CCIA – FAA Grant No. 73

Background

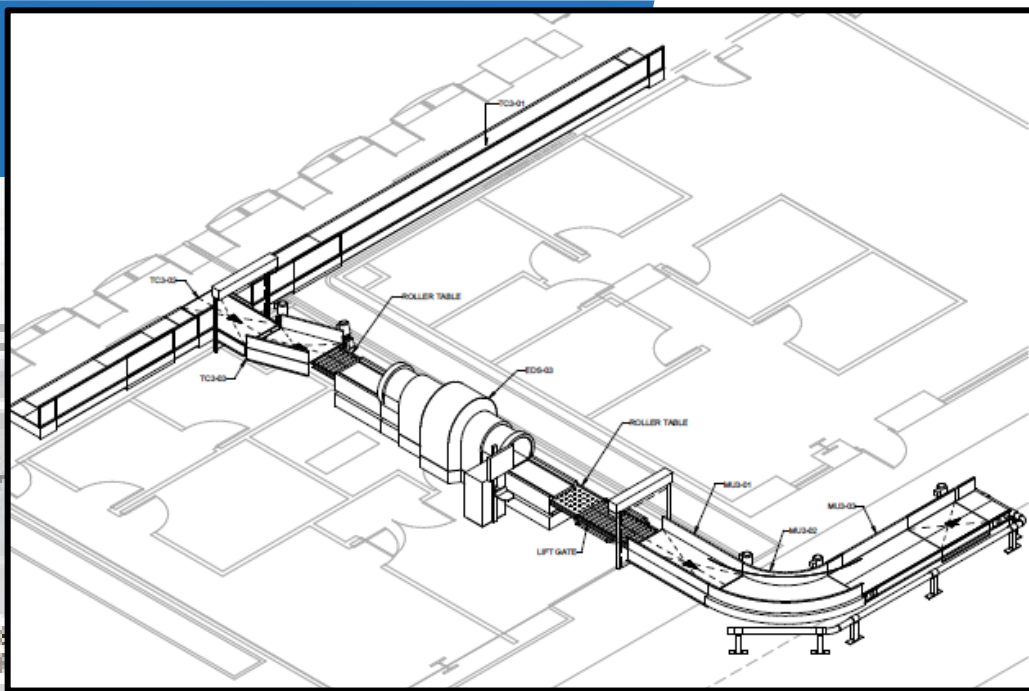

The Federal Aviation Administration (FAA) provides entitlement grants to airports under the Airport Improvement Program. Entitlement funding is based on the amount of commercial enplanements in a given year. CCIA is typically eligible to receive ~\$2.7M a year for airport improvement projects. Grant 73 is a combination of FY 26, 25, and partial FY 24 for a total amount of \$7,935,254. The Airport is required to provide 5% matching funds.

This funding will be used for the following three projects:

