comply with TCEQ required levels of infrastructure.
- **Comprehensive Water System Assessment, Maracaibo, Venezuela, Project Director.** The project consisted of a comprehensive assessment of the water and wastewater service delivery in the state of Zulia, Venezuela. Zulia has a population of 3.2 million including the capital city of Maracaibo with a metropolitan population of 1.7 million. The project evaluated the water supply, potable water and sanitary sewer infrastructure, the system's operation and the commercial management. The final report outlined the steps necessary to bring the state-run utility into financial self-sufficiency.
- **LRGV Seawater Desalination Feasibility Study, Brownsville, TX. Project Manager** The study examined the alternatives available to provide potable water from seawater and selected the best options for intake, pretreatment, treatment, solids handling, concentrate disposal and finished water transmission. Conceptual design data were used to develop detailed cost estimates for an evaluation of the project's financial feasibility.
- **El Paso Water Utilities NE Master Plan, El Paso, TX, Lead Engineer.** EPWU required planning assistance for the implementation of 15,000-acre master plan on utility-owned property. URS provided recommendations for a phased development that would reflect market demands and capture rates. Mr. Edmonds assisted planning, scheduling and budgeting for required improvements to roadways, drainage, water and wastewater systems.
- **Water Franchise Consultant, Ascension Parish, LA.** Provided technical advice to Ascension Parish for the development of a

water franchise agreement with a private water distribution company. Work was performed under a contract with the USACE New Orleans District. The objective was to develop an agreement for the operation of the water system that would protect the citizen's interests. Ascension Parish was experiencing very rapid growth and many areas of the parish had been developed with substandard water service. The franchise agreement established terms for how the water company would address existing system deficiencies and recover those costs.

- **Mabel Davis Park Remediation, City of Austin, TX. Design Task Leader.** The 50-acre park is a former landfill site that was operated in the 1940's and 50's. Remedial activities as part of the Texas Voluntary Cleanup Program addressed pesticide and lead contamination as well as streambank restoration, erosion/ sediment controls, a pond outlet structure, hike & bike trails, utility relocations, stormwater management plans, and landscaping improvements. The project received the Silver Medal Design Excellence Award from the Texas Council of Engineering Companies.
- **Tooele Chemical Demilitarization Facility (TOCDF), Tooele, UT.** Lead Engineer for a Mustard Agent Rinsate Pre-Treatment System. The project involved planning and design for a system to destroy the chemical agent in rinsate from washing out bulk containers of mustard agent. The project included risk assessment, process, electrical, mechanical, I&C and civil design. Task Manager for rinsate disposal alternatives analysis. The project also included an alternatives analysis exercise using Monte Carlo simulation and an expert panel.
- **Tooele Chemical Demilitarization Facility, Stockton, UT.** Task Manager for hydrolysate disposal alternatives analysis. The assignment involved developing a framework for selecting among various alternatives for disposal of a hazardous wastewater resulting from the destruction of chemical weapons material. The decision involved selecting among competing alternatives in an environment with deep uncertainty surrounding several potential outcome scenarios. A framework was developed to analyze and appropriately weigh risk factors in the decision analysis. The effort used an expert panel and Monte Carlo simulation to develop recommendations for treatment and disposal alternatives.
- **Lexington Business Center, Lexington, NC, Project Manager.** Project Manager for the development of a 207-acre, city-owned industrial park. Responsible for planning and directing the design, permitting and construction of all civil infrastructure including roadways, storm drainage, water distribution, wastewater collection and a wastewater pump

station. Roadway design included 1,500 LF of roadway on new location, the realignment of 1,000 LF of existing frontage road and improvements to an existing interchange.

