

Water Master Plan Amendment:

South of Oso Creek

City Council Presentation
October 23, 2018

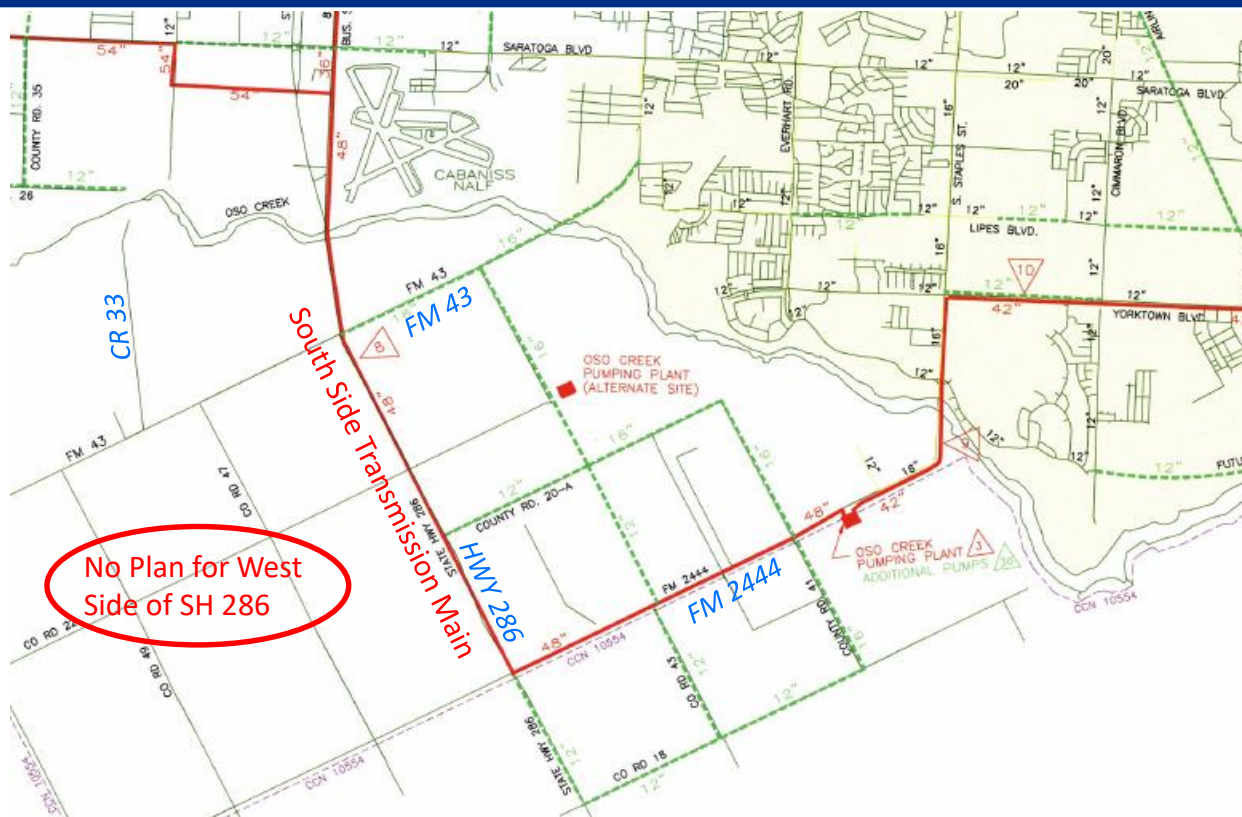

Subject Area

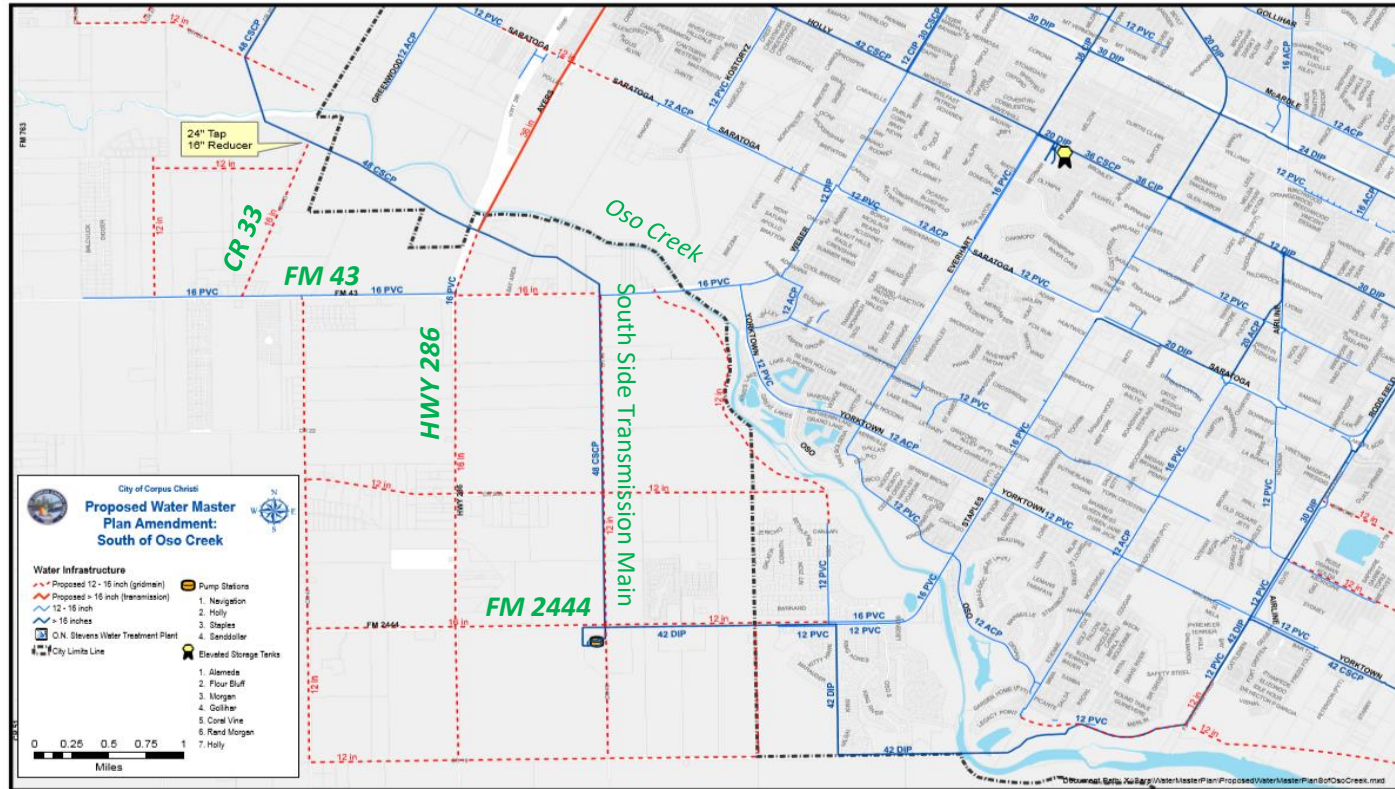

Existing 1997 Master Plan

Proposed Master Plan

Proposed Amendments

- Update the plan to reflect the existing location of the existing 48" and 42" Transmission Main from Greenwood Drive to the intersection of Yorktown Boulevard and Rodd Field Road
 - Propose a combination of Water Grid Mains based on the alignment of the existing Transmission Main in the surrounding areas of County Road (CR) 33, FM 43, FM 2444 and HWY 286
-

Objectives Achieved

The proposed amendment:

1. Provide a plan for Areas with adopted Wastewater and Storm Water Master Plans (London)
 2. Facilitates the development of an adequate water grid system
 3. Facilitates orderly development
 4. Improves water quality and pressure for Commercial and Residential Customers
 5. Updates the plan to reflect existing conditions
-

Master Plan Implementation funding Sources

- Revenue Bond projects
 - Indefinite Delivery/Indefinite Quantity (ID/IQ) projects
 - Trust fund Reimbursements (partially/fully)
