B. THE DEFENSE SHALL BE COORDINATED BY THE GRANTEE WITH THE OFFICE OF THE TEXAS ATTORNEY GENERAL WHEN TEXAS STATE AGENCIES ARE NAMED DEFENDANTS IN ANY LAWSUIT AND GRANTEE MAY NOT AGREE TO ANY SETTLEMENT WITHOUT FIRST OBTAINING THE CONCURRENCE FROM THE OFFICE OF THE TEXAS ATTORNEY GENERAL.

C. GRANTEE SHALL REIMBURSE SYSTEM AGENCY AND THE STATE OF TEXAS FOR ANY CLAIMS, DAMAGES, COSTS, EXPENSES OR OTHER AMOUNTS, INCLUDING, BUT NOT LIMITED TO, ATTORNEYS' FEES AND COURT COSTS, ARISING FROM ANY SUCH CLAIM. IF THE SYSTEM AGENCY DETERMINES THAT A CONFLICT EXISTS BETWEEN ITS INTERESTS AND THOSE OF GRANTEE OR IF SYSTEM AGENCY IS REQUIRED BY APPLICABLE LAW TO SELECT SEPARATE COUNSEL, SYSTEM AGENCY WILL BE PERMITTED TO SELECT SEPARATE COUNSEL AND GRANTEE SHALL PAY ALL REASONABLE COSTS OF SYSTEM AGENCY'S COUNSEL.

Except as otherwise expressly provided, the Grant Agreement may only be amended by a written Amendment executed by both Parties.

ii. Designating the property to which this Policy applies as a "designated area," which must at least comprise all buildings and structures where activities funded under this Grant Agreement are taking place, as well as Grantee owned, leased, or controlled sidewalks, parking lots, walkways, and attached parking structures immediately adjacent to this designated area;
iii. Applying to all employees and visitors in this designated area; and
iv. Providing for or referring its employees to tobacco use cessation services.

B. If Grantee cannot meet these minimum standards, it must obtain a waiver from the System Agency.

Grantee shall provide evidence of insurance as required under this Contract, including a schedule of coverage or underwriter's schedules establishing to the satisfaction of the System Agency the nature and extent of coverage granted by each such policy, upon request by the System Agency. In the event that any policy is determined by the System Agency to be deficient to comply with the terms of this Contract, Grantee shall secure such additional policies or coverage as the System Agency may reasonably request or that are required by law or regulation. If coverage expires during the term of this Contract, Grantee must produce renewal certificates for each type of coverage. In addition, if required by System Agency, Grantee must obtain and have on file a blanket fidelity bond that indemnifies System Agency against the loss or theft of any grant funds, including applicable matching funds. The fidelity bond must cover the entirety of the grant term and any subsequent renewals. The failure of Grantee to comply with these requirements may subject Grantee to remedial or corrective actions detailed in section 10.1, General Indemnity, above.

These and all other insurance requirements under the Grant apply to both Grantee and its Subcontractors, if any. Grantee is responsible for ensuring its Subcontractors' compliance with all requirements.

Grantee may not subcontract any or all of the Work and/or obligations under the Grant Agreement without prior written approval of the System Agency. Should Grantee subcontract any of the services required in the Grant Agreement, Grantee expressly understands and acknowledges System Agency is in no manner liable to any subcontractor(s) of Grantee. In no event shall this provision relieve Grantee of the responsibility for ensuring that the services performed under all subcontracts are rendered in compliance with the Grant Agreement.

At Grantee's sole expense, Grantee shall procure and maintain for the duration of this Grant Agreement any state, county, city, or federal license, authorization, insurance, waiver, permit, qualification or certification required by statute, ordinance, law, or regulation to be held by Grantee to provide the goods or services required by this Grant Agreement. Neither Grantee nor System Agency is an agent of the other and neither may make any commitments on the other party's behalf. The Grantee is not a "governmental body" solely by virtue of this Grant Agreement or receipt of grant funds under this Grant Agreement. Grantee shall have no claim against System Agency for vacation pay, sick leave, retirement benefits, social security, worker's compensation, health or disability benefits, unemployment insurance benefits, or employee benefits of any kind. The Grant Agreement shall not create any joint venture, partnership, agency, or employment relationship between Grantee and System Agency.