- **Uptown Streetscape Project, Lexington, NC, Program Manager.** The project consisted of the placement of conduit and relocation of all overhead utilities, construction of architecturally finished concrete sidewalks, new mast arm traffic signals, and the installation of street trees with decorative castings for a six-block downtown area.
- **Street Rehabilitation Program, Lexington, NC, Project Manager.** Project Manager for a bond program to rehabilitate and resurface 25 miles of roadway, replace 5 miles of curb & gutter and 3 miles of sidewalk. The work included planning, contracting and construction oversight for a multi-year street improvement program. Resurfacing activities were coordinated with the maintenance needs of underground utilities to preclude damage to new pavement. A comprehensive pavement condition rating system was used to prioritize the road resurfacing projects.
- **Floodplain Administrator, Lexington, NC.** As the City Engineer, Mr. Edmonds was designated city's floodplain administrator. This included implementation of the NFIP Community Rating System and review of all new development for compliance with the NFIP. Mr. Edmonds also designed and implemented projects to reduce flooding risk such as improvements to culverts, storm sewers and channels.
- **Town of Cary, NC Lift Station Removal Project, Project Engineer.** The Town of Cary had experienced a period of very rapid growth and development. As a result, many lift stations were installed due to the remoteness of downstream sewer facilities or geographical barriers. This project combined six pump station removal projects. Removals were accomplished by sewer extensions, highway tunnels and the attachment of a gravity sewer line inside a DOT highway culvert. The project included development of plans & specifications and construction oversight.
- **Water Treatment Plant Improvements Project, Lexington, NC.** Project Engineer for efficiency and reliability upgrades to the two Lexington water treatment plants. The projects included a 1 MG clearwell rehabilitation using shotcrete technology, interconnecting the clearwells of the contiguous plants, pipe gallery rehabilitation, high service pump replacement, new drying beds, a changeover from chlorine gas to sodium hypochlorite disinfection, and an emergency interconnection with the rural water authority for backup supply.

- **Spray Irrigation Pilot Project, Project Manager, Lexington, NC.** Designed, permitted, and installed a 20,000 GPD, pilot spray irrigation project at the Lexington Regional Wastewater Treatment Plant. The project was intended to determine if spray irrigation was a viable method to extend the capacity of the WWTP.
- **Master Wastewater Improvements Plan, Project Manager, Lexington, NC.** Developed a master wastewater plan for a 3,850-acre annexation area. The master plan included preliminary design and budget preparation for 100,000 linear feet of sewer, 12 pumping stations and 16,000 linear feet of force main.
- **Water Infrastructure Master Plan, Project Engineer, Smithfield, NC.** Lead engineer and hydraulic modeler for a Master Water Facilities Plan for Johnston County, NC. The plan was developed to address potable water needs in the rapidly developing rural areas of Johnston County. The project included extensive hydraulic modeling, planning for new transmission mains, elevated tanks and pumping stations. The planning effort also included making revenue projections to determine the economic feasibility and timing for improvements.

Verification

City Code Requirement - Residency

As a board, commission, or committee member, you will be asked to adhere to City Code of Ordinances, Section 2-65, which states that all members of City boards and commissions, including ad hoc committees, appointed by the City, must be residents of the city. A move outside the city limits of the city by any member shall constitute automatic resignation from the particular board or commission on which such member served.

I Agree

City Code Requirement - Attendance

As a board, commission, or committee member, you will be asked to adhere to City Code of Ordinances, Section 2-61, which provides that absences from more than 25% of regularly scheduled meetings during a term year on the part of any board, commission, or committee member shall result in an automatic termination. An absence shall be deemed unexcused unless excused by the board, commission or committee for good cause no later than its next meeting after the absence.

I Agree

Consent for Release of Information

I understand that if any member of the public makes a request for information included in this application or in any attachment (e.g. resume or supporting documentation) for appointment it is subject to and must be disclosed under the Texas Public Information Act. I understand that under the Texas Public Information Act, my home address and home telephone number is subject to public disclosure unless I am elected or appointed to the position which I seek. I hereby consent to the release of my home address and home telephone number should it be requested under the Texas Public Information Act prior to my possible appointment or election. I hereby release the City of Corpus Christi, and its agents, employees and officers, from any and all liability whatsoever if the information must be released pursuant to the Texas Public Information Act.

Work Experience

Owner/Operator

Aransas Pass RV-Aransas Pass, TX

January 2019 to Present

Design and built a small 12 unit RV park. Over see property managers day to day operations, property maintenance and general repairs. Create and review new rental listings.

