

REVOCABLE EASEMENT
(TexStar Midstream Utility, LP, Tract TX-NUE-092.00)

THE STATE OF TEXAS §

KNOW ALL MEN BY THESE PRESENTS:

COUNTY OF NUECES §

That, the City of Corpus Christi, a Texas home-rule municipal corporation, P.O. Box 9277, Corpus Christi, Nueces County, Texas, 78469-9277, ("Grantor") acting by its duly authorized City Manager, or designee, ("City Manager") in consideration of the sum of Ten Dollars (\$10.00) to it in hand paid by TexStar Midstream Utility, LP, whose address is 18615 Tuscan Stone, Suite 300, San Antonio, Bexar County, Texas, ("Grantee"), the receipt of which is acknowledged, and the further consideration of "Grantee" complying with the City's Hazardous Substances, Liquids, and Gas Pipelines and Distribution System Ordinance, Article VII Chapter 35 Code of Ordinances, and City's pipeline ordinance, Article VII Chapter 49 Code of Ordinances, as amended, has GRANTED, SOLD, AND CONVEYED, and by these presents does GRANT, SELL, AND CONVEY, upon the conditions hereinafter stated unto the said TexStar Midstream Utility, LP, the right to relocate, install, operate, repair, replace, and maintain one refined products pipeline, not to exceed twelve (12) inches in nominal diameter, together with appurtenant facilities including, but not limited to, valves, meters, regulators, cathodic protection, pigging facilities, test leads, and aerial markers for the transportation of natural gas, gaseous products, crude oil, and other hydrocarbons or minerals, whether in gaseous or liquid form, across, under and upon the land owned by Grantor described on the attached Exhibit A and shown on the attached Exhibit B.

TO HAVE AND TO HOLD the same unto the Grantee its successors and assigns, together with the right to enter upon Grantor's tract of land as shown on the attached and incorporated Exhibit "A and B", for the purpose of relocating, installing, operating, repairing, replacing, and maintaining said Improvements under the following conditions.

1. Definitions:

- a) City means the City of Corpus Christi, a Texas home-rule municipal corporation.
- b) Grantor means City, and may be used interchangeably with City.
- c) City Manager means the City's City Manager or his designee.
- d) Director means City's Director of Engineering Services or his designee.
- e) Risk Manager means City's Director of Risk Management or his designee.
- f) City Attorney means City's City Attorney or his designee.

- g) Grantee means TexStar Midstream Utility, LP.
- h) Improvements means one refined products pipeline, not to exceed twelve (12) inches in nominal diameter, together with appurtenant facilities including, but not limited to, valves, meters, regulators, cathodic protection, pigging facilities, test leads, and aerial markers all within City property.
- i) Contractor means Grantee's agent to construct, maintain, replace, repair, or remove the Improvements.
- j) Exhibit A and B means the Exhibits, whether 1 or more pages, showing the locations where the Improvements enter or cross City property.
- k) City Utilities means the City's Water, Wastewater, Storm Water and Gas divisions.
- l) Franchisees' Preexisting Improvements means those improvements owned or operated by a franchise or licensee of the City that were in place prior to the Improvements installed under this Revocable Easement.
- m) Utilities Representative means the applicable City Utilities representative that needs to be notified (1) prior to routine construction or repair work or (2) prior to or concurrently with emergency repair work. During routine relocation, installation, operation, repair, replacement, and maintenance work the Utilities Representative will be the appropriate Water, Wastewater, Storm Water or Gas division foreman on duty. The City has Water, Wastewater, and Gas crews on duty or on-call 24 hours a day, 365 days a year. The Water Representative, the Wastewater Representative, the Gas Representative, and the Drainage Representative is the respective name for each division's authorized representative as set out above, and collectively called the Utilities Representative.
- n) Franchisee's Representative means the representative of a City franchisee or licensee that has preexisting Improvements within 2-feet of the proposed Improvements that need to be notified (1) prior to routine construction or repair work or (2) prior to or concurrently with emergency repair work. During routine installation, maintenance, or repair work each franchisee's or licensee's representative (e.g. the SWBT Representative, the AEP Representative) will be contacted. The franchisee and licensee representatives are collectively called Franchisee's Representative.
- o) City Inspector means that person acting on behalf of a City Utility or the City Street Department inspecting the relocation, installation, operation, repair, replacement, and maintenance of the Improvements.

p) Revocable Easement Area means that portion of City property upon which the Improvements will be installed, operated, repaired, replaced, and maintained.

