Construction Project

This project provides for the reconstruction of Junior Beck Drive from Bear Lane to the dead end and new construction from the dead end to Old Brownsville Road as summarized below:

Reconstruction: Bear Lane to the dead end

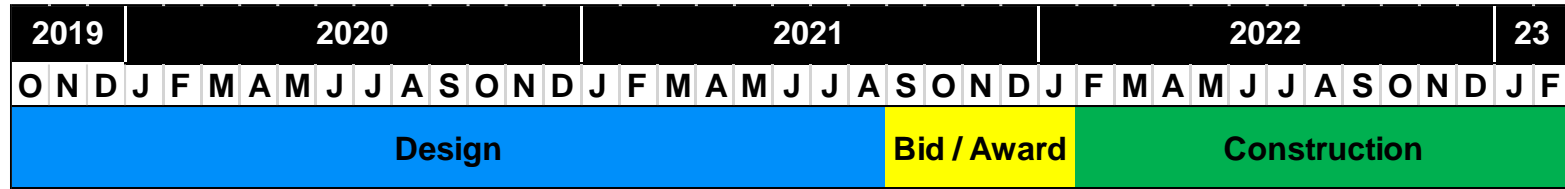

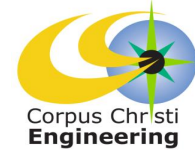

- A new two-lane concrete pavement roadway, driveways, pavement markings, signage, street lighting improvements and utility improvements to water, wastewater, storm water and gas.

New Construction: Dead end to Old Brownsville Road

- A new two-lane concrete pavement roadway with safety illumination, cross culverts, and drainage swales on both sides.

Project Schedule

Projected Schedule reflects City Council award in January 2022 with anticipated completion in February 2023.
