**Subject:** RE: Notice of Failure to Enter into an Agreement & Opportunity to Cure

Mr. Edmonds, Payment & Performance bonds were requested from our surety timely, however our underwriter requested information causing a delay in response to the August 05 deadline. The Requested information was submitted, however not incorporated to our file until early this week. We understand and are appreciative to the time extension given, unfortunately the Payment and Performance Bonds can not be presented by 5:00pm today as discussed.

Feel free to contact me if you have any questions

Thank You,

Christopher Cruz

Chris –

The letter we discussed yesterday has been drafted by counsel and will be going out certified mail to your attention with a scanned copy delivered via email. The letter states that by 5:00 p.m. on Friday, August 5, 2016, you must provide a valid Performance Bond and a valid Payment Bond in the amount of your Bid for the Project. If you fail to deliver the required bonds,

the City will declare you to be in default, award the contract to the second lowest bidder for the Project and claim against your bid bond for the price difference.

Your prompt attention to this matter would be greatly appreciated.

Jeff Edmonds, P.E.
