2 Year GAGAS / Office CPE Requirements

All Subjects	80	<i>This workbook is intended to support documentation and monitoring of continuing professional education (CPE) for auditors performing work in accordance with Generally Accepted Government Auditing Standards (GAGAS) (the GAO "Yellow Book"). The threshold targets displayed are configured for the 2025–2026 measurement period and should be reviewed against your office policy and the authoritative standards. Employees who commence employment after the start of the applicable two-year GAGAS CPE measurement period are subject to a prorated CPE requirement based on their hire date and the remaining portion of the measurement cycle; accordingly, individual compliance status for such employees should be evaluated against their prorated requirement rather than the full biennial threshold.</i>
Minimum Per Year	20	
Government	24	
Ethics	4	
Professional / Audit	56	
<i>green = met; red = unmet.</i>
