Solid Waste Air Compliance and Gas System Monitoring 2019-2021

This item provides for a multi-year professional services contract with one base year plus two optional year extensions, summarized below:

- Semi-annual and annual monitoring, testing, and reporting of LFG emissions per TCEQ and EPA requirements
- Recordkeeping and reporting of 164 LFG extraction wells
- Routine and non-routine maintenance of the blowers, motors, flares, compressors and other mechanical equipment
- Troubleshooting potential hazards (fires, system outages, etc.)
