Why are you interested in serving on a City board, commission or committee?

I respectfully submit this application for consideration for the City of Corpus Christi's representative for the Nueces County Appraisal District that is currently vacant. I recently retired from Texas A&M University – Corpus Christi where I held the rank of Full Professor of Political Science and Public Administration. My interest in this Board position stems from my continued interest in community building and civic engagement. My educational achievements and teaching experience in urban politics, state and local government, public policy and public administration as well as a BA and MA in Economics have provided a unique blend of knowledge that might be instrumental in my contribution as a Board member. I have been able to converge my research to benefit several countries and the State of Texas by working with State Senator Hinojosa to provide the data he needed to successfully enact legislation benefiting this area health in the colonias. I am also familiar with the working of the Intergovernmental Relations component needed to bridge the political jurisdictions and tax entities inherent in tax appraisals. It would be an honor to be to serve as a Board member.