Certified Sales Consultant

Mike Shaw Toyota-Corpus Christi, TX

January 2015 to January 2019

Toyota Master Certified Sales Consultant

Toyota Gold Sales Society

Truck Master

In the top 1% of Toyota New Car Sales.

District Manager

Teph Seal, Auto Appearance-Corpus Christi, TX

July 2014 to January 2015

Responsibilities

Manage, hire and train detailers for the Make Ready departments exclusively for dealerships in the Corpus Christi area including; Mike Shaw Toyota, Mercedes, Infinity, Nissan, and Love's.

Accomplishments

Manage the successful opening and logistics of new locations while overseeing the continued growth of current locations.

Skills Used

Strong ability for positive conflict resolution to problems with a keen ability to attention to details for automotive appearance.

Executive Service Manager

Brake Check-Corpus Christi, TX

January 2007 to June 2014

Responsibilities

Manage front office sales and repair shop. Interviewed, hired and trained new automotive technicians, store managers and service managers. Diagnosed problems with customer vehicles, explain services needed for repair to customers on a needed and recommended basis with accurate and competitive service repair pricing, locate parts to complete repairs, make needed repairs and oversaw repairs by my technicians, set budget for daily, weekly and period sales goals, managed online customer appointments for services, oversaw and managed all aspects of a successful fast paced automotive service center at several locations throughout Texas.

Accomplishments

Lead the company in sales with highest production of bottom line profits by successfully managing operating cost with high sales, low parts cost and labor.

Skills Used

Basic computer skills, Word, Excel, Power Point, Mitchell, Delfi, SnapOn scan tool equipment, Hunter alignment machine, lathe machines bench and on the car lathes, complete roll round box of tools to make all needed automotive repairs, if it rolls on four wheels I can fix it!

Vehicle Exchange Specialist

Mike Shaw Toyota-Corpus Christi, TX

January 2015

Responsibilities

Vehicle Exchange Specialist: appraise vehicles in for service for trade in for a new vehicle.

Help customers upgrade to a newer vehicle with similar payment range.

Automotive sales through generating leads from cold calling perspective customers that showed interest online, follow up calls from missed appointments and courtesy calls to previous customers.

Accomplishments

Top 100 Toyota Salesmen in the nation.

#1 New Car Salesmen multiple months in a row with 20+ vehicles a month on average with highest Customer Service rating at Mike Shaw Toyota and Gold Master Certified Salesmen of the year for Toyota Motor Company.

Skills Used

Listen to customers main concern and provide a truly exceptional experience.

Which Boards would you like to apply for?

CORPUS CHRISTI AQUIFER STORAGE AND RECOVERY CONSERVATION DISTRICT: Submitted

Interests & Experiences**Are you a Nueces County registered voter?**

Yes No

Do you currently serve on any other City board, commission or committee at this time? If so, please list:

I am hoping to serve on the City's Far Field Advisory Committee in 2026.

Education, Professional and/or Community Activity (Present)

B.S. in engineering, member of the Coastal Bend Sierra Club Group, engaged in community efforts to raise awareness on local water issues, extensive knowledge in water planning, water use, and water related TCEQ and State laws.

If you applied for multiple boards, which boards are you most interested in serving on, in order of preference? (Limit to top three)

The Far Field Advisory Committee is my preferred board to serve on. I believe the CCASRCD is an entity separate from the City and therefore I would be able to serve on both, if that is incorrect then I would like to withdraw my application for the CCASRCD. If an applicant for this board does not serve on a City committee, please consider them before me.

Why are you interested in serving on a City board, commission or committee?

I am interested in serving on the CCASRCD board because I believe the current board is not abiding by its own rules. I believe it is important for all ASR and Groundwater conservation districts to manage their resources responsibly and in a manner that provides the maximum benefit to public good. I wish to aid in that effort in unbiased way which is currently not happening due to the board being comprised solely of City staff.

