Marina Advisory Committee

Why are you interested in serving on a City board, commission or committee?

I believe that Corpus Christi is blessed with many resources, not the least of which is its amazing natural resource base. Because the Marina Advisory Committee has the ability to work with the city department in charge of marina functions including the marine environment, I would like to have a part in helping to develop and implement projects that would enhance the marina's physical and natural environment for the enjoyment of Corpus Christi residents and visitors and to enhance habitat for fish and wildlife in that area.
