1.2 Scope of Work

- A. Streets to be cleaned are mapped on Attachment A-1 and A-2
- B. The Contractor shall provide labor, supervision, equipment, and necessary transportation to perform the services.
- C. The Contractor shall clean street areas removing all dirt, mud, silt, sand, paper, rocks, cans, glass, grass, sediment and other debris between all curbs, gutters, median curbs, road shoulders, gore points (corners of medians), turning lanes, intersections and underpasses located in the City as designated by these specifications to the satisfaction of the Contract Administrator. (All of the above areas are hereinafter called "Streets.") Storm drain inlets are to remain free of debris and not collect sweeping debris during operations of the curb sweeping process.
- D. For the purposes of this specification, clean is defined as a clear concrete surface free from any debris. No item shall be left on the surface including asphalt, floatable litter, caked mud, dirt, glass, or any other item that is not permanently attached to the curb. The successful Contractor shall make every practical effort to attain this level of service. The Contract Administrator may allow for deviations from this definition due to street/curb conditions which may prevent the Contractor from attaining this level of service.
- E. Due to its continuous efforts to improve public streets, the City cannot guarantee that the current street configuration of any streets designated for sweeping will not change during the term of the contract. Despite any such changes to street configuration, Contractor shall continue to perform at the most current price under the terms of the contract.
- F. In the event of necessary clarification(s), the City may contact Contractor to further instruct sweeper operators with appropriate details of work.

1.3 Street Sweeping

- A. The Contractors shall clean the streets at the following frequencies.
At the sole discretion of the Contract Administrator, streets may be

reclassified during the term of the contract to compensate for changes, including, but not limited to higher traffic volume, greater volume of debris and unevenness of curb/street. At the sole discretion of the Contract Administrator, curb miles may be added or deleted.

- a. All streets mapped in the Downtown (Uptown/North Beach Area) on attached Map, shall be cleaned three (3) times a week i.e. 156 sweeps per year, except during inclement weather.
 - b. All streets mapped as Arterial streets on attached Map, shall be cleaned every 60 days i.e. 4 sweeps cycle per year, except during inclement weather.
 - c. All streets mapped as Collector streets on attached Map, shall be cleaned every 60 days i.e. 4 sweeps cycle per year, except during inclement weather.
 - d. All streets mapped as Residential Streets on attached Map, shall be cleaned every 180 days i.e. 2 sweeps cycle per year, except during inclement weather.
 - e. Scraping with a skid steer or loader is acceptable in combination with sweeping afterwards. This process will be paid by the hour and/or tonnage. The use of equipment will be paid by the hour and disposal.
 - f. The Contractors shall clean the streets at the following frequencies. At the sole discretion of the Contract Administrator, curb miles may be added or deleted.**
 - g. Debris removal from the area displayed on attached map shall occur once (1) a month i.e. 12 times per year, except during inclement weather.**
- B. The City may require unscheduled sweeping services as a result of accidents, citizens request, special events etc. The Contractor shall comply with such request as follows:
- a. During Normal hours (Monday to Friday 8:00 AM to 5:00 PM), the Contractor shall begin sweeping no more than one (1) hour after the City making such request by issuing task order.
 - b. During afterhours, weekends and Holidays, the Contractor shall begin sweeping no more than three (3) hours after to the City making such request.

- c. Payment for such unscheduled services shall be paid on an actual mile basis.
- C. The City may also require use of the Contractor's services for street prep work in conjunction with the City's In-House Rehab Program. The use of equipment for this purpose will be paid by the hour and disposal. The City will request equipment needed two (2) workdays in advance, indicating the location and time to report for each workday. The Contractor shall honor all such requests.
- D. The Contractor is required to have a competent and experienced supervisor/foreman on duty during each shift (nights and days) when work is being performed under this contract. The supervisor/foreman may be a sweeper operator. Shall provide an emergency contact for the supervisor/foreman that will be utilized during emergency events during after-hours or on weekend.
- E. The Contractor will comply with specific requirements of the City's Texas Pollutant Discharge Elimination System (TPDES) and Municipal Separate Storm Sewer System (MS4) Permit.
- F. The Contractor shall notify Contract Administrator immediately of any Pollution Discharge entering storm drains as a result of Contractor performance. Failure to comply with City notification may result in termination of contract or criminal charges to Contractor. The Contractor shall be responsible for the costs and liabilities imposed by law as a result of the Contractor's failure or negligence in complying with the provision set forth in this section. For the purpose of this section, costs and liabilities include, but are not limited to, fines, penalties and damages whether assessed against the City or the Contractor, including those levied under the Clean Water Act.
- G. The Contractor shall establish and adhere to a regular schedule of performance.
- H. The Contractor shall maintain gutter flow lines free of debris for free flow of water.
- I. The Contractor shall adjust sweeping speed as per street and debris condition and as recommended by the manufacturer. The Contractor will re-sweep entire street without any extra cost to the City if the driver exceeds manufacturer's recommendation.

- control dust resulting from Contractor's performance of the work, or by public traffic, either inside or outside City right-of-way.

 - N. Larger obstructions such as impaired vertical and/or horizontal clearance by tree limbs, fallen tree limbs, construction equipment or materials, and/or other similar items shall be reported to the Contract Administrator.
 - O. The Contractor will make every reasonable effort to minimize streaks (i.e., debris in path of travel) left by sweepers.
 - P. Inspections shall be performed on a regular basis, as well as spot checks and response to complaints.
 - Q. The Contract Administrator shall decide adequacy of sweeping. In the event results of sweep are unsatisfactory, the Contractor shall re-sweep unsatisfactory area(s) at Contractor's expense within 24 hours after notification.
 - R. The City reserves right to withhold payment for missed, incomplete or unsatisfactory sweeping performance.
 - S. At no time does the condition of the street relieve Contractor from sweeping responsibilities. The City recognizes that not all streets to be swept are in good repair. In those locations where streets are severely buckled, rolled, or in which the asphalt along the curb line is disintegrating, the Contractor will be expected to make the best effort possible to remove debris to a clean concrete finish. This may entail use solely of the vacuuming capabilities of the Contractor's equipment or handwork at the Contract Administrator's sole discretion. Inspections of work performed will take into consideration the condition of the streets.

1.4 Debris

- A. Collection and transportation of debris from the streets to the disposal site shall be the responsibility of the Contractor.
