Describe Feedback:	I have had a Short Term Rental within the Corpus Christi city limits for 3+ years with Airbnb. During this time tenure I have had over 353 guests, 0% cancellation, 0% negative feedback from Guests as well as neighbors, continuing to keep rules and regulations of quiet hours from 10pm-6am daily as well as an overall 4.9% rating with Airbnb for hosting out of 5%. With this rental we have been able to hire a cleaning crew part time which has been beneficial to them as well due to flexibility for cleaning as well as safety of them as well as our guests during Covid. We have been very safe with guests, limiting interactions but always being onsite and available via phone and text. This has helped to bring that extra income back into the city and allowing those that want the comfort of home and their pets being able to be with them on vacation.

Describe Feedback: I have been an Airbnb Super Host for the past 2 years. I have a separate apartment on my property and being a single family home and occupied I hoped this would be a way to make ends meet during this economy. I opened up the 400 sq ft for short term and have been grateful to have more long term than short term but during this time I have maintained and above average rating hosting 237 stays within the last 2 years, keeping my 4.9% rating and super host status even during the pandemic when some wanted to travel but ensure the time between guests followed CDC guidelines. I also have quiet times for my residence and guests 11pm-6am CST for standard "quiet hours" which keeps things normal for an older neighborhood. I have had 0 issues with guests, 0 negative remarks or comments from neighbors with most of them reaching out during holidays, summer and during Covid as these homes aren't equip for "guests" being built in the 40's and 50's and having 2 bedrooms or sometimes 3/1.

They provide increased tax revenue, guests spend money at local shops and support restaurants, and it increases jobs in tourism. Describe Feedback: I am advocating for allowing STR in Corpus Christi for a number of reasons. Short term rentals bring a lot of tourist and visitor business to Corpus Christi all year long, even during the winter. To limit or eliminate this kind of traffic would be devastating to Corpus Christi businesses, especially restaurants. As owners of the STR's, we advocate their usage of local restaurants, bars, shopping, tours, grocery, etc. Also, I have chosen to invest in 2 STR rental properties because I believe in Corpus Christi and what we have to offer. Most importantly, this is my only source of income. It would be very difficult for me to go and find employment in order to live given my age and health challenges. STR only does great things for our area. Without the amount of tourism STR's bring in, many business would perish. Eliminating STR would be a personal devastating blow to me.

Topic Regulations on short term rentals STR
Agenda Item Number 21-1663

Describe Feedback: As a owner of a short term rental, we have registered our location, as required, with the state and the county. Prior to Air BnB and VRBO collecting and paying the required hotel tax, we paid it personally each quarter. We understand not all home owners that rent their home out, register their homes to avoid the tax. We feel a one time registration fee is acceptable, not a yearly fee. If these fees are required will hotels/motels, bed and breakfast and resorts be required to register and pay fees also. All of these locations provide a service to tourists which brings in tourist dollars to Corpus Christi and North Padre Island. With COVID it has been a struggle for all to pay the high taxes, mortgages, insurance an other bills. To add another fee will be a hardship on the businesses that bring in your tourist dollars. Respectfully, Doug and Beth Cottingham

Describe Feedback: I have used the long term rental option on Airbnb last summer. Two students in a research program through the National Park stayed in my place for 3 months. Housing in PINS was destroyed during Hurricane Hanna. We do not have enough hotels or housing options close to the park. Also, many elderly retired people want to find short term rentals from the colder climates for health reasons during the winter months. I've also had traveling nurses inquire about a 3 month rental, which is a service to our community during COVID times. My neighborhood is not in the HOA, so there is not a reason why Airbnb should be shutdown. Do not send our city backwards by disallowing this service. People will find a way to rent using another avenue. Work with Airbnb to collect the proper taxes if this is your main concern.

Describe Feedback: I am against requiring STR's in multifamily housing to obtain a permit. Virtually all condominium's have very strict rules & regulations that must be followed by all owners, and usually have an on-site property manager to enforce rules. Also, AirBnB already directly pays occupancy taxes to the city of CC on behalf of STR's. So requiring additional permits does nothing but add a further tax on STR owners in multifamily units which are already paying high HOA fees and high property taxes!

