Reference Letter of Intent to Circulate a Petition, dated and Stamped Received on July 24, 2024

Dear Ms. Rebecca Huerta:

This letter is to inform your office of a single word correction to a typographical error related to the letter of intent to circulated petition filed with the City Secretary's Office on July 24, 2024. The petition called for an initiative requiring a City Council ordinance requiring the Corpus Christi - Nueces County Public Health District (CCNCPHD) and the medical community to community to fully inform the public of the potential harm caused by the mRNA, gene-therapy injections.

The first sentence of the second paragraph read:

"We the People of the United States of America and Citizens of Corpus Christi petition the Corpus Christi City Council to rectify the grave harm done to the citizenry by not ensuring adequate and through consent during the administration of experimental messenger RNA (mRNA) gene-therapy COVID-19 shots and boosters."

It should have read:

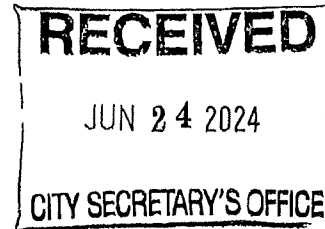

We the People of the United States of America and Citizens of Corpus Christi petition the Corpus Christi City Council to rectify the grave harm done to the citizenry by not ensuring adequate and thorough consent during the administration of experimental messenger RNA (mRNA) gene-therapy COVID-19 shots and boosters.

Sincerely,

Samuel Aundrá Fryer

City Secretary
City of Corpus Christi
1201 Leopard Street
Corpus Christi, Texas 78401

Dear Ms. Rebecca Huerta:

Pursuant to Article I, Section 4 of the Corpus Christi City Charter, this letter is to inform you that the undersigned hereby states the intent to circulate a petition calling for the initiative as indicated below, albeit excluding the associated whereas statements:

We the People of the United States of America and Citizens of Corpus Christi petition the Corpus Christi City Council to rectify the grave harm done to the citizenry by not ensuring adequate and thorough consent during the administration of experimental messenger RNA (mRNA) gene-therapy COVID-19 shots and boosters. The Corpus Christi - Nueces County Public Health District (CCNCPHD) and the medical community have failed to inform the public of a multitude of adverse effects—including death, myocarditis and pericarditis, autoimmune diseases, blood clots, reproductive disorders, miscarriages, and stroke—resulting from receipt of these injections. Additionally, the appropriation of health grant funds incentivizes the CCNCPHD to operate immunization programs targeting children and adolescents who are not at risk of harm from COVID-19 disease, but are at grave risk of harm from mRNA gene-therapy injections. In spite of the fact that over 98% of those infected by SARs-CoV2 virus and contract COVID-19 disease recover with or without adequate medical treatment, the Centers for Disease Control and Prevention (CDC) and the Food & Drug Administration (FDA) continue to promote these dangerous injections as being beneficial without unbiased, scientific and clinical proof.

BE IT RESOLVED: The constituency, Citizens of Corpus Christi, demand that our elected representatives of the Corpus Christi City Council adopt a city ordinance requiring the Corpus Christi - Nueces County Public Health District (CCNCPHD) and the medical community to fully inform the public of the potential harm caused by the mRNA, gene-therapy injections—including, but not limited to death, myocarditis and pericarditis, autoimmune diseases, blood clots, reproductive disorders, miscarriages, and stroke. This informed consent should be in writing with associated recipient signature.

Sincerely,

Samuel Aundrá Fryer