2. Construction Standards. All work proposed by Grantee to install, repair, or replace the Improvements will equal or exceed Department of Transportation Pipeline Safety Standards as applicable (Title 49, Code of Federal Regulations, Part 192 - Transportation of Natural and other Gas by Pipeline, or Part 195 -Transportation of Liquids by Pipeline - latest revision) for the transportation of gas or liquids by the Improvements.

3. Compliance with Laws. In installing, operating, maintaining, repairing, or replacing the Improvements Grantee must comply with all applicable Federal, State, County, and City laws and ordinances, and all amendments thereto, and secure all necessary permits from the appropriate agencies, including but not limited to, City Ordinance No. 021776, approved on October 20, 1993, which provides for emergency response coordination for pipelines transporting hazardous substances, liquids, and gases, including information reporting requirements for existing and new pipelines.

4. Depth Limits and Water Transmission Pipeline Clearances. Grantee must install, replace, repair, and maintain the Improvements so that no portion of the pipeline will be any shallower than 36-inches from existing ground or roadway pavement. Grantee will also maintain a minimum of twelve (12') feet clearance between Grantee's pipeline and any City water transmission pipelines. Grantee must notify the Texas One-Call at 1-800-245-4545, 1-800-DIG-TESS, and Southwestern Bell 1-800-828-5127 for utility locations in the Revocable Easement Area at least 48 hours prior to the start of construction.

5. Crossing or Ditch Requirements. Prior to any repair or replacement of the Improvements, Grantee must provide protection at all road crossings or ditches, by either casing, extra pipe wall thickness, concrete jacketed pipe, or other means approved by the Railroad Commission or Federal D.O.T. as applicable, and Grantee must identify the method on the construction plans.

Grantee will maintain a minimum clearance of ten (10') feet between Grantee's pipeline and Grantor's concrete lined drainage channel located on Grantee's construction drawing, Sheet _____, Station ____+____.

6. Operating Pressure. Grantee's maximum operating pressure for the Improvements must not exceed design limitations as set forth in the Railroad Commission or Federal D.O.T. regulations for the size and type of line to be installed and operated.

7. 60 Day Revocation. Grantee understands and agrees that the right and easement herein granted may be revoked at any time by the City of Corpus Christi acting through its City Manager, and Grantee may be required to remove the Improvements upon 60 days notice in writing. If Grantee is in violation of Department of Transportation or Railroad Commission laws, rules, or regulations, or City ordinances, Grantee will be given written notice of the violation and 30 days from receipt of such notice to commence to cure

the stated violations, within the overall 60 day period. If after the 30 day cure period has expired and Grantee has not cured the violations, this Revocable Easement may be revoked and Grantee may be required to remove the Improvements upon 30 days notice in writing: provided however that if Grantee has commenced to cure the stated violation but has not completed same with the 30 day cure period, Grantee may proceed to cure such violation and this Revocable Easement shall not be revoked.

8. Improvements Markers. Grantee will place markers at the points where such Improvements enter or leave a public street or drainage right-of-way or other City property. Such markers must be of permanent construction bearing Grantee's name and emergency telephone number and placed on the edge of the public right-of-way.

9. Assignability. This Revocable Easement, and all its terms and conditions, bind and inure to the benefit of Grantor and Grantee and their respective lessees, licensees, successors, and assigns. Grantee may assign this Revocable Easement to any person, firm, corporation, partnership, or other entity, with the prior written consent of Grantor's City Manager, which consent will not be unreasonably withheld. Any assignment must provide that the assignee unconditionally assumes all the duties and obligations of assignor upon the same terms and conditions as set out in this Revocable Easement, which assumption of duties and obligations is partial consideration for Grantor's consent to the assignment.

