21. 21-0495 Consideration of an appeal filed by Ms. Raquel Ordonez of the Building Standards Board's Decision to require demolition of the substandard structure on property located at 309 Hiawatha Street in City Council District 1.

Mayor Guajardo referred to Item 21.

City Attorney Miles Risley stated that today's appeal was filed by Raquel Ordonez regarding the Building Standard's Board decision is to require demolition of the property located at 309 Hiawatha Street.

Ms. Raquel Ordonez, the appellant, stated that: this property belongs to her grandmother; she was unaware that the property in question was going to be demolished; she paid the lien on the house; she started cleaning the property when she arrived in Corpus Christi on April 22, 2021; and she spoke to the tax department and they are willing to make payment arrangements with her.

Council Members and Ms. Ordonez discussed the following topics: Ms. Ordonez's wish is to restore this home for ministry purposes; she received notice of this situation on February 11, 2021; Ms. Ordonez plans to pay \$5,000 towards the taxes of the property if the approval of the demolition is cancelled; a family member will be living in the house; Ms. Ordonez's claim that she is financially capable to repair this property and needs at least six months to do so; Ms. Ordonez's pledge to get the roof fixed and windows repaired in the next six months; Ms. Ordonez has not considered tearing down the house, rather she wants to remodel it; Ms. Ordonez is not aware of any structural damage to the property; no one has lived in the house for at least nine years; and Ms. Ordonez is meeting with an attorney to establish ownership of the property.

City Attorney Miles Risley presented the following information: Code Enforcement notified more than 50 people by mail and a notice was posted on the front door several times; Ms. Ordonez does not appear in the title records; Building Standards Board does not prohibit an owner from demolishing a building; if the owner does not demolish the property within 30 days, then the order authorizes the City to demolish it; and it could take months before the demolition is even completed.

Council Members, City Attorney Risley, Code Compliance Officer Diana Garza, Code Enforcement Program Manager Liza Lopez and Ms. Ordonez discussed the following topics: the Building Standards Board decides if a building needs to be demolished; the immediate requirement is to secure the building; notices can only be sent to people who are listed on the property and utility bills; the best way to establish legal ownership is to let the property get foreclosed; a Council Member's concern why the City accepted Ms. Ordonez's money to pay fines and fees when the title is not in her name; legal heirs get the property when there is not a will; the City sent out three letters that did not get returned; the letters were sent out by certified mail and first class mail; there is an active lawsuit by Linebarger for taxes; Ms. Ordonez is risking putting money into the property and may not be able to secure the ownership; Ms. Ordonez is requesting a six month delay to demolish the property and understands her risks; she needs a list of repairs that are required to get it up to code; a Council Member's concern of protecting the surrounding neighborhood; it will take a structural engineer about six months to assess the property; there is no liability on the City since it is not municipal property; and the Texas Local Government Code says you cannot give someone more than 90 days to repair the building.

Code Enforcement Program Manager Lopez and Code Compliance Officer Garza presented information on the following topics: they have received many complaints in the community regarding this property; Code Compliance Officer Garza went out to the property and made her assessment; the sign is placed on the structure that no one is allowed to enter the property due to what the Building Standards Board ordered; the notices that were mailed out stated what was wrong with the property; and all of the notices of violation were returned.

Council Members, City Attorney Risley, Code Enforcement Program Manager Lopez and Code Compliance Officer Garza discussed the following topics: if Council takes action for demolition it does not affect property ownership; the first complaint was filed on August 20, 2020; the utilities have been turned off since 2013.

Council Member Pusley made a motion to approve the resolution to deny the appeal, seconded by Council Member Barrera.

Council Members, City Attorney Risley, Code Enforcement Program Manager Lopez and Code Compliance Officer Garza discussed the following topics: it could cost the City up to \$4,500 or \$5,000 to demolish this property; if an empty lot is sold, it would not be enough to cover the tax lien and demolition; the demolition will be covered by the CDBG funds; and it will take about three to four months to demolish this property.

The motion to approve the resolution failed.

Council Member Hernandez made a motion to table for 30 days to allow Ms. Ordonez to develop a plan to bring the property into compliance with code enforcement, seconded by Council Member Lerma. This Motion was passed and approved with the following vote:

Topic	Item # 14 (21-0225) Regarding feeding animals
Agenda Item Number	14
Describe Feedback:	I am extremely hopeful that at least some of these proposed changes are implemented. I currently reside directly across from the location where people have been feeding raccoons for years now. I cannot tell you how negatively this has impacted me and my family. From constant trash blowing into our yard from discarded feeding items to all

manner of additional nuisance animals (possums/rats/coyotes) being drawn to the food. We have had multiple occasions of people driving by and shooting at the animals (I have provided a video to CCPD and Animal Control). People are honking just outside our door all hours of the night and early a.m. We are miserable in our own home and have complained for years. I have pictures and video that I can provide of a large number of dangerous situations that occur here on a nightly basis. Unaddressed, a tragedy is inevitable. Please do not allow this continue. Pass at least the wildlife feeding portion of this item. Thank you.

Provide an email to receive a copy of your submission.

Case:1020 - 02

I am not sure where to begin with this letter. You already know that I am opposed to this project even though I get notices a month after a meeting takes place. I am not opposed to development.

I am not opposed to the developer of this land. I am sure he is a very nice man who had an idea. What I am opposed to is him coming in and filling in wet lands without permission. I also am opposed to him starting a project without permission. He did bring in gravel, big machinery etc. without getting authorization that are necessary. Rules should be the same for everyone. We have abided by those rules.

You have no proof that an RV Park will not impact the value of my land. We have lived on Mustang Island for over 40 years. Long before there was much development on the Corpus Christi portion of Mustang Island. It has a special place in our hearts. RVs are a great way to travel, but again you can have too many on a small island that only has one exit in case of a hurricane. Can you imagine the congestion of everyone getting off the island over the causeway if you add that many more RVs to the congestion? Have you thought to ask those in charge of evacuation their thoughts?

Please consider not allowing this particular project to go through.

Sherry Badalich

Topic Zoning Case 1020-02

Agenda Number 20-1344

Describe Feedback: I strongly oppose RV Parks.

Trailer parks provide less Revenue for city and county, and attract a negative element. A Developers Pro Forma will rapidly deteriorate into a slum-like environment. When the Trailer Park shows decreasing Revenue, the prices drop, and to get Revenue the Trailer Park accepts anyone to offset expenses - a downward "spiral" into bankruptcy. No one will want to buy a Lot and build an expensive home overlooking a slum-area Trailer Park.

City Council can become "heroes" in the CC area by commissioning a Study on the "best and highest use" of the entire area - from the perspective of Tax Revenue, and not of limited knowledge of what is best for the City of CC and Mustang Island. The Study should include what other beachfront properties, like Okaloosa Island in Florida, have done to create a beneficial Tax Revenue base. The Study protects Council from being arbitrary and indecisive.

Please don't miss this opportunity to do what's right for the City of CC.