Describe Feedback: Mayor & City Council, The Laguna Madre Cove subdivision located in the SE corner of Flour Bluff has seen a steady increase in short term rentals since 2014 and it's devastated our once quiet peaceful neighborhood. Within a 200 ft. radius of my home there are four short term rentals with one located as close as sixty feet from my back door. Our neighborhood is zoned RS 6 yet there are more and more short term rentals popping up in our neighborhood every day. Until you have a short term rental located next to your home you really can't imagine the chaos that it causes with all the late night partying, loud music, increased traffic, bright lights, people urinating outside in plain view of the residents and the general disrespect shown to the people that reside in the neighborhood. Myself and the residents of the Laguna Madre Cove subdivision fully support the passage of the new Short Term Rental Ordinance and very much look forward to restoring peace and quiet to our beautiful neighborhood.

Describe Feedback: STR in the north beach area has brought a lot of revenue to the area. People love vacationing in north beach as it has most if not all amenities available at a reasonable cost for families. People love to come to the US Lexington, the aquarium, and many other available activities in the area. North Beach is close to Port Aransas for full beach access, fishing and many restaurants to chose from. Visitors to the area have come back again and again. We would not want to lose the ability to have STR for these people and deifinately would not want to have to pass along fees to our guests. All rentals that go through Air BNB, VRBO, Vacasa etc collect all appicable taxes and fees for the hosts. Keeping STR available is viable for the area and as North Beach continues to grow, STR are the sure way to keep the economy growing. Thank you

As the short term rentals are on the upcoming city council agenda, I would like to express my opinion. We live near Bluff Landing in Flour Bluff and purchased our home in 2004. This was a peaceful neighborhood consisting of mainly retirees that had the atmosphere of neighbor helping neighbor. Around 2015, the neighborhood dramatically changed. As residents passed away and homes were put on the market, more new owners were using these properties as short term rentals. This has changed the dynamic of the whole neighborhood. It is now commonplace for late night parties coupled with anything and everything you can imagine. Loud music at night and beyond, drunk short term rental residents using yards as bathrooms. On two occasions, people pounding on my door confusing my property with their location etc. I understand that tourism is valued in this city but if the short term rentals continue to be under regulated, this city will lose the charm that was once the thing that attracted tourists in the first place. Also, as a resident of Corpus Christi, we deserve to have a structured approach to handling this ongoing and growing problem. I appreciate the opportunity to express my concern. Sincerely, Erin Wilson

My business partner, Derrick Katzer and I sought out and purchased a condo in March of 2021. We were informed that much of the island was zoned in the RS district and we could not short term rent due to City ordinances. Because of the ordinances our purchase options were limited. We are clearly baffled by the initial passing of new ordinances that are unclear and undefined and the council members are preparing to vote again on January 11, 2022 additional rules and regulations. The Policy Development Strategy is outlined to seemingly created another department which taxpayer dollars would have to fund and tax those legally able to currently operate STR's. However, most of the city councilmembers discussion was concerning "Party Houses". I learned that \$50,000 was appropriated to seek and shut down the illegal activity of renting RS zoned properties and that \$0 (ZERO) dollars have been spent. I ask that the city council abort this ludicrous wasting of taxpayer dollars.

In the last several years we have purchased several neglected, vacant, dilapidated homes. We invested our time and money into these homes to make them beautiful places that visitors can relax and enjoy. We check all the ratings of the guest who come and if they have a poor rating, we simply call Airbnb and have their booking canceled. This ensures that not only are our homes taken care of, but our neighbors and community are respected as well. Not only do they enjoy our homes, but they love our dining and entertainment recommendations. We have even had guest ask if we would be willing to sell our cottages! We have had the best experience using Airbnb to host our guests. We have several fishing guides that we refer guests to, and they refer our homes to their clients.

