

Water Master Plan Amendment:

South of Oso Creek

Planning Commission Presentation
September 19, 2018

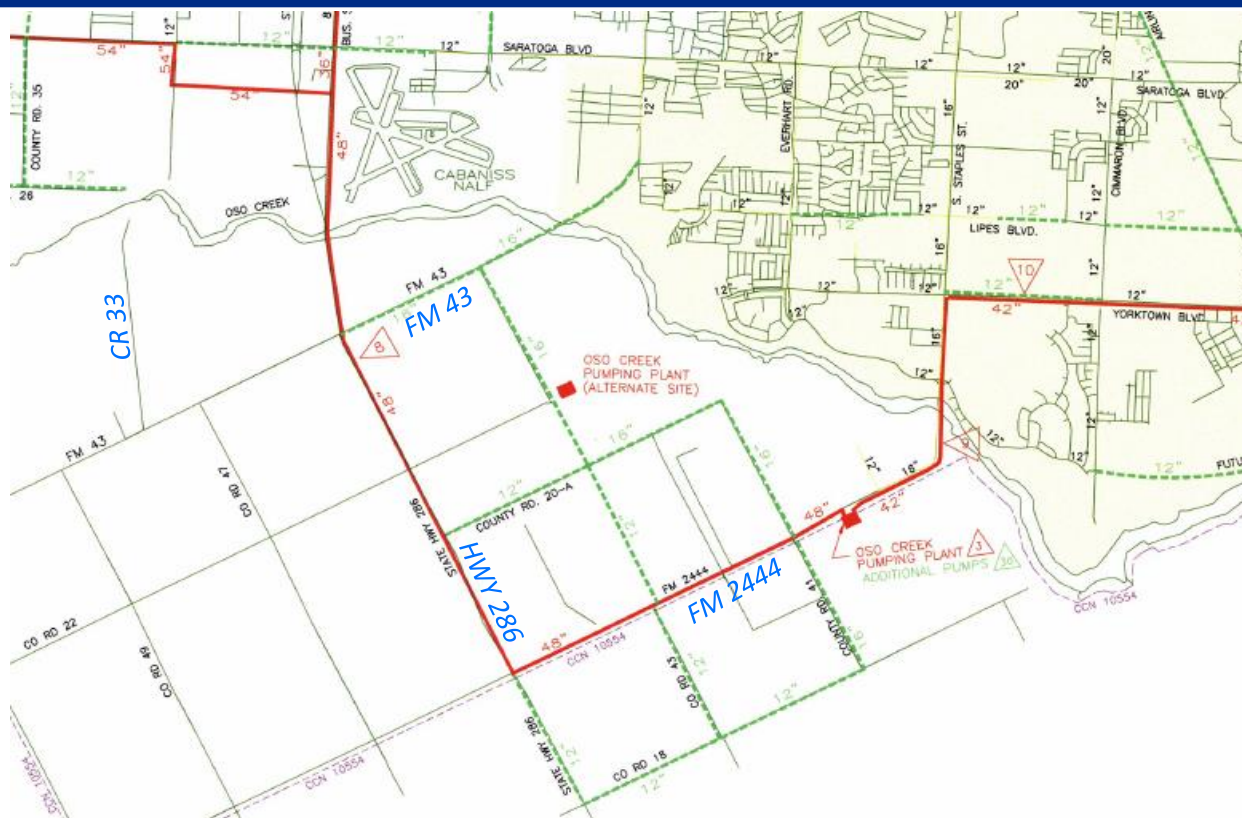

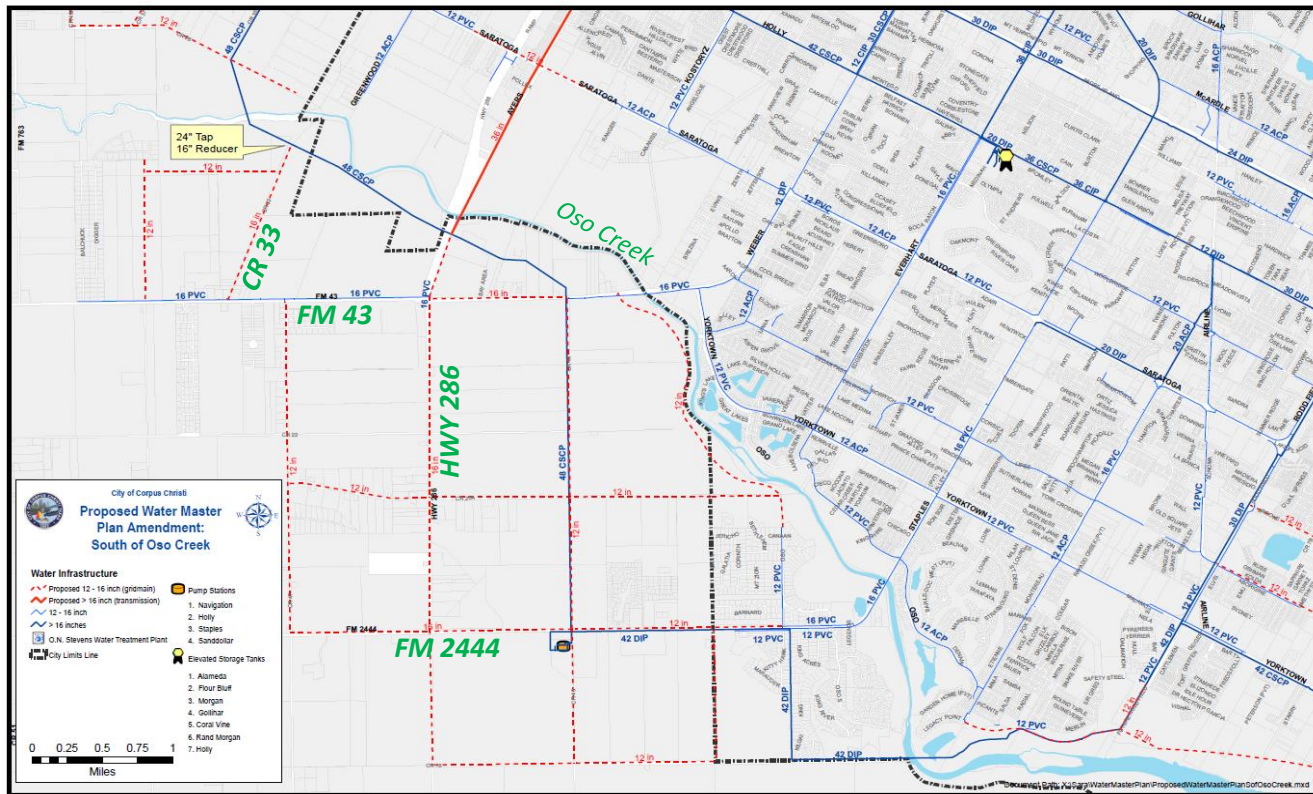

Subject Area

Existing 1997 Master Plan

Proposed Amendments

- Update the plan to reflect the existing location of the existing 48" and 42" transmission main from Greenwood Drive to the intersection of Yorktown Boulevard and Rodd Field Road
 - Propose a combination of water gridmains and transmission mains in the surrounding areas of County Road (CR) 33, FM 43, FM 2444 and HWY 286
-

Objectives Achieved

The proposed amendment:

1. Facilitates the development of an adequate water grid system
 2. Facilitates orderly development
 3. Improves water quality and pressure
 4. Updates the plan to reflect existing conditions
-

Master Plan Implementation funding Sources

- Bond projects
- Indefinite Delivery/Indefinite Quantity (ID/IQ) projects
- Trust fund Reimbursements (partially/fully)