The Grant Agreement shall be governed by and construed in accordance with the laws of the State of Texas, without regard to the conflicts of law provisions. The venue of any suit

11.12 SEVERABILITY

If any provision contained in this Grant Agreement is held to be unenforceable by a court of law or equity, such construction will not affect the legality, validity, or enforceability of any other provision or provisions of this Grant Agreement. It is the intent and agreement of the Parties this Grant Agreement shall be deemed amended by modifying such provision to the extent necessary to render it valid, legal and enforceable while preserving its intent or, if such modification is not possible, by substituting another provision that is valid, legal and enforceable and that achieves the same objective. 11.13 SURVIVABILITY

Expiration or termination of the Grant Agreement for any reason does not release Grantee from any liability or obligation set forth in the Grant Agreement that is expressly stated to survive any such expiration or termination, that by its nature would be intended to be applicable following any such expiration or termination, or that is necessary to fulfill the essential purpose of the Grant Agreement, including without limitation the provisions regarding return of grant funds, audit requirements, records retention, public information, warranty, indemnification, confidentiality, and rights and remedies upon termination.

Force majeure is defined as acts of God, war, fires, explosions, hurricanes, floods, failure of transportation, or other causes that are beyond the reasonable control of either party and that by exercise of due foresight such party could not reasonably have been expected to avoid, and which, by the exercise of all reasonable due diligence, such party is unable to overcome.

11.15 NO IMPLIED WAIVER OF PROVISIONS

11.16 FUNDING DISCLAIMERS AND LABELING

A. Grantee shall not use System Agency's name or refer to System Agency directly or indirectly in any media appearance, public service announcement, or disclosure relating to this Grant Agreement including any promotional material without first obtaining written consent from System Agency. Any publication (written, visual, or sound) will acknowledge the support received from the System Agency and any Federal agency, as appropriate.

11.18 PROHIBITION ON NON-COMPETE RESTRICTIONS

Grantee shall not require any employees or Subcontractors to agree to any conditions, such as non-compete clauses or other contractual arrangements, that would limit or restrict such persons or entities from employment or contracting with the State of Texas.

11.19 SOVEREIGN IMMUNITY

Nothing in the Grant Agreement will be construed as a waiver of the System Agency's or the State's sovereign immunity. This Grant Agreement shall not constitute or be construed as a waiver of any of the privileges, rights, defenses, remedies, or immunities available to the System Agency or the State of Texas. The failure to enforce, or any delay in the enforcement, of any privileges, rights, defenses, remedies, or immunities available to the System Agency or the State of Texas under the Grant Agreement or under applicable law shall not constitute a waiver of such privileges, rights, defenses, remedies, or immunities or be considered as a basis for estoppel. System Agency does not waive any privileges, rights, defenses, or immunities available to System Agency by entering into the Grant Agreement or by its conduct prior to or subsequent to entering into the Grant Agreement.

11.20 ENTIRE CONTRACT AND MODIFICATION

The Grant Agreement constitutes the entire agreement of the Parties and is intended as a complete and exclusive statement of the promises, representations, negotiations, discussions, and other agreements that may have been made in connection with the subject matter hereof. To protect your privacy and to protect against loss of personal information, avoid storing personal information on HHS information resources, particularly large files.

4.2.5. Receive Access

You will only receive access to the HHS information resources (electronic and print) that you need to perform your essential job functions, and you will be granted the least amount of access sufficient to perform those functions.

Confidential or Sensitive Information

If your essential job functions require access to information that is confidential or agency sensitive, you may be required to complete other documentation or training, in addition to reading and signing the Acceptable Use Agreement.

4.2.6. Set Up Your User Credentials

After you receive access to HHS information resources, you must set up your credentials by creating a strong password and user name, if needed.

You must use your own assigned credentials to access HHS information resources.

Never write down or store your password. If needed, use one of the approved password managers listed in the Software Catalog. Never use a Remember Password or auto logon feature, except on approved IT-managed systems.

Never reveal your password to anyone, including administrative assistants, management, or the Help Desk.

Actions initiated under your credentials are considered to be authorized and electronically signed by you.

If you suspect that your account or password is compromised, you must:

- Immediately change your password and then report it to the Help Desk.
- Follow the Help Desk's instructions to secure your account.

4.3 Accessing HHS Resources

When outside of the US or its territories, you must not access any HHS information resources owned by HHS or an HHS third-party vendor from any device using any type of network connection (wireless or physical). Such access is high risk.

4.3.1. Use Software Appropriately

You must use only HHS-approved and properly licensed software to access HHS information resources. Follow all requirements in the Software Policy and the Prohibited Technologies Security Policy.

Approved software, including mobile applications, are listed in the Software Catalog. Prohibited software is also listed, to help you know not to use it.

You must not disable or bypass malware protection software, unless you are doing so as part of your assigned job functions, and with the approval of both your manager and the HHS Chief Information Security Office.