I am submitting this public comment to express my immense disappointment that the City Council is not allowing virtual public input for the meeting tomorrow. I think this is irresponsible on the part of the Council. Just over this last Saturday and Sunday, the number of Covid-19 cases reported were 1,802. It's unconscionable that City Council would require exposure to others in order to submit public comments. It is deliberately making it impossible for me to give input except through this generalized form. Until Covid is over, virtual input should be allowed for all City Council meetings. The website states: "The Council wants to assure that any citizen may speak in support or against any item on the Agenda and encourages the expression of all views before action is taken." Yet by your lack of accessibility to meetings you are directly contradicting that. Please change your policies to allow virtual public attendance to your meetings. Thank you, Elisa Gonzalez

Describe Feedback:

I am writing to note my objections to the proposed change in the ordinance. I live in Phoenix AZ and own a condo on Windward Dr. on the Island. We offer short term rentals when we are not using it. I believe that the permit proposal should be rejected. It appears from reading the proposal that one of the main purposes is to help to catch owners of single-family homes who are not supposed to be offering short term rentals. It puts the financial and administrative burden of enforcing the existing ordinance on those of us who are following the ordinance. It also charges the same amount of fees and time commitment to one person who owns one condo as it does for mega companies who own or operate dozens of properties. Finally, the proposal assumes that one size fits all. For example, it. requires every unit to have a carbon monoxide alarm even if the unit has no carbon based fuels nearby. It also requires a posted evacuation plan even for one-room units that directly access the outdoors.

I am voicing a concern on the subject of short term rentals in Corpus Christi. It has been brought to my attention that city officials are looking to sanction or stop the use of short term rentals in our city. This is devastating news to me as my wife and I have just opened up our condo in the south side of town to short and long term rentals through Air Bnb. Over the past 3 months we have enjoyed hosting guests from all over looking to visit our wonderful city. Many of our guests have looked to Air Bnb rentals for vacationing, living while in property transition, visiting family, or just looking for a place to accommodate their pets as well as family. I do not agree with or understand why city officials would want to tamper with such a business as it provides yet another Avenue for our city to attract visitors and boost or city's economy. Air Bnb has a clear and concise plan to provide guests with the best experience while upholding house rules to ensure safety and tranquility.

Dear Counsel, Re: Possible rule changes regarding Short Term Rentals of privately owned and administered condos and properties within the jurisdiction of the City of Corpus Christi. This type of lodging is being taxed and regulated already. The tax burden is being paid for by your citizens who own the units as well as additional taxes being paid by the guests that we bring to stay in and enjoy our great city. I implore you, do Not lay additional regulations and fees on us. As private owners, we do not need any new services that are not already being provided to us and our guests and we should not be expected to pay any new fees for such unwarranted services. We do not need additional regulations limiting us either. Things are going just fine for us and our guests. As Owners of these rental units, we attract many visitors and much revenue into the city of Corpus Christi. Please do NOT regulate us out of business. Best Regards, Capt. Respectfully, no one has my neighborhoods best interest at hand more than I. I make sure to vet my renters & implement rules & regulations for them while in my home, not only to respect my property but also respect the neighborhood & residents. I have security cameras to keep an eye on everything, a neighbor & family who help me. I hope the pandering stops & we are able to move forward with this as a progressive city who wants their citizens to do well. Do not take away this livelihood from your citizens. Describe Feedback:

Hello, My name is John Dunne. I live at 6622 hunt drive, Corpus Christi, Texas, 78413. First, I would like to thank the Mayor, the Council, and the City staff for taking up this controversial issue regarding STRs. Unfortunately, I am traveling back to Corpus Christi and I am unable to be here in person. As some of you may remember, I worked as a staff member in the Texas Legislature a couple of years ago that represented Corpus Christi. I understand a lot of the complaints against STRs. I personally would never want to live to next a house that was always partying, left a bunch of mess, and took up parking in the streets. However, STRs are and have been in cities to help visitors have another option of their type of stay. They have had a huge positive impact on cities by being very pro-business, contributing to local businesses, and helping maintain the quality of the home. I agree that regulations are needed to put in place to help raise the standads of the STRs. We have too many unregulated STRs that are running freely causing disruptions in great neighborhoods. I know a lot of us owners and managers of STRs would like to see that these issues are addressed and regulated. We do not want parties, which are against the rules of the STR websites, we do not want to take up street parking, and we want clean and attended to lawns with no trash on them. Our line of work is dependent on having our STRs in the best shape. My personal motto is "if it is not good enough for my family, it is not good enough for my guests." It is with that motto that I was able to attain "Superhost"

