Why are you interested in serving on a City board, commission or committee?

As an experienced active member of the community in Corpus Christi, I understand the role public service has in guaranteeing our community health and safety. Participating in a Port position would mean representing the hard working citizens that don't typically get a seat at the table. I have no connections to the Port of CC which means I hold an unbiased approach to development and base judgement on what's best for the greater good.

Not applicable

Why are you interested in serving on a City board, commission or committee?

I believe the representation on the Port of Corpus Christ Commission lacks the public's voice. Appointees have historically been dominated by people with business interests directly related to profiting from the fossil fuel industry. The commission needs representation that will deliberate from the public good's perspective, where ALL the consequences of the port's decisions are considered.

Education, Professional and/or Community Activity (Present)

High School Graduate. I have been an advocate for tree planting for 20 years or so. Our group has adopted Carroll Lane Park and have planted approximately 20 trees in this park.

If you applied for multiple boards, which boards are you most interested in serving on, in order of preference? (Limit to top three)

Port Authority of Nueces County

Why are you interested in serving on a City board, commission or committee?

I would like to serve on the Park and Recreation Advisory Committee. I don't see the Tree Advisory Committee listed. It has not met since I was asked to resign in 2018, due to running for City Council. I would also be interested in serving on the Corpus Christi Regional Authority, so I can be an advocate for the rider.

Seeking a faster career path and warmer weather, in 1979 he relocated to Corpus Christi, where he first was employed by the **City of Corpus Christi** as **Chief Design Engineer**. Promoted to **City Engineer** (1987), he moved up to **Assistant City Manager—Public Works & Utilities** (1994), **managing 11 City departments with 1100 employees**. Significant projects during his tenure include permitting, construction and opening of a 2200-acre regional sanitary landfill; permitting, design and construction of the 104-mile, 64-inch diameter raw water Mary Rhodes Pipeline, from Lake Texana to Corpus Christi, augmenting regional water supply. (Water delivery began 24 months after project authorization, fast-tracked by severe drought nearly depleting storage in two existing reservoirs.) He also helped acquire additional water rights from the Lower Colorado River, and construction of Mary Rhodes Pipeline Phase II.

In 1999, Mr. Crull joined **HDR Engineering** as **Vice President** and Manager of the small Corpus Christi office, successfully diversifying HDR's local services and increasing area client base. In 2005, he originated acquisition of *Shiner Moseley Associates*, a large local firm with port and marine structures, and coastal engineering specialties, significantly increasing HDR's capabilities in the South Texas region and coastal United States. During this period of company-wide acquisitions, HDR, Inc. became a larger national, then global engineering and architecture company. He retired as Marketing Director in 2016.

In 2016, Mr. Crull formed **Crull Engineering, LLC** to continue providing quality consulting engineering and program management services to the community and area.

Mr. Crull has a wealth of experience in municipal water (supply, treatment and distribution) systems, wastewater (collection and treatment) systems, storm drainage systems, streets, airport, public buildings, and marina facilities. He also has experience in the administration of city land use ordinances (platting and zoning). He enjoys excellent working relations with numerous organizations including regional cities, Nueces and San Patricio Counties, Texas Department of Transportation, Texas Commission on Environmental Quality, Port Corpus Christi, FAA, EPA, Texas Water Development Board, Nueces River Authority, a broad base of community leaders and consulting firms.

He currently serves on the **City of Corpus Christi Planning Commission** (City Council appointment); **TWDB Region N Water Supply Planning Group**; **Texas A&M University-Corpus Christi Engineering Advisory Council**; member of TAMU-CC and Texas State Aquarium President's Councils; Downtown Rotary. Previously served on United Way of Coastal Bend Board (12 years, 4 as Treasurer), University of MO Engineering Alumni Board (6 years) and Texas Council of Engineering Companies Board (4 Years)

Why are you interested in serving on a City board, commission or committee?