Board-specific questions (if applicable)

Verification

City Code Requirement - Residency

As a board, commission, or committee member, you will be asked to adhere to City Code of Ordinances, Section 2-65, which states that all members of City boards and commissions, including ad hoc committees, appointed by the City, must be residents of the city. A move outside the city limits of the city by any member shall constitute automatic resignation from the particular board or commission on which such member served.

I Agree

City Code Requirement - Attendance

As a board, commission, or committee member, you will be asked to adhere to City Code of Ordinances, Section 2-61, which provides that absences from more than 25% of regularly scheduled meetings during a term year on the part of any board, commission, or committee member shall result in an automatic termination. An absence shall be deemed unexcused unless excused by the board, commission or committee for good cause no later than its next meeting after the absence.

I Agree

Consent for Release of Information

I understand that if any member of the public makes a request for information included in this application or in any attachment (e.g. resume or supporting documentation) for appointment it is subject to and must be disclosed under the Texas Public Information Act. I understand that under the Texas Public Information Act, my home address and home telephone number is subject to public disclosure unless I am elected or appointed to the position which I seek. I hereby consent to the release of my home address and home telephone number should it be requested under the Texas Public Information Act prior to my possible appointment or election. I hereby release the City of Corpus Christi, and its agents, employees and officers, from any and all liability whatsoever if the information must be released pursuant to the Texas Public Information Act.

I Agree

Oath

I swear that all of the statements included in my application and attached documents, if any, are true and correct.

I Agree

Qualifications

Extensive practical experience provides a detailed working knowledge and proficiency in these key areas:

- Project Management • Environmental Permitting and Compliance • Audit Procedures • Strategic Planning • Technical Writing • Excellent Communication and Computer Skills

Professional Experience

October 2002 – October 2023 **Equistar Chemicals, LP – Corpus Christi Complex, Corpus Christi, Texas**

Principal Environmental Engineer; duties include oversight of a major petrochemical manufacturing facility to maintain compliance with all applicable Federal, State, and local environmental permits and regulations; development and implementation of environmental plans and procedures; provide consultation to plant engineers and management in regard to environmental affairs; act as liaison between the facility and State and Federal regulatory agencies; conduct incident investigations utilizing root cause analysis methodologies; provide supervision and oversight of contractors, consultants, and facility personnel regarding HSE-related activities; mentoring of newly hired HSE staff and interns; development and tracking of the departmental budget

Major Accomplishments with Equistar Chemicals:

- reduced operating costs by developing compliant and cost effective environmental policies and procedures
- increased plant environmental compliance through constant research, planning, project implementation, and subsequent communication and training
- successfully served as Health, Safety, Environmental, and Security Lead for the 2015-2016 olefins plant expansion and turnaround, a one billion dollar, nine million work hour project involving approximately 3500 construction personnel

May 2000 – October 2002 **Occidental Chemical Corporation - Ingleside Plant, Ingleside, Texas**

Environmental Engineer; duties included oversight of a major chlor-alkali and vinyl chloride manufacturing facility to maintain compliance with all applicable State and Federal environmental regulations including RCRA, TSCA, SDWA, CAA, SARA, CERCLA, and CWA; also assisted in ensuring compliance with Dept. of Transportation standards and safety regulations

Major Accomplishments with Occidental Chemical Corporation:

- successfully implemented the Hazardous Waste Combustors MACT upgrade of two on-site incinerators, a \$19 million equipment upgrade; involved working closely with a team of engineers, consultants, contractors, and regulators; the project was completed on time, safely, and within budget
- successfully completed the RCRA Facility Investigation
- earned two promotions with increasing levels of responsibilities

1990 - 2000 **Texas Natural Resource Conservation Commission (now the Texas Commission on Environmental Quality) - Region 14 Office, Corpus Christi, Texas**

Senior Environmental Investigator; duties included performance of compliance evaluation inspections and oversight of regulated entities in the areas of solid waste, water, and air;

also participated in: surface water quality assessment and monitoring; TNRCC policy and rule development; public education and community outreach; compliance assistance to the regulated community, enforcement case development; interaction with the news media, provided assistance to the TNRCC Central Office, state legislators, and the Texas Attorney Generals' staff as required

