(361) 886-2603

**Approval to submit a grant application to the State of Texas, Criminal Justice Division
for funding available under the Body-Worn Camera Grant Program FY 2025**

CAPTION:

Resolution authorizing the submission of a grant application to the State of Texas under the FY 2025 Body-Worn Camera Grant Program in the amount of \$154,483.42 for the purchase of 100 additional body-worn cameras and related equipment for the Corpus Christi Police Department, with a City cash match of \$51,494.47 from the Law Enforcement Trust Fund.

SUMMARY:

This resolution will authorize the submission of an application for \$154,483.42 to the State of Texas under the Body-Worn Camera Grant Program, with a City cash match of \$51,494.47, for body-worn cameras for the Corpus Christi Police Department (CCPD). Funding is available from the State of Texas, Criminal Justice Division, under the Body-Worn Camera Grant Program FY 2025 for projects to equip peace officers with body-worn cameras.

BACKGROUND AND FINDINGS:

In 2019, Corpus Christi Police Department (CCPD) invested in the Panasonic body-worn camera and in-car camera system. In 2022, the City received \$75,000 with a \$25,000 cash match for the purchase of 280 body-worn cameras. The 280 body-worn cameras were issued to CCPD field officers. In 2023, CCPD again applied and received funding from this grant for the purchase of 100 additional Body Worn Cameras. This brought CCPD's body-worn camera inventory total to 380. All 380 body-worn cameras are issued to CCPD field officers. If awarded this grant, CCPD will purchase 100 additional body-worn cameras, bringing their total inventory to 480.

CCPD currently needs additional body-worn cameras for the sworn officer positions that were added in the approved FY 2023 Budget, as well as to replace body-worn cameras that have failed in the field.

This grant provides funding for the purchase of 100 additional body-worn cameras and related equipment for sworn officers. The sworn officers that will be assigned the body-worn cameras are those who engage in field work. This means sworn officers that are assigned to traffic or highway patrol or otherwise regularly detain or stop motor vehicles, or primary responders who respond directly to calls for assistance from the public. The funding received from this grant will be used

to purchase the following items listed below.

Funding from the State will provide for the following:

1. Body Worn Cameras and licenses (100)
2. Magnetic mounts for cameras on officers (100)
3. Five-year warranty (100)
4. Eight bay charging dock, AC adapter to charge cameras (13)
5. Storage

The purchase of 100 body-worn cameras will be made through the current five-year agreement with TurnKey Mobile, Inc., who is the City's current supplier for body-worn cameras. The agreement with TurnKey Mobile, Inc. also provides warranty for the replacement of the body-worn cameras if damaged or defective.

CCPD's long-term goal is to issue every sworn officer their own body-worn camera, not just the sworn officers that engage in field work. This project will ensure that CCPD continues to update the cameras with the latest technology available from Panasonic through proactive purchasing and the replacement of body-worn cameras. The City's Information Technology (IT) department actively works with CCPD's Operations Division to maintain a working cache of body-worn cameras and will continue to do so with the new supply.

The grant period is September 1, 2024, through August 31, 2025.

This is the fourth year that the City has applied for this grant. In FY 2023, the City received \$153,027.00 from this grant, with a City cash match of \$51,009.00 from the Law Enforcement Trust Fund.

ALTERNATIVES:

The alternative is not to submit the grant and instead to find available funding within the General Fund in order to replace body-worn cameras as they fail or break. Additional General Fund funding will be needed to purchase the additional body-worn cameras that will need to be issued to cadets after they graduate from the Police Training Academy and begin their field training.

FINANCIAL IMPACT:

The Body Worn Camera Grant in the amount of \$154,483.42 will increase the Police Grants Revenue for the Body Worn Camera Program with a cash transfer of \$51,494.47 from the FY 24 Law Enforcement Trust Fund to the Police Grants Fund for the City cash match.

Funding Detail

Fund	1074
Organization/Activity:	826000S
Department #	88
Project # (CIP Only):	N/A
Account:	520090 - Minor Tools and Equipment
Amount:	\$51,494.47

RECOMMENDATION:

Staff recommends submission of the grant application, as presented.