The Port of Corpus Christi is the primary economic engine fueling the growth of our region. As Past Chairman of the Corpus Christi Regional Economic Development Corporation, it was under my tenure that we were able to attract the Gulf Coast Growth Ventures Project (Exxon Mobil / SABIC). I have had first-hand experience working alongside Exxon Executive Rob Tully and SABIC Executive Jim Ellis, developing community support for the new multi-billion dollar GCGV Project that attracted 600 high paying jobs and thousands of indirect jobs for our region. With new pipeline expansion, abundant natural gas resources, an ample supply of water, available land for expansion/development, and the new expanded dredging of our deep water Port, our region remains poised for growth and prosperity. I support a fair, transparent, and equitable management of our greatest regional economic asset. Given the opportunity to serve as a Port Commissioner, I pledge to be a great steward of this asset. I care about our community and I have the best interest of our citizens in mind as we work to promote and enhance our Port of Corpus Christi. I am interested in the newly established Capital Improvement Advisory Committee. I believe my financial knowledge and my involvement throughout the community will allow me to serve the best interest of the Citizens of Corpus Christi as we work to address the master planning process and the benefits of impact fees, while providing valuable input and feedback. Thank you for your consideration of my appointment to the Port of Corpus Christi and The Capital Improvement Advisory Committee. Gabe Guerra

N/A

Why are you interested in serving on a City board, commission or committee?

I have been involved in international trade my whole working life in one facet or another. I understand the business of the Port and the role it plays for the users and the companies that rely on it to survive and thrive. I am uniquely more qualified in that regard than any other candidate. It is the reason the Port Industries supported me to replace Bob Kostelnik with Citgo when he stepped down. I cannot stress enough the importance of having at least one of the commissioners on the Port board come from a Port industries background. The Port industries are the true drivers of the success of the Port, and they deserve to have representation. It is these industries that fund the Port's operations, not taxes. Their user fees have helped the Port to avoid having to tax the citizens of Corpus Christi. I'm presently the vice-chairman of the Commission and the only sitting commissioner that has chaired more than two committees. I have chaired the Security, Facilities and Long-Range Planning committees as well as the Port's Industrial Development Corporation. As a commissioner, I have... - been a conduit for the Port Industries to have a voice on the Commission and advocated for their involvement and consideration with Port issues. - pushed Port staff to reinvest money now in infrastructure that will not only benefit our current users but will also drive growth for decades to come. - been part of our DC team that has worked steadfastly to help secure the funding for the Port's Channel Improvement Project. The contribution, I'm most proud of is working with and supporting Port management during stakeholder's contract negotiations as we transitioned to 'take or pay' or 'minimum throughput' contracts. This was a key as the Port transitioned from being in good financial shape to being in excellent financial shape and a leader in the nation in most metrics by which a port is measured, such as: 1. The Port is now the Nation's largest Port in total revenue and the largest American energy export gateway. It was 9th when I first came on the commission. That climb isn't by accident. It's because of strong leadership and fiscal responsibility and good execution and that starts at the top. 2. The Port is currently sitting on assets of \$1.2 billion, up from \$600 million in 2014 3. The Port's Foreign Trade Zone (FTZ) is now touted as the best in the entire nation for combined economic impact. 4. Approximately 98,000 jobs are related to or impacted by the Port (about one-third of the area's labor force) And while achieving that success, we also achieved significant milestones, many of which had been on the radar of previous leadership but without a path to realizing them. Some of those accomplishments include: 1. We invested \$600 million in new infrastructure projects (deeper and wider channel, new docks, new rail, new laydown yards) 2. We raised \$325M in bond proceeds 3. The cargo volume in the Port increased by 85M tons to 160M tons 4. We donated \$4.1 million in 2001 alone to charity 5. We increased our contributions to city initiatives 6. We have a new headquarters 7. We have \$318M in the bank All the above represent records for the Port. The growth and accomplishments of the Port during my tenure is unprecedented not only in terms of our history but compared to other ports throughout the nation. The Port of Corpus Christi has never been in a better position financially, nor has it been better positioned to help ensure that jobs stay in the region, and we continue to be the single biggest driver of growth. The success of the Port during my tenure translates into jobs and tax revenue for our city. It is arguably the biggest driver of those two metrics. In closing, I would very much like to continue to represent the City on the Port Commission and respectfully ask for your continued support.

Why are you interested in serving on a City board, commission or committee?

I believe in serving the community and have skills that will add value to decisions made. When I moved to Corpus Christi as a young Engineer I personally conducted the underwater survey of damage to our Seawall and L-Head/T-Head structures with Goldston Engineering. The resultant reports and design proposal was adopted by the city and is in place today. Furthermore I was instrumental in collecting and presenting data to Congress that brought the Homeport to Corpus Christi. I worked on the GCCA Redfish hatchery and King Ranch Shrimp Farm in the 1980. I went on to work in the International Oil and Gas Industry as an engineer and progressed to VP of a Major Supplier of Equipment and Services Worldwide. I had 200 employees and offices in Corpus Christi, Houston, Chicago, Norway, Dubai and Singapore. After retiring I started an independent engineering company focused on Texas Windstorm Certifications and Marine Industrial Infrastructure.