Major Accomplishments with the TNRCC:

- increased compliance with TNRCC and EPA regulations throughout the Region 14 area
- promoted voluntary compliance through community outreach
- successfully negotiated issues involving complex environmental rule interpretation with industry and business executives as well as other state and federal regulatory agencies
- fostered a spirit of cooperation between the regulated community and the TNRCC through open dialogue
- earned four promotions with increasing levels of responsibility; eventually promoted to Gulf Coast Aquifer Specialist with the TNRCC Field Operations Division

August 1988 - September 1989 Heldenfels Brothers Inc. - Prestressed Concrete Division, Corpus Christi, Texas

Draftsman; duties included: production of shop drawings for precast concrete structures according to designs submitted by staff engineers

Geologist; duties included: field drilling assistance including descriptive borehole logging, ground water monitor well installation and subsequent development; soil testing according to ASTM specifications; soil classification using the Unified Soil Classification System; construction of subsurface profiles involving stratigraphic correlation; provided geological consultation for staff engineers; assisted in final report preparation

Academic Achievements

Bachelor of Science degree in Geology - August 1985
Trinity University, San Antonio, Texas

Master of Science degree in Environmental Science - December 1997
Texas A & M University - Corpus Christi, Corpus Christi, Texas; G.P.A. 4.0

Honors/Activities

- Licensed Professional Geoscientist with the Texas State Board of Professional Geoscientists; License No. 59
- Certified Professional Geologist with the American Institute of Professional Geologists; Certification no. CP-10295
- Founder and past chairman - Corpus Christi Geological Society - Environmental Section
- Awarded State RCRA Inspector Award for Excellence from the U.S. Environmental Protection Agency Region VI Office in 1996
- Sixth Degree Black Belt in traditional Tae Kwon-Do – Certified Master Instructor with the Chin Mu Kwan Tae Kwon-Do Federation (certificate #A-6-41)

Which Boards would you like to apply for?

CORPUS CHRISTI AQUIFER STORAGE AND RECOVERY CONSERVATION DISTRICT: Submitted

Interests & Experiences**Do you currently serve on any other City board, commission or committee at this time? If so, please list:**

No

Why are you interested in serving on a City board, commission or committee?

I am interested in serving on a City board because I want to contribute to decisions that directly shape our community. I believe that local government is most effective when residents are actively involved, and I want to bring my skills, experience, and perspective to help address the needs and priorities of our city. Serving on this board is an opportunity to give back, support transparent decision-making, and help create long-term solutions that improve the quality of life for everyone

Are you an ex-Officio member of a City Board, commission or committee?

DSTAG committee member

Education, Professional and/or Community Activity (Present)

Leadership Corpus Christi Class 54 (current) - United Chamber of Commerce Registered Professional Engineer in the State of Texas, licensed by the Texas Board of Professional Engineers and Land Surveyors (TBPELS)

Why are you interested in serving on a City board, commission or committee?

I am seeking to serve on the Conservation District to help our community navigate a critical moment with clarity, collaboration, and responsible leadership. As an engineer and business owner, I bring a solutions-focused mindset grounded in data, logic, and long-term planning rather than politics. Our region's drought challenges require steady decision-making and a commitment to both conservation and sustainable growth. I want to contribute an objective, technically informed perspective to support transparent policy, strengthen public trust, and help ensure the long-term resilience of Corpus Christi's water resources. My goal is to serve in a way that elevates the conversation, unites stakeholders, and keeps the focus on what is best for our community's future.

Do you currently serve on any other City board, commission or committee at this time? If so, please list:

No

Education, Professional and/or Community Activity (Present)

Bachelor of Engineering in Civil Engineering, licensed professional engineer in Texas, 29 years of experience in the water, wastewater and stormwater industry in Texas. Experience as a technician early in my career under the direction of professional staff provided me with general knowledge of groundwater from water supply to contaminant hydrogeology.

If you applied for multiple boards, which boards are you most interested in serving on, in order of preference? (Limit to top three)

I am currently interested in the aquifer storage and recovery conservation district board.