10. Construction Drawings & As-Builts. Grantee must provide Director with a set of construction plans for all work proposed for the Improvements located within the Revocable Easement Area, one month prior to the start of construction, for Director's review and approval. The plans will tie the centerline of the proposed Improvements to the centerline of the Revocable Easement Area. Any centerline improvements will also be tied to the existing utility centerlines. The Grantee must provide the Director with a complete depth profile, distance, and location of its Improvements from existing City utilities, other franchised utilities, and other pipelines, that fall within the Revocable Easement Area. The Grantee is advised that centerline of proposed Improvements must have a minimum centerline to centerline horizontal distance as shown in the table below:

Water	- 60"	TimeWarner	- 12"	KMC	- 12"
Wastewater	- 18"	SWB	- 12"	ICG	- 12"
Gas	- 18"	AEP (CPL)	- 12"	Grande (ClearSource)	- 12"
Storm Water	- 18"	ESPIRE	- 12"	Caprock	- 12"

The Grantee must provide the Director with a 24"x36" size reproducible set of as-built drawings of the Improvements within 60 days after completion of construction; failure to do so may result in Grantee's Revocable Easement being forfeited by the City.

11. Insurance. The Grantee must not commence work under this Agreement until it and its Contractor have obtained through self insurance or insurance policies required herein and proof of such insurance as evidenced by the Certificate of Insurance has been submitted to and approved by the Risk Manager. The required type and amount

of required insurance coverage is specified in the attached and incorporated Exhibit "C". The Grantee and its Contractor, if any, must have and maintain Commercial General Liability Insurance during the entire construction phase of the project. When construction is finished and the Improvements completed the Grantee must have and maintain Commercial General Liability Insurance through self insurance or insurance policies for the entire duration of this Revocable Easement and for so long as Grantee's Improvements are located in or upon property of the Grantor. This provision shall survive termination or expiration of this Revocable Easement.

The contractual liability portion of this insurance must be broad enough to cover the indemnity agreement in this Agreement. Such policies of insurance must include the City as an additional insured with respect to any liability arising out of the Grantee's and its Contractor's use or maintenance of the Improvements in the Revocable Easement Area. The insurance policies specified must include an endorsement stating that the insurance company(ies) must give the Director 30 days written notice by certified mail, before any policy covered thereby is canceled, not renewed, or materially changed. Copies of all insurance policies from Grantee and Contractor must be provided to City Attorney within 30 days after City Manager's reasonable written request therefor.

Grantee and Contractor, if applicable, must provide copies of all insurance policies to the City Attorney within 30 days of the City Manager's reasonable request therefor if an incident-relating to the Improvements or Grantee's operations hereunder-occurs that reasonably appears to be covered by such insurance. If such copies are requested and provided, Grantee may mark the information in Grantee's policies that Grantee believes is confidential or proprietary. If City is requested to provide all or part of Grantee's insurance policies to third parties, City will timely forward the records to the Attorney General for a determination whether the records are "Open Records" under the Texas Open Records Act. City will contemporaneously notify Grantee of the open records request so that Grantee may participate in any available procedures and take steps it believes necessary to protect the nature of the confidential or proprietary information.

12. Indemnity. Grantee must fully indemnify the City of Corpus Christi, its officers, employees and agents ("Indemnitees") against any and all liability, damage, loss claims, demands, and actions of any nature whatsoever on account of personal injuries (including without limitation, workers; compensation and death claims), or property loss or damage of any kind, or any other kind of damage which arise or are claimed to arise out of or in connection with the Grantee's or Grantee officers', agents', and employees' ("Grantee's Agents' ") negligent acts or omissions or acts of intentional or willful misconduct in their respective installing or marking of the Improvements or other construction, operation, maintenance, repair, control, or use of the Improvements or the Revocable Easement Area, including but not limited to, those damages arising out of Indemnitees' intentional or negligent acts in cutting or causing to be cut the Improvements during installation, repair, replacement, maintenance, or operation of City utilities located in or adjacent to the Revocable Easement Area; and including but not limited to those damages arising out of the Grantee's or Grantee's Agents' intentional or negligent acts in cutting or causing to

be cut City utility lines during Grantee's or Grantee's Agents' use of the Revocable Easement Area. This provision shall continue so long as Grantee's Improvements are located on City property.

13. Repairs to City's Improvements or Franchisees' Preexisting Improvements. Grantee will repair, or cause to be repaired, any damage its construction, operation, repair, relocation, replacement or maintenance of the Improvements causes to a City street, sanitary sewer, storm sewer, gas, drainage facility, or to a Franchisees' Preexisting Improvements if the City Improvements or Franchisees' Preexisting Improvements were in place prior to Grantee's initial installation of the Improvements.

