

Corpus Christi Business and Job Development Corporation

Dear Mr. President:

The Board of Directors of the Corpus Christi Regional EDC voted unanimously to recommend to the Type A Board an incentive of up to \$2,356,000 for Del Mar College for the expansion of their Process technology program.

Project Description:

The College's Process Technology Program and Industrial Instrumentation Program address the region's growing need for skilled technicians in process technology, instrumentation, industrial automation, process control, safety and related fields. DMC proposes to expand its abilities to deliver training in these areas by adding training in ethylene cracker systems, industrial process maintenance, and the full scope of industrial pump and tank transfer training to further support our area's workforce needs.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Iain Vasey', with a large, sweeping flourish at the end.

Iain Vasey
President/CEO
