She began the presentation by explaining the current allowable uses (Arena/Seawall) of Type A funds and the proposition to expand uses. It is proposed to allocate 1/4 cent for the Convention Center Complex including the Seawall, regional parks, Commercial/Industrial streets (arterial/collector streets) and the Airport (new flight destination options). If approved, collections can be used for the specific items approved by voters without expiration or until a change is approved by voters. Annually, parks, streets and the Convention Center Complex will receive a minimum of 5% of the collections. The Airport will be allocated an annual amount not to exceed 5%.

Ms. Hurlbert listed the projects funded by the Type A Seawall funding such as the Water Garden Restoration, Science Museum Floodwall and McGee Beach Nourishment. She informed PRAC that City Council approved a Resolution defining Regional Parks to include Bill Witt, Cole, Commodore, Labonte, Parker, Salinas and West Guth. Each of the five Council districts have a minimum of one regional park and are within a five mile radius of each other.

Ms. Hurlbert concluded the presentation by going over the next steps and the election process. The election will be on November 7, 2023 to approve the repurpose of 1/4 cent after the existing debt is paid in full. She also supplied the sample ballot language for the proposition. After her presentation, the floor was opened for questions/comments. No action was taken on this item.
