Mark Orzco:

Vaquero Saratoga Partners, LP is requesting an extension to the Congress Place Unit 2 Replat. The reason for this request is that it took longer than we anticipated to get a permit for the fire hydrant required in the TXDOT right-of-way. We received that permit October 5, 2018, after the plat was expired. We are currently seeking a contractor to install the hydrant so that everything complies with the City of Corpus Christi's comments. Thank you for your consideration of this matter and we look forward to moving this plat forward.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kelen", is written over a horizontal line.