14. Abandonment of pipeline. Grantee may leave abandoned pipe in place unless the Director requires the Grantee to remove the abandoned pipe to facilitate city operations or protect the public safety. Upon notice from the Director, Grantee shall promptly remove the specified abandoned Improvement. If a Grantee abandons Improvements, the Grantee remains responsible for the safe condition of the Improvements after the pipe is abandoned, The City will not assume ownership or control over the abandoned Improvements, and the City assumes no responsibility for their maintenance and safety, unless the City in writing accepts a particular facility. Subsection 49-97(e) of the City Code of Ordinances continues to apply to any pipe, facilities and appurtenances not removed by Grantee after abandonment. If Grantee removes any pipe, facilities or appurtenances, the Grantee shall restore the City property, at the sole cost of the Grantee, under subsection 49-97(c) of the City Code of Ordinances.

15. General Conditions.

a) *Recordation.* City will file the Revocable Easement at the Nueces County Courthouse and Grantee will reimburse City for the recording fees.

b) *Notification and Verification.* Contractor must verify depth and locations of City Utilities, and all Franchisees' Preexisting Improvements in or near the Revocable Easement Area 48 hours prior to commencing any routine construction or repair work, other than bona fide emergency repairs which must be reported to the appropriate Utilities Representative(s), the Street Superintendent, and the appropriate Franchisee's Representative(s) immediately upon Grantee's knowledge of the need for repairs.

Contractor must notify the Utility Representatives at:

Water Representative	- 361 - 857-1888 (880-3140, after hours)
Wastewater Representative	- 361 - 857-1818 (880-3140, after hours)
Gas Representative	- 361 - 885-6900 (885-4396, after hours)
Street Superintendent	- 361 - 857-1940 (886-2600, after hours)
Storm Water Superintendent	- 361 - 857-1881 (880-3140, after hours)
Traffic Signal & Fiber Optic	- 361 - 857-1940 (886-7452, after hours)

Texas One Call - 361 - 1-800-245-4545
1-800-DIG-TESS - 361 - 1-800-344-8377

and the Franchisee's Representative(s) at:

SWBT - 361 - 881-2511 (1-800-824-4424, after hours)
AEP (CP&L) - 361 - 299-4833 (693-9444, after hours)
Time Warner - 361 - 857-5000 (857-5060, after hours)

Grande (ClearSource) - 361 - 814-1500 (334-3000, after hours)
Espire (Fiber Optic) - 880-5934 (pager, 850-2652, after hours)
KMC (Fiber Optic) - 504 - 733-3900 (pager, 1-800-676-9407)
ICG (Fiber Optic) - 361 - 561-3204 (361-774-3889, after hours)
Caprock (Fiber Optic) - 972 - 702-7924

to verify depths, locations, and time of beginning construction or repair work.

The Utility Representatives, the Street Superintendent, and the Franchisee's Representatives may have a representative present during Grantee's construction, repair, or emergency repair operations.

c) *Permit.* 48 hours prior to commencing any routine construction or repair work, and by 9 a.m. the next work day for emergency repairs, the Grantee will apply to the Director or his designee for a permit before disturbing part of the Revocable Easement Area. Grantee must perform the work in accordance with the permit and all applicable federal, state, and local laws and regulations.

Contractor must not leave trenches or pits in the Revocable Easement Area open overnight unless Contractor provides adequate safety and security devices to prevent possible injuries or accidents. All trenches or pits must be backfilled as soon as possible, the backfill properly compacted, the surface restored, and the work all done in a neat and workmanlike manner. No bore pits may be left open longer than 14 calendar days regardless of location. Barrel type barricades will be placed adjacent to all pits.

At a minimum the following items will be included in the permit:

i) *Bore.* Grantee's pipeline crossing the Revocable Easement Area will be dry or slick bored. Wet or slick bore may be approved by the Director if the Grantee will provide the Director or "Designee" sufficient and satisfactory soil analysis information to support the wet bore.

ii) *Open-Cut.* Grantee or its Contractor must saw cut any existing concrete and asphalt down to sub-base, and replace with new concrete or asphalt. The pavement repair must consist of 5-inches of compacted Hot Mix Asphalt Concrete (HMAC) Type D to be placed in two lifts, i.e., 3-

inches and 2-inches or two lifts of 2.5-inches. The HMAC pavement must extend over the existing base for a width of 12-inches on either side of trench cut. Subgrade will be trenched with some prime coat MC-70 at 0.15 gal./sy. Final backfill shall consist of cement stabilized sand containing a minimum of 2 sacks of Standard Type I Portland cement per cubic yard of sand in street right-of-way where asphalt concrete pavement has been cut and surface. Pavement will be restored as described five feet on each side of cut centerline, such that no settlement will occur in roadway area. Grantee will encase the Improvements in sand, with a minimum of 8-inches around the Improvements.

