

Service Agreement with Alice Lawn Care for Fence Replacement at Garcia Softball Complex

City Council Meeting
July 15, 2025

Garcia Softball Complex

- This motion authorizes a Service Agreement to replace perimeter fencing around four softball fields at the Garcia Softball Complex (Council District 3).
- The Project cost is \$129,474.50 with FY 2025 funding available through Community Development Block Grant Funds.
- Construction is scheduled to be completed by July 2026.

Location Map

Background

- Fencing repairs at the Softball Complex were last executed by the Parks & Recreation Department in 2010.
- The fences have significantly deteriorated over time & are now in disrepair due to consistent exposure to high-speed winds common to our region.
- The softball fields at Garcia Park are heavily utilized by youth leagues.
- These fields serve as a vital hub for sports & community activities for the west side area of the City.
- This project aims to support continued community use, increase functionality & ensure a well-maintained space for future recreational programming.
- Fence replacement will improve safety for players/spectators & will enhance the overall appearance of the park.
- Continued neglect may negatively impact organized league participation, increase long-term repair costs & reduce the park's overall value.

Recommendation

- Staff recommend approval of the Motion for a Service Agreement with Alice Lawn Care for Fence Replacement at Garcia Softball Complex.
