Staff Summary:

Requested Zoning: The applicant is requesting a rezoning from the “IH” Heavy Industrial District to the “IL” Light Industrial District to allow for the construction of an office building

Development Plan: The subject property is comprised of 1.284 acres is proposed to be developed as a 6,500 square foot office building with a maximum occupant load of 65.

Existing Land Uses & Zoning: The subject property is zoned “IH” Heavy Industrial District and is vacant. The north property is zoned “IH” Heavy Industrial District and has vacant and light industrial uses. The properties to the south are “CI” Intensive Commercial District with vacant, commercial, and professional office uses. The eastern property is zoned “CI” Intensive Commercial District with public/semi-public use. To the west is “CI” Intensive Commercial District with professional office use.

AICUZ: The subject property is not located in one of the Navy’s Air Installation Compatibility Use Zones (AICUZ).

Plat Status: The subject property is platted.

Plan CC & Area Development Plan Consistency: The subject property is located within the boundaries of the Central Business Area Development Plan (ADP). The proposed rezoning to the “IL” Light Industrial District is inconsistent with the adopted Central Business ADP. The proposed rezoning is related to the following policies of the Comprehensive Plan:

- Support future development by making a variety of land uses available, while working to ensure compatibility between existing and future land uses. (Central Business ADP, Objective LU 1).
- Existing industrial zoning or land use changes to another or expanded industrial use shall be discouraged (Central Business ADP, Policy LU 1.4).
- Corpus Christi is able to attract and retain firms because of its competitive assets and supportive business environment. (Plan CC, Economy and Workforce, Goal 2).

Department Comments:

- Changes from one industrial use to another is discouraged in the Central Business ADP
- There is not access to Collector or Arterial Streets to service vehicles typically used in industrial zoning
- Use of the property as residential is not characteristic of the neighborhood.
- An office use would be consistent with the surrounding businesses.
- Residential use exists a block south of site.
- Proposed use of office does not require the "IL" Light Industrial District.

Staff Recommendation (April 19, 2017):

Denial of the change of zoning from the "IH" Heavy Industrial District to the "IL" Light Industrial District, and in lieu thereof, approval of the "CI" Intensive Commercial District.

Planning Commission (April 19, 2017):

Approval of the change of zoning from the "IH" Heavy Industrial District to the "IL" Light Industrial District.
