

2018 TxDOT Highway Safety Improvement Program (HSIP) Project

Council Presentation
August 20, 2019

Highway Safety Improvement Project (HSIP) Locations

Project Scope

The City received a TxDOT HSIP grant for four (4) intersections with a total estimated construction cost of \$797,258. The scope is summarized below:

- TxDOT participation is \$717,532 with City match of approximately \$279,726
 - ✓ City share includes \$79,258 (10% constr.) & \$200,000 (admin costs)
- Provides for the engineering and design services to prepare the plans, specifications, estimates, and related documents for the four approved intersections listed below:
 - ✓ Horne Road – Seven traffic signal equipment upgrades with one new pole, mast arm, signal head, and equipment at the Port Avenue intersection and the Ayers Street intersection
 - ✓ Tarlton Street – Four new and upgraded traffic signal poles at the Port Avenue intersection
 - ✓ Staples Street – Four traffic signal equipment upgrades at the Holly Road intersection
- All construction is executed and managed by TxDOT
