| Topic | City Budget re: Libraries as Cooling Centers |
| Agenda Item Number | NA |
| Describe Feedback: | The practice is that when a heat advisory is issued the public libraries will be used as cooling centers. We have already been experiencing heat advisories and also warnings from ERCOT to reduce electricity use. Last summer there were heat advisories in effect for over a hundred days. The temperatures are expected to be harsher this year. Please be planning this reality into the budget for FY 2024-25. We cannot continue to only offer public libraries and community |

centers as cooling centers. We need a low or no barrier shelter for people as well. This would give the community more options on where to go. Many homes in the city are not properly cooled or due to the economy people cannot use or do not have air conditioning. We need to offer more alternatives than the libraries and community centers as cooling centers. Furthermore, the funds to operate as cooling centers should not come from the library budget, which is already underfunded. I am very grateful for La Retama generator -TY.
