Jim,

Here are the grant apportionments for Corpus Christi for FY12-13. The \$80,000 we've been talking about is from the FY10-11 biennium and is already on your grant (you just need a work plan amendment to access it). For FY12, we are making \$283,665.90 available which you can access as soon as we can amend the grant to add and get a work plan from you to spend. In the fall of 2012 we'll have another \$158K to add for FY2013.

Erik
