RE: CORPUS CHRISTI POLICE MOTORCYCLE MAINTENANCE PROPOSAL

Corpus Christi Harley-Davidson (CCHD) is pleased to present the following proposal for maintenance of the current Corpus Christi Police Department Harley-Davidson motorcycle fleet.

As requested, CCHD is providing this proposal for a four-year maintenance contract. After review of the current usage of the police motorcycle fleet, CCHD is making this proposal with the assumption that the typical annual mileage of each vehicle will be approximately 15,000 miles.

This proposal is for standard interval maintenance, specifically all suggested 5,000 and 10,000 mile interval services, front and rear tire changes as indicated by wear and mileage.

The four-year maintenance contract does not extend to or include additional service for mechanical failure, service for typical wear and tear items, or collision/damage repair.

Based upon the 15,000 mile estimate of mileage per year, CCHD is proposing annual maintenance of three front and rear tire and brake pad changes, an oil change at the 5000 mile service interval and a full 10,000 mile service each year, for four years. The cost per motorcycle for the four-year contract will be \$12,576.00 Said sum for the four-year maintenance contract includes all hard mechanical parts, tires, and labor.

CCHD further proposes to perform all repair work not covered under the maintenance contract but authorized by the city at CCHD's posted labor rate and with a 10% discount off the manufacturer suggested retail price for all hard parts, painted parts or other parts required for repairs not covered by the four-year maintenance contract.

CCHD will maintain the current "turn around" times as stated in the pervious maintenance contract with the City, with the exception that CCHD is no longer open on Mondays. CCHD, for immobile vehicles, will provide pick up service at no additional charge. Once vehicles are repaired and operable it is assumed an officer or representative of the Police Department will pick up the vehicle.

Thank you very much for the opportunity to make this proposal.

Best Regards,

S. Preston Douglass, Jr.