Always follow applicable copyright laws when using HHS information resources.

4.3.2. Use the Network Appropriately

Do not modify hardware or settings to extend network capabilities. For example, you are prohibited from using or installing a device such as a wireless router on the HHS network. If you have a business need for such a device, your supervisor must submit a Help Desk ticket to get appropriate approval. This is not the same as using a home or non-HHS wireless network to connect to the HHS network with approved VPN software, which is permitted per section 4.3.4.

As explained in the Prohibited Technologies Security Policy, unless you have an approved exception per the policy:

- Do not connect to an HHS network using a device that has prohibited technology on it.
- Do not attempt to download or install a prohibited technology on a device while it's connected to an HHS network.

Confidential or Sensitive Information

To ensure that agency sensitive or confidential information, including electronic protected health information, is protected:

- Follow the guidelines in the Data Classification Standard.
- Refer to the HHS Approved Hardware List on the Requesting Hardware and Software page.

Never use chat or text messages to send confidential information.

Never circumvent security policies for internet browsing (for example, by using personal or publicly available proxy servers or devices).

4.3.3. Follow Communication Requirements

You must follow all applicable requirements for communication in Chapter 1, Section D, Standards of Conduct, in the HHS Human Resources Policy Manual.

Social Media

You must follow the guidance in Circular-042: HHS Social Media Policy and Chapter 1, Section D.14 of the HHS Human Resources Policy Manual to determine when you can use social media.

Unless you have an approved exception, you must not use social media if it is prohibited by the Prohibited Technologies Security Policy. For information on exceptions, see the policy.

Email

Do not open email attachments or links from unknown senders. Emails from senders external to HHS are identified by a banner.

Do not send unsolicited messages to large groups, except as required to conduct HHS business.

Confidential or Sensitive Information

To send confidential information by email, you must follow the requirements in 4.3.9 and in the Data Classification Standard.

Do not use your HHS email account to send confidential or agency sensitive information to your personal email account (such as a personal Gmail or Outlook account), unless it's your information (such as your tax documents or documents related to your compensation, severance, or retirement plans and benefits).

Do not use your personal email account to:

- Send HHS information that is confidential or agency sensitive.
- Receive HHS information that is confidential or agency sensitive (including from your HHS email account).
- Conduct HHS business.

Instant Messaging and Collaboration in Microsoft Teams

Use Microsoft Teams for instant messaging. Teams is HHS's standard instant messaging software.

As an authorized user, you may give another user control of a Teams meeting, but you are responsible for that user's actions, as explained in the Microsoft Teams Policy.

When using Teams, you must follow all requirements in the Microsoft Teams Policy.

4.3.4. Request Remote and VPN Access

To request VPN remote access to the HHS network, you must get your supervisor's approval, per the HHS Remote Access page.

If you are authorized to telework or to access HHS information resources from equipment not owned by HHS using remote access technology (for example, the Outlook Web access link), you must follow security practices that are equivalent to those required at your primary workplace, per the guidance on the HHS Pay, Benefits and Telework page and in 4.3.5 of this policy.

If you use HHS VPN, you must obtain your own internet service provider.

VPN automatically disconnects after a time predetermined by HHS. Maintaining an inactive connection to any technology (using Ping, StayConnect, and so on) is prohibited and may result in termination of your VPN account.

Only authorized workforce members can use remote desktop assistance to remotely access and control someone else's computer as part of their essential job functions.

4.3.5. Use Laptops, Desktops, Mobile Devices, and Printers

Unless you have an approved exception, you must follow the requirements in the Prohibited Technologies Security Policy, as they pertain to your devices:

- Do not use prohibited technology on an HHS owned or issued device.
- Do not use a personally owned device with prohibited technology on it to access HHS information resources.
- Do not use a personally owned device to record, capture, or share agency sensitive or confidential information.

For additional information, including which technologies are prohibited and how to request exceptions, see the policy.

Follow any other requirements that apply to your device, as explained below.

If you choose to use a personal device for state business, you are responsible for any associated costs.

Mobile Devices

Follow the requirements in the Using a Mobile Device to Access HHS Data Policy to appropriately use an HHS-issued or personal mobile device.

For personal mobile devices, ensure that you follow the requirements explained on the Personal Wireless Device page and comply with all HHS security policies, standards, and controls.

For information on how to request an HHS mobile device, see the State-Issued Wireless Telecommunication Equipment or Service Policy and Procedure.

Laptop and Desktop Computers

Follow the requirements in the Computing Devices and Accessories Policy to request an HHS laptop or desktop computer.

