This indemnification does not apply to any liability resulting from the negligent acts or omissions of the City or its employees, to the extent of such negligence.

If a claim is based wholly or partly on the negligence of, fault of or breach of contract by Indemnatee, the Consultant shall reimburse the City's reasonable attorney's fees in proportion to the Consultant's liability.

Consultant must advise City in writing within 24 hours of any claim or demand against City or Consultant known to Consultant related to or arising out of Consultant's activities under this Agreement.

ARTICLE VIII – TERMINATION OF AGREEMENT

8.1 By Consultant:

8.1.1 The City reserves the right to suspend this Agreement at the end of any phase for the convenience of the City by issuing a written and signed Notice of Suspension. Within 30 calendar days after receipt of the Notice of Termination, unless Consultant has successfully cured a failure to perform, Consultant shall submit a statement showing in detail the services performed under this Agreement prior to the effective date of termination. There will be no compensation for anticipated profits on services not completed.

8.3.4 Consultant acknowledges that City is a public entity and has a duty to document the expenditure of public funds. The failure of Consultant to comply with the submittal of the statement and documents, as required above, shall constitute a waiver by Consultant of any and all rights or claims to payment for services performed under this Agreement.

ARTICLE IX – RIGHT OF REVIEW AND AUDIT

9.1 Consultant grants City, or its designees, the right to audit, examine or inspect, at City's election, all of Consultant's records relating to the performance of the Work under this Agreement, during the term of this Agreement and retention period herein. 9.3 City agrees that it shall exercise the right to audit, examine or inspect Consultant's Records only during Consultant's regular business hours. Consultant agrees to allow City's designee access to all of Consultant's Records, Consultant's facilities and Consultant's current employees, deemed necessary by City or its designee(s), to perform such audit, inspection or examination. Consultant also agrees to provide adequate and appropriate work space necessary to City or its designees to conduct such audits, inspections or examinations.

10.4 The City may withhold or nullify the whole or part of any payment as detailed in Article III.

ARTICLE XI – CONSULTANT REMEDIES

11.1 If Consultant is delayed due to uncontrollable circumstances, such as strikes, riots, acts of God, national emergency, acts of the public enemy, governmental restrictions, laws or regulations or any other causes beyond Consultant's and City's reasonable control, an extension of the Project schedule in an amount equal to the time lost due to such delay shall be Consultant's sole and exclusive remedy. The revised schedule should be approved in writing with a documented reason for granting the extension.

Subject: Proposal for City of Corpus Christi Engineering Project No. 18139A
Alternative Water Supplies Technical Support

Dear Mark:

In accordance with my recent discussions with your staff, I am submitting this proposal to provide project coordination services during the permitting phase of the City's Seawater Desalination Project and during the City's efforts to identify and obtain Alternative Water Supplies.

In the last several months the City has made significant progress in the effort to finalize and obtain approval from City Council for the new ordinance and agreements related to the drought allocation surcharge exemption fee which will provide an additional source of funding for the proposed seawater desalination facility. With this effort nearly completed, the City can now focus its efforts on the permitting phase of this important project.

Additionally, the City has recently issued a Request for Information related to Alternative Water Supplies that will look at a number of additional sources for water which may include groundwater, surface water, desalination and other sources.

Both of these important efforts will advance the City's efforts to diversify its water supplies and plan for the future. But both of these will require a significant amount of effort by City staff and its consultants.

Based on our discussions, I have prepared the following proposal with a scope of work, cost and schedule for providing coordination services related to both of these important efforts:

Scope of Work:

A. Seawater Desalination Project:

1. Attend periodic project meetings with the City, its consultants, local industry, Port of CC, regional water suppliers and other involved parties.
2. Work with City staff and its consultants during the permitting phase of the project to identify and evaluate sites for the proposed desalination project.
3. Provide input to City staff and its consultants on existing port infrastructure and channel issues which may affect the location of proposed intake and discharge structures. Assist with meetings with the Port of CC as needed regarding same.
4. Work with City staff and its consultants on issues related to initial and ultimate plant capacity, water delivery infrastructure, demand and consumption as it affects the permitting process.
