Purchase of Pump, Motor, Rentals and Services for Corpus Christi Water

CAPTION:

Resolution authorizing a one-year service agreement, with two one- year options, with Xylem Dewatering Solutions, Inc., of Bridgeport, New Jersey, with an office in Corpus Christi, in an amount not to exceed \$298,250.00, with a potential up to \$894,750.00 if options are exercised, for the purchase of Godwin pumps, motors, rentals, and repair services for Corpus Christi Water, with FY 2025 funding of \$74,562.50 from the Water and Wastewater Funds.

SUMMARY:

This resolution authorizes a service agreement for the purchase of Godwin pumps, motors, and services for Corpus Christi Water. This agreement is necessary to ensure a supply of pumps, motors, and services at wastewater lift stations and treatment plants.

BACKGROUND AND FINDINGS:

Godwin, a Xylem brand, has been the standard pumping equipment at wastewater lift stations, wastewater collection systems, and wastewater treatment plants in operation throughout the city for many years. Additionally, Corpus Christi Water maintains a small inventory of Godwin pumps to be utilized in the event of water main breaks. This service contract is to provide new equipment, rentals, and repair services for bypass pumping system on an as-needed basis, which is critical for Corpus Christi Water to deal with emergency conditions and to stay in compliance with Texas Commission on Environmental Quality (TCEQ) regulations. Godwin pumps and motor units have unique design characteristics that require exact specifications for optimum use. Xylem Dewatering Solutions, Inc. is the sole distributor for new Godwin pumps, Godwin rental pumps, spare parts, and associated wiring used to interface with Godwin equipment. Xylem Dewatering Solutions, Inc. is also the only Godwin authorized warranty service

center in South Texas. Godwin pumps are warrantied and serviced at their shop in Corpus Christi.

PROCUREMENT DETAIL:

This procurement is a sole source procurement with Xylem Dewatering Solutions, Inc. under the Local Government Code, Section 252.022(a)(2), (a)(7)(A), and (a)(7)(D) as this procurement (i) is necessary to preserve or protect the public health or safety of the city's residents, (ii) is available from only one source due to patents, copyrights, secret processes, or natural monopolies, and (iii) consists of captive replacement parts or components for equipment.

ALTERNATIVES:

The alternative is to not enter into a service agreement, requiring separate procurements on an as-needed basis. As a result, longer lead times for needed services could impact performance levels required by TCEQ regulations.

FISCAL IMPACT:

The fiscal impact from Corpus Christi Water for FY 25 is \$24,854.16 from the Water fund and \$49,708.34 from the Wastewater fund.

Funding Detail:

| | | |
|------------------------|-------------|-------------------------------|
| Fund: | 4010 | Water |
| Organization/Activity: | 31520 | Treated Water Delivery System |