d) Uncovering City Utilities. A City Inspector has the authority to request Contractor to uncover a Utility Line in the Revocable Easement Area to verify its depth or location. If the proposed Improvements cross an existing transmission main (16" diameter and above), the Contractor will uncover the main at the point of intersection with the Improvements, with a Utilities (Water) Representative on-site during excavation. This excavation will occur 24 hours prior to start of construction of that portion of the Improvements that intersect the transmission main.

If the proposed Improvements cross a City Utility, Grantee must maintain a 3-foot vertical separation; however Grantee must maintain a twelve (12) foot vertical and 5-foot horizontal separation around all water transmission mains.

Grantee must properly compact backfill around all existing City Utilities in accordance with all City constructions standards, including City Water Distribution System Standards, paragraph 14(c), and the City Inspector's request. Contractor must take every precaution to not disturb the soil surrounding the existing City Utilities, including any and all thrust blocks.

If Contractor's work on the Improvements damages a Waterline, as determined by the Water Representative, a Water crew must be immediately allowed access to the Revocable Easement Area to make all repairs. All City's costs (labor and equipment) associated with the Waterline repairs will be paid by the Grantee within 30 days after City sends Grantee an invoice. The Water Representative will determine the extent of damage to the Waterline and the type of repair necessary.

If Contractor's work on the Improvements damages a City Utility line and soil or sand enters service lines and causes damage to residential or non-residential plumbing, Grantee must resolve the damage issue with the individual owners, including all costs associated with resolution.

e) City Inspectors. While work is being done within the Revocable Easement Area, including without limitation work around any existing Water

main, Contractor must pay for each City Inspector's time at the Revocable Easement Area at a daily rate of \$301.31 for each day spent inspecting construction, maintenance, repair, replacement, or relocation of said Improvements. A half-day - 4 or more hours of work - constitutes a whole working day for purposes of calculation. Any time in excess of 8 hours a day, or on Saturday, Sunday, and Holidays, is calculated at a daily rate of \$56.49 per hour. Grantee must pay these funds to the appropriate City Department within the City as allocated by the Director. The daily rate and overtime charges may be changed by the Director each August 1 based upon the average wages of the City Inspectors. The new charges will be on file with the Director.

f) Drainage, grading, and erosion. Contractor must maintain proper drainage at all times, including without limitation at the end of each work day, in all drainage ditches impacted by the construction, maintenance, repair, replacement, or operation of the Improvements.

After completion of, or in the event of repair or replacement of, the Improvements Contractor must reshape and grade, and sod if applicable, drainage ditches to a correct and permanent condition as determined by the Director. If the drainage ditch is concrete there will be no grading, etc., but the ditch must be repaired to its previously existing condition as determined by the Director.

If there is any erosion of roadway or private property due to loss of existing vegetation along the banks of the drainage ditches, or from any other condition due to disturbing the soil along the Revocable Easement Area caused by Grantee relocating, installing, operating, repairing, and replacing the Improvements, Grantee must resolve the damages issue with the individual owners, including all costs associated with resolution.

g) Damages to structures. If there is any damage to driveways, culverts, head walls, and any other structure, public or private, caused by Grantee relocating, installing, operating, repairing, and replacing the Improvements, Grantee must resolve the damages issue with the individual owners, including all costs associated with resolution.

h) Equipments and materials. Grantee may not store or leave overnight any equipment or material in City property. Grantee's equipment or stock pile of material on private property, or on City right-of-way during the day, must not obstruct the vision of vehicles or pedestrians for 500 feet either direction from a street intersection or driveways onto a street.

i) Aesthetics. To preserve and protect trees, shrubbery, and other aesthetic features on the street right-of-way and on City property, the Director may specify the extent and methods of tree removal, tree trimming,

or replacement, and replacement of other aesthetic features, including specifying the methods of installing the Improvements. The Director will use due consideration in establishing the value of trees and other aesthetic features in the proximity of the proposed Improvements and any special requirements justified by the value of the trees and other aesthetic features.

j) Testing. City Inspector determines when laboratory testing will be required, the number, location, and frequency of testing. All testing is at the Contractor's expense.

