OUTSIDE PRESENTER(S):

<u>Name</u>	<u>Title/Position</u>	<u>Organization</u>
1.		

BACKGROUND :

This project consists of dredging and hauling to the landfill water treatment plant residuals (sludge) from Lagoon – 7. Contract was awarded to American Process Group with our Engineering consultant LNV supporting. This is a one year contract with a one year renewal, each year is for \$3.75M for a total not to exceed \$7.5M. The original contract as well as the funding was approved by council on December 20, 2016 and this would be for the one year extension.

The project is running much smoother and substantially quicker than expected. A total of 403 loads of sludge-approximately 3,000 wet tons. Estimated dry tonnage produced is 2,814.
