Subject: Porto Villageo Unit 2 (Final Plat)

Mrs. Garza-Montalvo:

We, Urban Engineering, on behalf of Mustang Island Holdings, LLC, would like to request a time extension of six (6) months for the above referenced project. A wetlands determination is actively underway by the Corps of Engineers Corpus Christi Regulatory Field Office (USACE). Per the attached letter, HDR will be submitting a supplemental wetland delineation to the Corps for final approval based on the Corps' site visit. We cannot move forward with the plat until the determination is approved and complete. We anticipate this taking place in the next few weeks. Please consider the attached email from Bill Green dated March 7, 2016 concerning the length these determinations can take when making a decision on the time extension request. We have included a check in the amount of \$38.00 made payable to the City of Corpus Christi for this request.

Thank you,

Xavier Galyan
