Staff Analysis and Recommendation

- The proposed rezoning is consistent with many broader elements of the Comprehensive Plan.
- The proposed rezoning is compatible with neighboring properties along Yorktown Boulevard, which is transitioning to commercial in nature.
- A Type B Buffer will be required, minimally accomplished by a 10-foot-wide buffer and 10 points including a 6-foot, solid wood screening fence. The buffer yard is designed to screen or block vision, noise pollutants, and any other negative by-products between nonresidential districts and one-or two-family districts.
