

Citywide Wastewater Indefinite Delivery Indefinite Quantity (IDIQ)

Council Presentation
December 6, 2022

Project Location

Project Scope

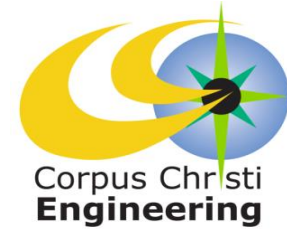

Proposed improvements is as follows:

- Project will include rehabilitation, replacement, and/or point repair gravity wastewater collection system lines, manholes/structures, service laterals, and force mains using open-cut trenching, pipe bursting, and/or cured-in-place pipe lining for lines up to 42-inches in diameter
- Project includes dewatering through well pointing, control of wastewater flow through bypass pumping, cleaning and televised controls, and site restoration to pre-existing or better conditions
- Project also includes emergency response Delivery Orders that require Contractor to always have management personnel and crews available and on-call during the Contract to provide emergency response on-call services