status with Airbnb. An achievement for maintaining a 4.8-star rating or better that is rated by the guests who stay with us. I have had the honor of hosting a minimum of 200 people since I have started 2 years ago. As an STR operator, I make it my duty to be their local guide to ensure they have the best experience they can. Some of the many reasons that guests are choosing to come to Corpus Christi and staying in STRs are for more privacy than other alternatives, having a fully furnished kitchen and pantry for their use, being able to stay in one home with their family rather than scattered rooms, and to minimize contact to help reduce the spread of the COVID-19 virus, which we all know is on the rise again. They are coming to Corpus Christi to visit the beaches, eat at the local seafood restaurants, visit family, attend weddings, work at jobs, and sadly, even attend funerals. People are coming to Corpus Christi. They should not have their options and availability limited. Now, more than ever, small local business needs their and our help. I have seen this council and past council start to move forward. Corpus Christi is usually lagging behind the times because for some reason, people here do not like change. It is because of this mentality that Corpus Christi has the reputation it does. Growing up, my peers vowed to never come back to Corpus. Why? "Corpus never changes, Corpus cannot have nice things, they are resistant to change -so why bother." These comments are what caused great people, brilliant minds to leave our city only to come back to visit family and see that only minor things have changed. I look forward to the implementation of an agreeable ordinance. We are for better business practices of STRs, more transparency of STRs, and we want to see that STRs are run legally, safely, and fairly. I would ask the Mayor, Council, and staff to consider the approval of a few of the single family zoned STRs in the restricted areas to continue to operate during this oversight period. There are top rated hosts in the areas who will have their business halted for 180 days. This ordinance will cause them to lose their superhost status if they have to cancel reservations which would be detrimental to their business and status they worked hard for. Again, Thank you for your time and consideration. John Dunne

When was this decided and voted on? Transparency much? Your attempt to insult the public as "against growth... or assess the pipeline further out into the ocean" regarding desalination waste was a poor attempt to characterize the public. Describe Feedback: The City is in the process of drawing new district maps. Many people do not even know this yet. We need fair political maps and here is how we achieve them: Any redistricting process should include specific timelines for the steps leading to a redistricting plan and full disclosure throughout the process with public hearings on the plan proposed for adoption. Redistricting must be accomplished in an open, unbiased manner with citizen participation and access at all levels and steps of the process. However, there is nothing posted on our City website about the redistricting process. Census 2020 data has not been published on the website nor have the new Nueces County precinct maps. Please update the website and let the public know what is happening with this very important redistricting process that only happens every ten years. Let the public participate in the process. It is hard enough to get involved, give input and time to public policy. I am asking that you get on Zoom and or other platform that will allow the public for direct input at a safe and cooperative fashion. In the past phone calls have been allowed, that at least gives a human voice to the particular subject at hand. Please do the right thing and give Democracy a Chance.</p>

Hello Rebecca! I'm Jay Williamson and I live at 230 Whiteley Dr in the Bluff with my wife Sammie. I would like to share my feelings about short term rentals in a home owners neighborhood. I spent my entire career in real estate and property management. I know from my experience that short term rentals have a negative effect on property values. Thanks for listening and I hope to meet you in the future!

I know that today's meeting will likely be full of people and not everybody will be able to get up to speak so I wanted to send my comments likely should I not be able to speak in person.

I believe that the city has all the other regulations in place required to regulate short-term rentals in multifamily, two family, as well as single family residential zoned areas. The concerns that most people have regarding short-term rentals and having loud tenants and causing a nuisance, are already addressed by existing city regulations.

I am in support of the current ordinance proposed and hope that phase two is implemented as soon as possible so that those people who have property and RS zoned areas will be able to apply for and get a permit.

The residents on Padre Island who are extremely outspoken about the issue are all under a property owners association where if they so choose, could prohibit short-term rentals within their own neighborhoods without affecting the rest of the city of Corpus Christi.

Thank you for your time,

Jason Page
