Notes:

1. Customer will be responsible for any difference in maintenance price with the exchange of I/Exec and I/Exec2 licenses (IPS0001 and IPS0007) to I/Exec HA (IPS0001HA) licenses.

2. Customer will be responsible for any difference in maintenance price with the exchange of I/Mobile (IPS0038) licenses to Mobile for Public Safety (IPS0080) licenses.

3. Intergraph requires remote access to the customer's servers to complete this effort as quoted.

4. Estimated first year software maintenance has been included in this quote. Actual maintenance price will be charged based on maintenance contract renewal date.

5. Intergraph sells SQL Server and BizTalk pursuant to an agreement with Microsoft Corporation. There is no allowance under Intergraph's Microsoft agreement for reinstating maintenance on the Microsoft licenses that has lapsed, either by paying back maintenance or by paying a discounted price to reinstate maintenance, due to customer's failure to renew maintenance prior to the expiration date of customer's maintenance agreement. Microsoft only allows Intergraph to provide maintenance (including upgrades of the Microsoft products) to end users as a renewal of coverage WITHOUT LAPSE IN COVERAGE. Therefore, customers who do not renew maintenance on the Microsoft products through Intergraph before expiration of the then current maintenance agreement shall be required to re-purchase the licenses for SQL Server and/or BizTalk at the then current list price of those products, plus one year of maintenance coverage from the date of re-purchase

6. Sales tax is not included in this quote. Final sales tax billed will reflect the applicable tax rates at time of sale as required by law.
