Topic	Ongoing Odor Issue at Oso Water Treatment Plant
Agenda Item Number	J
Describe Feedback:	Please address the persistent odor emanating from the Oso Water Treatment Plant, particularly concerning its impact on air quality near Councilman Hunter's residence and our community as a whole.

The ongoing issue of the unpleasant odor has been affecting our neighborhood whenever the wind direction changes, significantly impacting our quality of life. This is next to the future Barisi Village, I urge the City Council to provide transparency on the action plan in place to resolve this long-standing problem. Can we expect regular updates on the efforts being made to mitigate the odor concerns? Additionally, could there be a timeline established for when improvements will be implemented to address this issue effectively?

Over the years, there have been numerous reports highlighting this problem, yet it persists. The similarity of issues on Williams Drive between Nile and Airline underscores the urgency of finding a lasting solution to these odor challenges.
