Mr. Jeff Edmonds, P.E.
Director of Capital Programs
c/o Ms. Sarah West, P.E.
Engineering Project Manager
City of Corpus Christi
P.O. Box 9277
Corpus Christi, TX 78469-9277

Subject: **AWARD RECOMMENDATION
FLATO ROAD (Bates to Agnes) E15110**

Dear Mr. Edmonds:

On August 22, 2018, bids were received and opened on the subject project. There were six (6) bidders, the three (3) lowest are as follows:

1. Reytec Construction Resources	\$ 7,985,187.50
2. Clark Pipeline Services	\$ 7,985,566.71
3. JE Construction Services	\$ 8,039,845.89

Proposals from the low bidders were checked for mathematical errors, and one summing error was found in the bid from Clark Pipeline Services, but it did not affect the total bid value, or low bidder.

All three (3) of the lowest bidders, Reytec Construction Resources, Clark Pipeline Services, and JE Construction Services, submitted the information requested in SECTION 00 45 16 STATEMENT OF EXPERIENCE. The information supplied by the low bidder, Reytec Construction Resources, appears to be complete and in order as follows:

- All key Project personnel have at least 5 years of experience in their respective positions.
- Provided information which demonstrates their ability to successfully complete projects of similar size and complexity to this project.
- Provided information which demonstrates they have an acceptable safety record.
- Provided information which demonstrates their ability to provide subcontracting opportunities for MBE, minority, and DBE participation in the project.

The information supplied by the second lowest bidder, Clark Pipeline Services, appears complete and in order as follows, with the exception of the first item listed below:

- Failed to provide information showing personnel have at least 5 years of experience in their respective positions.
- Provided information which demonstrates their ability to successfully complete projects of similar size and complexity to this project.
- Provided information which demonstrates they have an acceptable safety record.

SEPTEMBER 4, 2018

The information supplied by the third lowest bidder, JE Construction Services, appears to be complete and in order as follows with the exception of the first item listed below:

- Failed to provide information showing personnel have at least 5 years of experience in their respective positions.
- Provided information which demonstrates their ability to successfully complete projects of similar size and complexity to this project.
- Provided information which demonstrates they have an acceptable safety record.

Reytec has successfully completed at least two other projects for the City of Corpus Christi, one on Kostoryz Road and another project on Staples Street, and both projects are concrete pavement, which will also be constructed on this project. They also are currently constructing another section of Staples Street, and their workmanship has been excellent on all these projects. Thus, we recommend Reytec Construction Resources for consideration of award of the contract, subject to the availability of funds.

Sincerely,

CH2M HILL Engineers, Inc.

TBPE Firm No. F-3699
