

Navigation Boulevard “REBID” from Up River Road to Leopard Street BOND 2012

**Council Presentation
February 16, 2016**

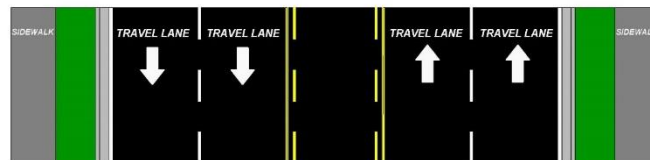

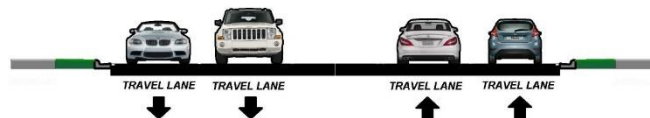

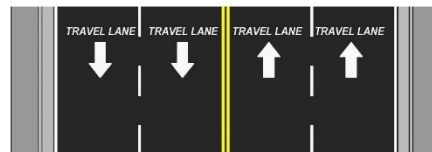

Project Vicinity

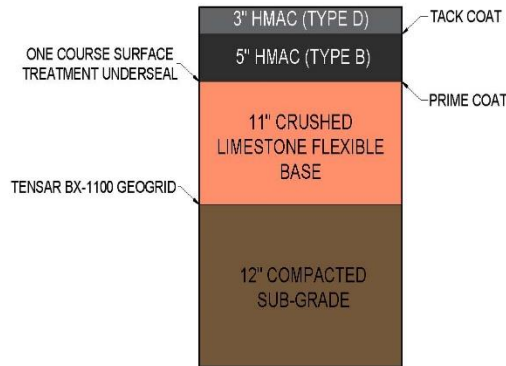

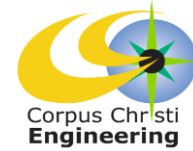

Existing Layout

Project Scope

This provides for the award for the REBID for the Navigation Street Reconstruction Project for the full-depth reconstruction and widening existing 4-lane to a 5-lane HMAC pavement with a continuous center turn lane, sidewalks, curb & gutter, ADA ramps, pavement markings. Work includes:

- Two traffic signal upgrades; Leopard and Up River intersections
- Pedestrian signal upgrades at I-37 intersection
- Bike lanes not included or recommended

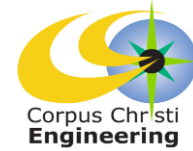

Utility Improvements include:

- Water – Repl. of ACP lines with new PVC lines
- Wastewater – Repl. of VCP lines with new PVC, MH rehab and pipe bursting of deep lines
- Gas – Repl. of existing wrapped steel lines with new polyethylene pipe
- Storm water – New curb & gutter, curb inlets and laterals with MH upgrades

❖ Note: No bids were received for Concrete Base Bid