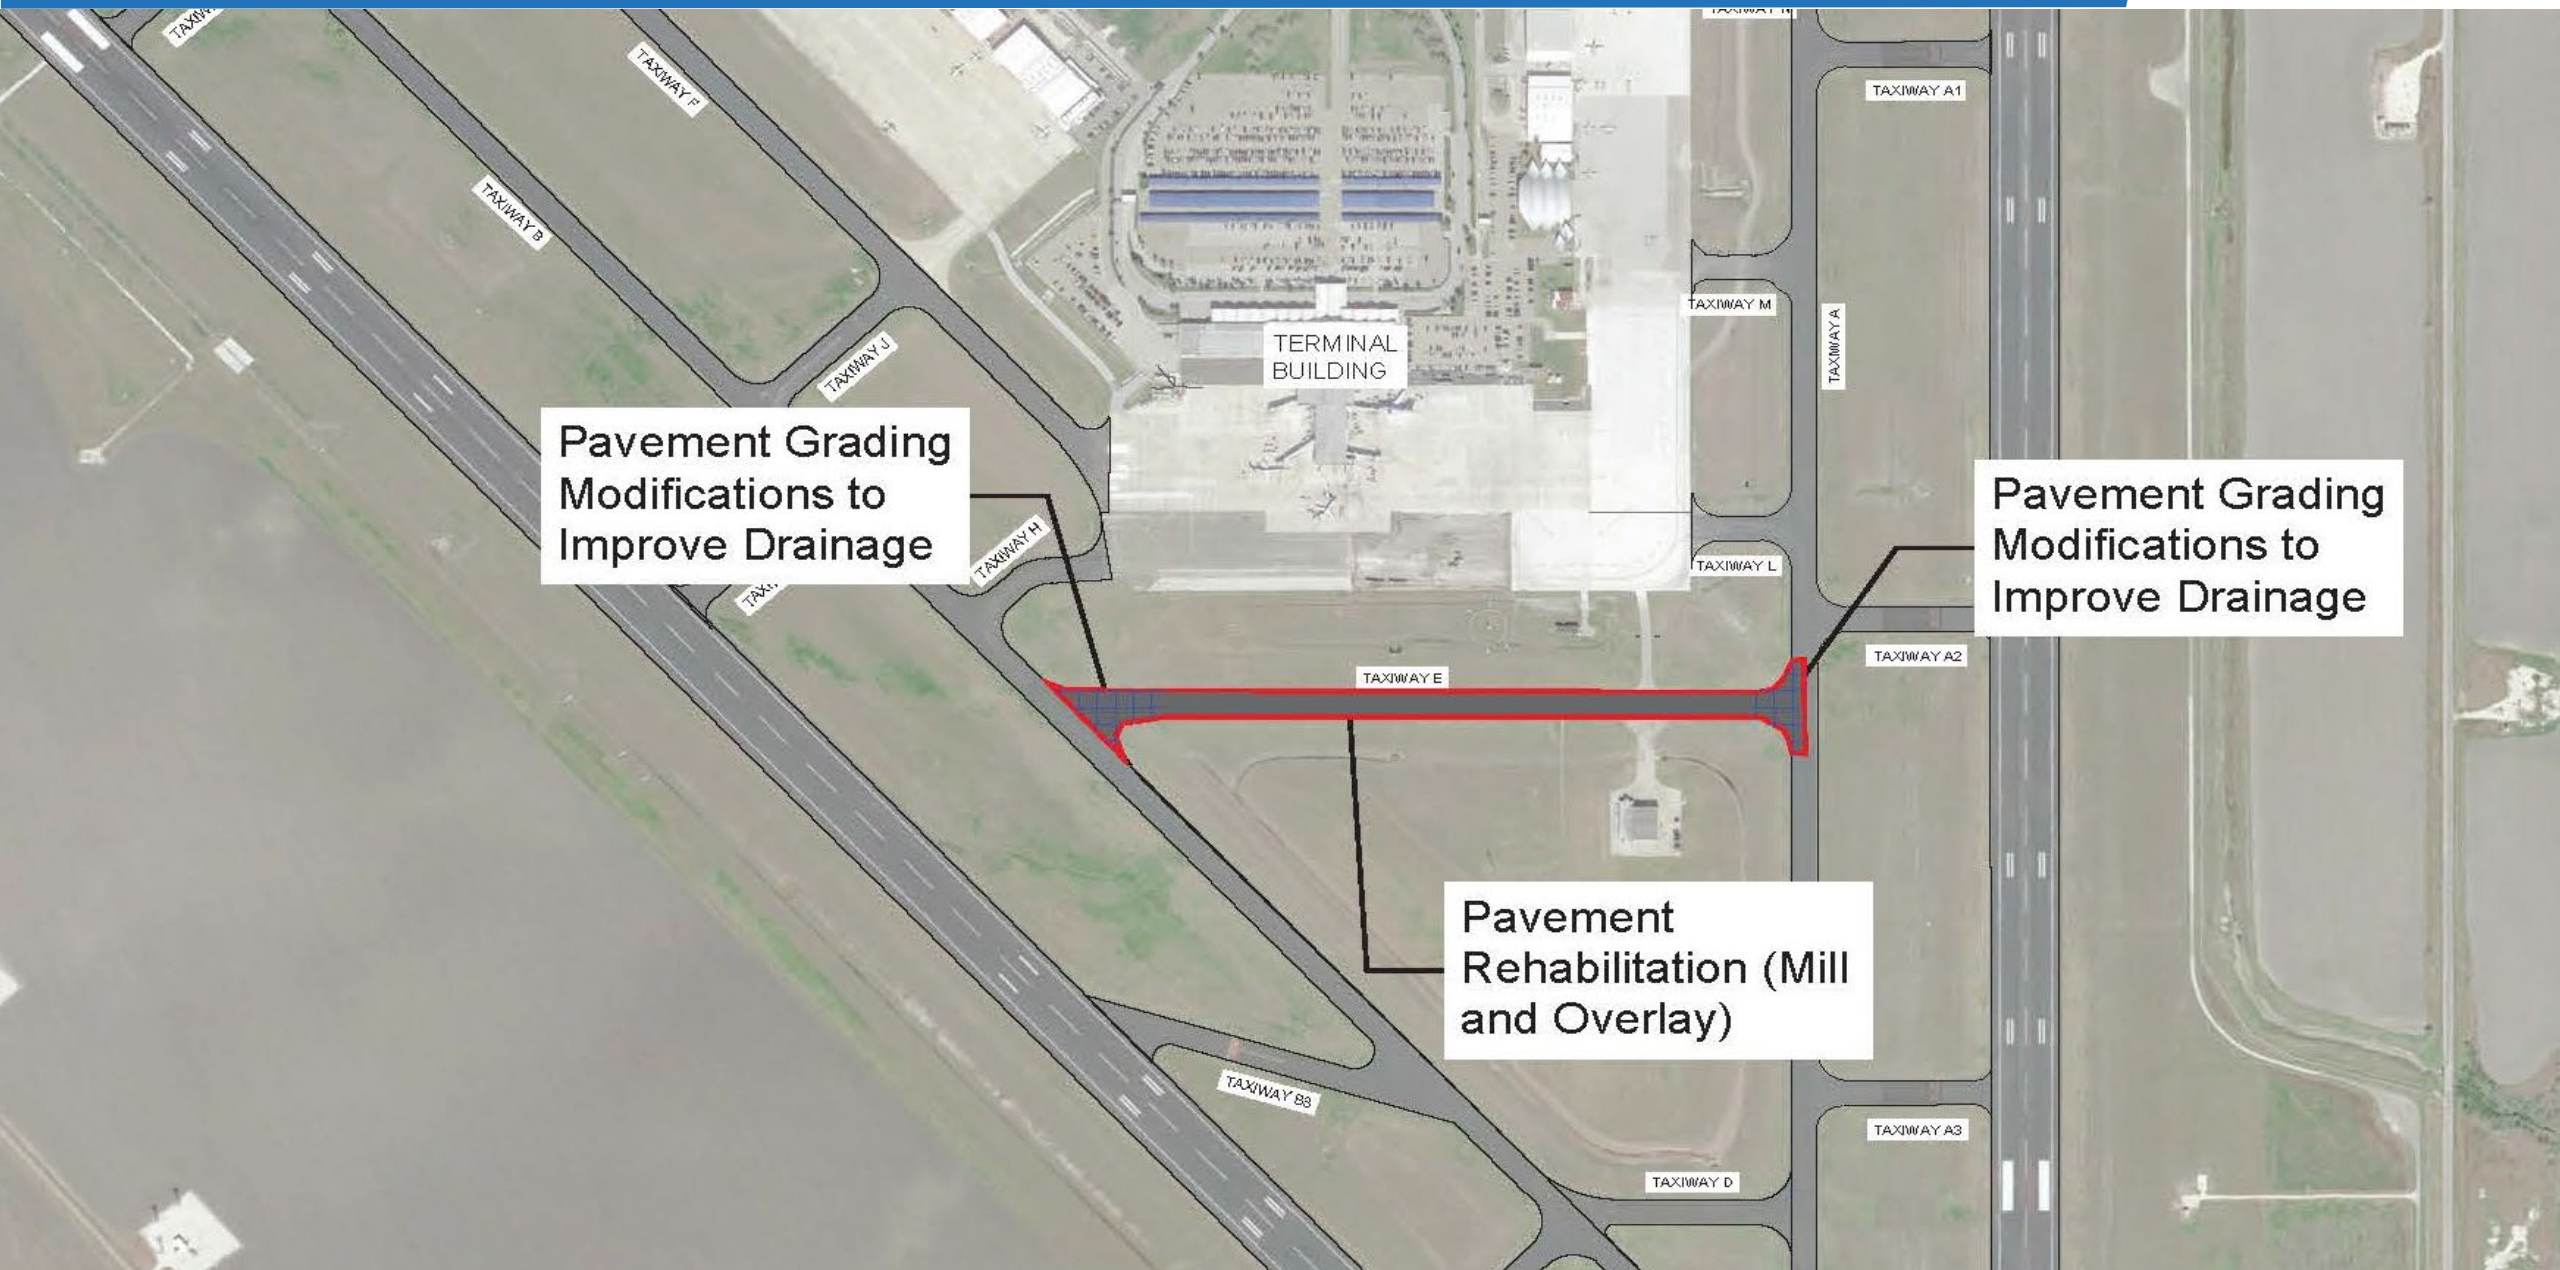

1. Terminal Rehabilitation Phase III, Baggage Handling System Upgrade
2. Taxiway E Rehabilitation
3. Taxiway K West Apron (Design)

Each construction project will be bid out and presented to City Council individually through the Engineering Department
