## 2018 (Year 5) SPMP Work Plan

## SPMP Street Selection Criteria (Presented 11/19/2013)

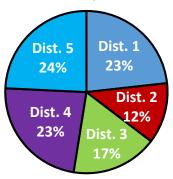

- 1. Work based on **Pavement Condition Index** (PCI) scores:
  - ✓ Approximately 56 for Overlays and 71 for Seal Coat
  - ✓ Work the ones closest to 56 and 71 first
- **2. Distribute by District** based on Capital Assets needing Maintenance (% of Network)
- **3. Distribute by Street Classification** (Residential, Collectors & Arterials) based on Capital Assets (% of Network)
- **4. Coordinate work** for Residential by Neighborhood and initial subdivision construction dates
- **5. Distribute work** by percentage of Overlay and Seal Coats
- **6. Prioritize by traffic loads** causing potential premature failure of roadway
