	0 % in opposition within the 200-foot notification area (0 individual property owners			

#### **Public Hearing Schedule**

Planning Commission Hearing Date: August 7, 2024

City Council 1st Reading/Public Hearing Date: September 17, 2024

City Council 2<sup>nd</sup> Reading Date: October 15, 2024

#### Background:

The subject property is a 10.07-acre vacant and undeveloped parcel out of a parent lot in the Southside area. It is located along the west side of Rodd Field Road, abutting the 400-foot deep parcel along Rodd Field Road, and the 210-foot deep parcel to remain adjacent to the Windsong Unit 2 subdivision. At the exception of the portion along Rodd Field Road, the "buffer" and subject parcels are currently zoned "ON" Neighborhood Commercial District. Rodd Field Road is an A3 class road, with varying width, that right-of-way dedication will bring into conformity.

The properties to the north are zoned "FR" Farm Rural and are vacant. Those to the south are zoned "CG-2" General Commercial and "FR" Farm Rural, with vacant use and Public/Semi-Public use. The properties to the west include the "buffer" parcel zoned "ON" Neighborhood Office, and are vacant and with Public/Semi-Public Use, and commercial uses.

The applicant is requesting a change in zoning to expand the development footprint for commercial use. The development will include indoor and outdoor recreation uses, and accompanying incidental uses, and a shell commercial development along Waldron Road.

The "CG-2" General Commercial District allows restaurants, apartments, townhouses, overnight accommodation uses, educational facilities, medical facilities, commercial parking, offices, retail sales, and services, vehicle sales and services, and water-oriented uses.

#### Plan CC (City of Corpus Christi Comprehensive Plan) Consistency:

The proposed rezoning is consistent with Elements, Goals and Strategies for Decision Makers:

- Housing and Neighborhoods:
- The design of new developments promotes a broader sense of neighborhood and community rather than creating isolated subdivisions or apartment complex developments with a lack of interconnection.
  - Encourage appropriate transitions between commercial and residential developments and between high and low-density residential developments.
- Corpus Christi development patterns support efficient and cost-effective use of resources and a high quality of life.
  - Encourage the protection and enhancement of residential neighborhoods.
  - Encourage orderly growth of new residential, commercial, and industrial areas.
  - Promote a balanced mix of land uses to accommodate continuous growth and promote the proper location of land uses based on compatibility, locational needs, and characteristics of each use.
- Corpus Christi has well-designed neighborhoods and built environments.
  - Screening fences, open spaces, or landscaping can provide an essential buffer between shopping and residential areas.

# Southside ADP (Area Development Plan) and FLUM (Future Land Use Map) Consistency:

The proposed rezoning is consistent with the Southside ADP; however is not consistent with the FLUM designation of Medium-Density Residential.

- Promote land development that enhances the character and opportunities in the southside.
  - Attract diverse, new, commercial development to vacant, non-residential, infill parcels.
    - Work with neighborhoods and districts on targeted Future Land Use Map updates and possible rezoning if desired.

#### **Staff Analysis:**

Staff reviewed the subject property's background information and the applicant's purpose for the rezoning request and conducted research into the property's land development history to include platting, zoning, existing surrounding land uses, and potential code violations. Staff compared the proposed zoning's consistency with the applicable elements of the comprehensive plan. As a result of the above analysis, staff notes the following:

- The proposed rezoning is consistent with Plan CC; however is inconsistent with the future land use designation of medium-density residential.
- The proposed rezoning is compatible with the present zoning and conforming uses of nearby property and to the character of the surrounding area and will have no adverse impact on the neighborhood.
- The property to be rezoned is suitable for the uses to be permitted by the proposed amendment.

#### Staff Recommendation:

After evaluation of case materials provided and subsequent staff analysis including land development, surrounding uses and zoning, transportation and circulation, utilities, Comprehensive Plan consistency, and considering public input, <u>Staff Recommends approval of the change of zoning from the "ON" Neighborhood Office District to the "CG-2" General Commercial District.</u>
