Site Plan

History

- In October 2016, City Council approved Peterson Properties, L.P., Reimbursement Agreement for construction of Distribution Main Extension in the amount of \$19,159.00
 - Due to differing site conditions, encountered during construction, additional items had to be added to the reimbursable work including 110 linear feet of boring and casing across Old Brownsville Road (TxDOT maintained).
 - The proposed amendment will appropriate additional funds totaling \$ 64,035.73.
