

Motion to Determine if City Staff is to Evaluate a Business Proposal for Future Desalination Water Supply Developed by AXE H2O

Nicholas J. Winkelmann, P.E.
Chief Operating Officer – Corpus Christi Water

May 5, 2026

BACKGROUND AND PURPOSE

- AXE H2O is developing a proposal business plan solution for Corpus Christi and surrounding Texas Coastal Bend areas
- This will be a private-funded project
- The proposed plant would produce 150 Million Gallons per Day (MGD)
- The proposed plant will include a dedicated natural gas generation, off-grid power and seawater reverse osmosis (SWRO) technology
- Two locations are currently being evaluated for the potential site of the proposed plant

Staff Recommendation

Staff requests Council to provide direction to review any further forthcoming water supply business proposal as developed by AXE H20.
