Public Notice Signs

Purpose: Inform the general public of proposed changes of zoning

- The posted signs provide advanced notice of 14 days before the Planning Commission hearing.
 - The number of posted signs is in relation to the amount of street frontage a property may have.
 - For example 300 feet of street frontage requires one sign. 1,300 feet of street frontage will require two signs.
 - Currently, the sign must be clearly visible, 3 square feet in size, and must remain posted throughout the rezoning process.
