

Texas Department of Transportation Routine Airport Maintenance Program (RAMP)

Ordinance Authorizing Acceptance of Award

Corpus Christi International Airport
Director - Richard McCurley

March 17, 2026

Background Information

Airport staff regularly schedule routine maintenance for the landside and airside facilities. The scope of maintenance can range from small projects and repairs to larger rehabilitation or equipment maintenance projects.

Eligible projects under the RAMP Grant may include (*but not limited to*) pavement work, drainage maintenance, hangar or terminal building repairs, airfield paint and a variety of airport signage.

The City of Corpus Christi has been awarded \$100,000.00

Background Information

This grant will provide funding for:

Various maintenance and repairs at the Corpus Christi International Airport (CCIA) with a required cash match of \$11,111.11 funded from the current year Airport Operating Budget.
