Police Department  
Property Room  
Follow-Up Report

George Holland  
City Auditor  
April 1, 2026

## Executive Summary

As part of our annual audit plan, the City Auditor's Office (CAO) followed up on the April 17, 2025, AU17-003 Police Department – Property Room Audit. The original audit evaluated whether sufficient controls were in place over the evidence and property room function.

The original audit had no findings and six observations with recommendations. Management accepted five of the six recommendations, implemented two of the six from the original audit, and agreed to implement the necessary process changes for the remaining three.

Management indicated that one of the three outstanding recommendations has been implemented, one is in progress, and one has not been implemented. Auditors then reviewed the submitted information and confirmed that one has been implemented, one remains in progress, and one has not been implemented. A complete list of recommendations and current statuses is available on page 4.

We conducted this follow-up review in accordance with the Global Internal Audit Standards. These standards require us to confirm that management has implemented our recommendations or its action plans. We inquired about implementation progress, performed follow-up assessments using a risk-based approach, and updated our tracker and Five-Year Follow-Up Dashboard to reflect issues and report on them at every Audit Committee Meeting.

<sup>1</sup> Recommendation was not agreed upon during the audit. Cities and counties in Texas often opt to sell or trade weapons instead of destroying them. Tarrant County, for example, sold 21 forfeited guns, which generated \$46,000.

<sup>2</sup> Recommendation was implemented during the audit.

## Appendix A: Additional Follow-Up Information

### Recommendation 1: Outdated Night Lockers

In the original report, the CAO advised that the department purchase new night lockers as a one-time expense to improve the department's efficiency and increase storage space for incoming items.

The department received a quote and floor plans for the new lockers. The lockers are scheduled for installation in late June or early July 2026.

***Management's Assertion: In Progress***

***Audit Status: In Progress***

### Recommendation 3: Routine Inspections

In the original report, the CAO recommended that the Facilities Maintenance Department perform routine inspections of the plumbing and piping running over the Property Room. The recommendation was made to reduce the risk of property and evidence damage.

The department reached out to Facilities Maintenance to arrange routine inspections. However, Facilities Maintenance told the department they do not carry out routine inspections. They only handle issues that come up after a Work Order is submitted.

***Management's Assertion: Not Implemented***

***Audit Status: Not Implemented***