If you use a laptop or desktop computer not owned by HHS to access HHS information resources, you must use approved software to make the remote connection (such as agency-approved VPN software) or use Microsoft 365 services.

Printers

Use only HHS-owned and issued printers to print work-related documents. This includes printing from an approved telework location, such as your home.

4.3.6. Protect HHS Information

HHS information resources must be protected according to the requirements in the Data Classification Standard.

If you are aware of or suspect a security incident, a security weakness, misuse of HHS information resources, or a violation of any policy related to the security and protection of HHS information resources, you must:

- Immediately report the incident to the Help Desk.

- Follow their instructions to identify and remediate the incident.

4.3.7. Dispose of HHS-Owned Media Appropriately

You must properly dispose of (purge and destroy) digital media.

Digital media includes software, digital images and video, web pages and websites, digital data and databases, electronic documents, and digital audio such as MP3.

When using digital media, you must follow the media sanitization procedures in Information Security Controls, Media Protection (MP-01), and in the Data Classification Standard.

If you need help disposing of the media, contact the Help Desk.

Before disposing of digital media, releasing it from HHS control, or releasing it for reuse, you must sanitize it using the techniques required by the resources listed in 5.1 Federal and State Requirements.

You must dispose of physical media, such as CDs and DVDs, according to the requirements in the Data Classification Standard.

4.3.8. Maintain Physical Security and Control

Before using, disclosing, transmitting, maintaining, or creating HHS information resources (including confidential and agency sensitive information), you must obtain proper authorization and approval from your supervisor.

When removing HHS information resources (including confidential and agency sensitive information) from HHS property, you must follow the same information security policies, standards, controls, and guidelines to protect the resource, as required when using the resource at an HHS location.

To protect HHS information resources from damage, loss, or theft, you must keep them secured and under your physical control at all times and follow the safeguards explained in this policy.

Loss or Theft

If your device is lost or stolen and HHS issued it to you, or you used it to access HHS information resources, you must follow the Reporting a Lost or Stolen Device Process to file a report with the Help Desk.

4.3.9. Protect HHS Confidential Information

You must follow the Data Classification Standard when handling, processing, or managing HHS information in electronic or print format.

Encryption

Confidential and agency sensitive information must be encrypted using an HHS-approved encryption technology, per the Data Classification Standard.

Password Protection

All HHS portable or removable media (such as tablets and flash drives) containing confidential information must be password protected and encrypted with an approved FIPS 140-2 cryptographic module.

Unauthorized Viewing

When using a computer to view sensitive or confidential information, you must position it to prevent unauthorized viewing or access.

Key Cards

Immediately upon becoming aware that a keycard is lost or stolen, report it to the appropriate facility manager.

Do not:

- Leave keys used to access confidential or sensitive information unattended.
- Distribute, copy, loan, or share a keycard or other access mechanism, unless doing so is part of your specific job functions.

When you no longer need a keycard or other access mechanism, you must return it to the office or area that issued it.

IRS Federal Tax Information

If you suspect any of the following, file an incident report immediately (before 24 hours has elapsed) with the HHS IRS coordinator:

- An unauthorized person has accessed federal tax information (FTI).
- An authorized person has disclosed FTI to an unauthorized person or accessed FTI without a need to know (that is, without a business reason).

- An authorized person has printed FTI, or downloaded, copied, or saved FTI to another location. These actions make FTI more susceptible to unauthorized access.

If the reported action is an incident, the IRS coordinator notifies HHS Privacy. Privacy investigates by taking the steps explained in Circular-057: Protecting Confidential Information and Responding to Privacy Breaches and the Privacy Incident Response Plan, notifies the appropriate contacts, and responds to the incident according to the requirements in IRS Publication 1075.

In some cases, an incident may be both a privacy and an information security incident. In such cases, the Information Security Incident Response Policy, Information Security Incident Response Process, and Information Security Incident Response Plan also apply.

Loss or Theft

As a proactive measure, you must be prepared, at a minimum, to describe the agency sensitive or confidential information on a device that you are in possession of, in case the device is lost or stolen.

If the device is lost or stolen, you must follow the Reporting a Lost or Stolen Device Process to file a report with the Help Desk. When making your report, describe the agency sensitive or confidential information on the device.

Also report the loss or theft of agency sensitive or confidential information to:

- Your supervisor or manager.
- The chief information security officer, and other agency or HHS offices as applicable, as explained in the Information Security Incident Response Policy.
- The HHS Privacy Division's Incident Response team, per the instructions on the HHS Privacy Division's page and in Circular-057: Protecting Confidential Information and Responding to Privacy Breaches.