Why are you interested in serving on a City board, commission or committee?

I have served on city boards in the past and found it to be a rewarding experience. As a water professional I am specifically interested in the aquifer storage and recovery conservation district board. I would like to help the city set/enforce policy to protect their current resources and to assist in finding solutions to the current water supply problems.

I work for a civil engineering firm (Urban DCCM) that does work for Corpus Christi.

Board-specific questions (if applicable)

Verification

City Code Requirement - Residency

As a board, commission, or committee member, you will be asked to adhere to City Code of Ordinances, Section 2-65, which states that all members of City boards and commissions, including ad hoc committees, appointed by the City, must be residents of the city. A move outside the city limits of the city by any member shall constitute automatic resignation from the particular board or commission on which such member served.

I Agree

City Code Requirement - Attendance

As a board, commission, or committee member, you will be asked to adhere to City Code of Ordinances, Section 2-61, which provides that absences from more than 25% of regularly scheduled meetings during a term year on the part of any board, commission, or committee member shall result in an automatic termination. An absence shall be deemed unexcused unless excused by the board, commission or committee for good cause no later than its next meeting after the absence.

I Agree

Consent for Release of Information

I understand that if any member of the public makes a request for information included in this application or in any attachment (e.g. resume or supporting documentation) for appointment it is subject to and must be disclosed under the Texas Public Information Act. I understand that under the Texas Public Information Act, my home address and home telephone number is subject to public disclosure unless I am elected or appointed to the position which I seek. I hereby consent to the release of my home address and home telephone number should it be requested under the Texas Public Information Act prior to my possible appointment or election. I hereby release the City of Corpus Christi, and its agents, employees and officers, from any and all liability whatsoever if the information must be released pursuant to the Texas Public Information Act.

Which Boards would you like to apply for?

CORPUS CHRISTI AQUIFER STORAGE AND RECOVERY CONSERVATION DISTRICT: Submitted

Interests & Experiences

Are you a Nueces County registered voter?

Yes No

Do you currently serve on any other City board, commission or committee at this time? If so, please list:

No.

Education, Professional and/or Community Activity (Present)

AA degree, studied areas include, accounting, finance, economics, logic and creative problem solving. Have taken a deep dive into Corpus Christi city government and water issues over the past 4-5 years.

If you applied for multiple boards, which boards are you most interested in serving on, in order of preference? (Limit to top three)

Only applied for one board.

Why are you interested in serving on a City board, commission or committee?

I am interested in serving on this board because I have read all the board minutes since the foundation of the board in 2006. I have read the rules of the board and the groundwater management plan. I understand the history of the board and the purpose of this board that was authorized by SB 1831. I have attended all recent meetings of the board. I wish to help the board accomplish its mission and to move forward with aquifer storage and recovery. This will benefit the Coast Bend region during times of drought.

Are you an ex-Officio member of a City Board, commission or committee?

Yes No

No person shall be appointed by the Mayor or Council Members to serve on more than one board, commission, committee or corporation at the same time. If you currently serve as a voting member for a board, commission, committee or corporation are you willing to resign your current seat to serve on another board, commission, committee or corporation?

Yes No

Are you a current candidate in an election for a non-city public office?

Yes No

Do you currently serve as an elected official for a non-city public office?

Yes No

Will you seek re-election to the non-city public office? If not in a non- city public office, please enter N/A

Yes No

If you answer "Yes" to any of the questions above, please explain or ask to speak with the City's Legal Department. If you answer "NO" to all questions above, please enter N/A.

NA Note, regarding the following question regarding residency requirement. I had to check "I Agree" to continue. I do not agree, as I am currently not a resident. This is a generic form for city boards. The board I am applying to is not a city board. According to the Rules and Regulations of the Board, there are no residency requirements. Per the 2023 May 31 minutes, Aimee Alcorn-Reed (Assistant City Attorney) stated "This is not a City board". Per the 2025 Sept. 10 minutes, discussion per Lisa Aguilar (City Attorney's Office, " It was noted that we are a stand-alone entity and, therefore, will have our own information separate from the City."
