# Analysis And Recommendation

---

- The proposed rezoning promotes an entrepreneurial ecosystem that has proven successful and is expanding.
- The proposed rezoning values entrepreneurial innovation supporting two, separate business fronts.
- Promotes a mix of land use between lunch hour office and custom welding services.
- After evaluation of case material, staff recommends a Special Permit in conjunction with the base zoning district that will only allow the additional use of warehousing goods, welding, and a machine repair shop.
- Such rezoning will protect the base zoning uses and prohibit more intensive uses that would be allowed in the requested zoning district.

**Planning Commission and Staff Recommendation:** Denial of the requested change of zoning in lieu thereof, approval of the “CI/SP” Intensive Commercial District with a Special Permit subject to conditions.
