Re: Aruba Bay Resort Plat

Dear Ms. Nixon-Mendez,

I want to thank you for your quick response to my letter to City Manager Margie Rose and also for your personal telephone calls regarding this matter.

As we discussed on the phone, please let this letter serve as my submittal for an appeal "for an extension of time for the Aruba Bay Resort Plat". After August 25, 2017, our lives changed and I began repairing over 100 units damaged from Hurricane Harvey. Because of the massive repairs and insurance settlement efforts, I lost tract of time and missed the date to ask for an extension for the Plat approval.

I understand that the New Plat is going to be before Planning Commission on June 13th; however I want to speak and ask for the plat extension regarding the earlier Plat. I would have either asked for an extension before the expiration date or I would have been making substantial progress on the construction, if we would not have had Hurricane Harvey.

Thank you again, for your help on this matter.

Blessings,

Alex H. Harris
