Re: Time Extension Request

Rancho Vista Subdivision Unit 29 (final plat)
Braselton Development Company, Ltd.
Project No. 0000011380/39319.C2.02

Mr. Orozco:

The final plat of Rancho Vista Subdivision Unit 29 is coming up for expiration on October 19, 2024. At this time, we, Urban Engineering, on behalf of Braselton Development Company, Ltd. would like to request a time extension of twelve (12) months for the above-referenced project. The demand for the product this subdivision was intended for has slowed down due to current market conditions. The developer would like to minimize the amount of current inventory before moving forward with this Unit. We have included a check in the amount of \$379.34 (No. 0960) for this request. Please feel free to call if you have any questions or comments.

Regards,

Urban Engineering
