BACKGROUND:

The proposed improvements both to US 181/SH 286 and Harbor Bridge will address structural deficiencies and navigational restrictions of the current bridge, and improve safety, connectivity, and level of service in the study area. The purpose of the project is to correct these established needs and to promote, enhance and spur economic development in the area. The presentation will show alternative routes being considered for this project.

LIST OF SUPPORTING DOCUMENTS:

*PowerPoint Presentation

*At the time of publishing the agenda, the presentation was not available. It will be uploaded to this presentation and sent to the City Council when it is received. Current estimation date of delivery is Friday, August 16, 2013.

Due to the large file size of the route maps, a CD with the proposed routes will be given to City Council.
