

# Programmed Water Line Service Life Extension Indefinite Delivery Indefinite Quantity (IDIQ) Program

Council Presentation  
July 24, 2018

# Project Location

# Project Scope

This professional services contract provides for engineering and survey services for Programmed Water Line Service Life Extension IDIQ to include the following:

- ✓ Bid document preparation
  - ✓ Delivery Order preparation (DO)
  - ✓ Topographic surveying
  - ✓ Additional technical & administrative services for construction phase
- The IDIQ provides “real-time” engineering and construction for major improvements, repairs and rehab for the City’s 1,368 miles of existing pipe
  - DO are based on the contractor’s unit bid prices to determine most cost-effective solutions

This program also supports the City’s Street Preventative Maintenance Program (SPMP)

# Project Schedule

**Project Estimate: 36 Months**

Projected schedule reflects City Council award in July 2018 with construction completion by July 2021