k) Safety. The City Inspector may request any other conditions that may be required to complete this project in a safe and workmanlike manner.

l) Guarantee. Grantee's workmanship and materials must comply with all applicable City Standards and all work must be guaranteed by the Grantee for a one-year period from the date Grantee provides the reproducible, as-built drawing required by Section 10, to the Director.

m) Notification of Leaks. Grantee must notify Director of any spills and leaks within the Revocable Easement Area within two business days after Grantee is aware of the spill or leak. Grantee must pay for all remediation costs related to its Improvements spills or leaks within the Revocable Easement Area. Grantee must provide Director a remediation plan that complies with all applicable federal, state, and local rules and regulations at the time of discovery of the leak or spill. The City Manager may investigate the condition and extent of the leaks and spills.

16. City use of Revocable Easement Area. All rights granted Grantee, are subordinate to all uses as the City may make of such Revocable Easement Area, and street right-of-ways for public purposes, and any drainage right-of-way for State, County, for City purposes.

17. Sale of Natural Gas - Restrictions. Grantee is expressly prohibited from the sale or distribution of natural gas to consumers, whether industrial, commercial or residential, except AEP (Central Power & Light Company), which consumers are located within the city limits of the City of Corpus Christi as may be amended from time to time. It is expressly provided that, as used in this paragraph, the sale of "natural gas" does not include the intercompany sale or transfer by or between two or more business entities of fuel gas or fuel in any form used and consumed in the fractionation, heating, distilling, producing or manufacturing process, of the petro-chemical industry.

It is mutually understood and agreed that this Agreement, as written, covers all covenants, agreements, and stipulations between the parties and that no representations or statements, written or oral, have been made modifying, adding to, or changing the terms hereof, and that any party securing this conveyance on behalf of

Grantee is without authority to make representation, stipulation, covenant or agreement not herein expressed.

EXHIBIT "A"

NUECES COUNTY, TEXAS
50 FOOT WIDE EASEMENT DESCRIPTION

February 08, 2013
Sheet 2 of 2

DESCRIPTION: EASEMENT

A 50 foot wide ~~permanent~~ easement, being twenty five-feet (25) left of and twenty five-feet (25) right of a surveyed baseline as shown on Sheet 1 of 2 of this Exhibit "A", being situated in the Gregorio Farias Survey, Abstract No. 592, Nueces County, Texas, and out of a called 4.92 acre tract of land, described in a deed to the City of Corpus Christi, recorded in Volume 1370, Page 27, Deed Records, Nueces County, Texas (D.R.N.C.T.), said 50 foot wide ~~permanent~~ easement being more particularly described along a surveyed baseline by centerline description as follows:

BEGINNING (B.O.L) on the Northeast line of said 4.92 acre tract and on the Southwest line of a called 13.963 acre tract of land awarded to The City of Corpus Christi by Judgement, in Cause No. 71, styled City of Corpus Christi vs. Clyde Jennings and Zelda Jennings, recorded in the Minutes of the County Court of Nueces County Texas, from which a 5/8-inch iron rod found for the South corner of said 13.963 acre tract, bears: South 55°47'15" East, a distance of 89.98 feet;

THENCE South 02°39'40" East, a distance of 248.27 feet to the Southwest line of said 4.92 acre tract, and the most Westerly Northwest line of a called 18.87 acre tract of land (less 0.98 acre), described in a deed to Charles W. Bickham, recorded in Document #1996017928, Official Public Records, Nueces County, Texas (O.P.R.N.C.T.), for the END OF THIS DESCRIPTION, and POINT OF EXIT (P.O.E), from which a 3/4-inch iron pipe found for the South corner of said 4.92 acre tract, bears: South 56°00'15" East, a distance of 752.23 feet.

The above surveyed baseline traverses the said 4.92 acre tract for a total distance of 248.27 feet or 15.05 rods, and containing 0.28 acre of land in said ~~permanent~~ easement.

All bearings and distances contained herein are grid, based upon the Texas State Plane Coordinate System, South Zone, of the North American Datum 1983, in U.S. Survey Feet.

DESCRIPTION: TEMPORARY WORK SPACE:

A Temporary Work Space out of said 4.92 acre tract of land, located West of and adjoining the West line of the previously described ~~permanent~~ Easement as shown on Sheet 1 of 2, containing a total of 0.17 acre of land.

Plat of even date accompanies this field note description.
